## 1. Definitions

### 1.1. What is a Special Educational Need (SEN)?

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- Has a significantly greater difficulty in learning than the majority of others of the same age, or
- Has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions. (Special Needs and Disability Code of Practice, 2015)

### 1.2. What is Disability?

The Equality Act 2010 definition is:

“A person has a disability for the purposes of this Act if (s)he has a physical or mental impairment which has a substantial and long-term adverse effect on his ability to carry out normal day-to-day activities”

This definition of disability in the Equalities Act includes children with long term health conditions such as asthma, diabetes, epilepsy, and cancer. Children and young people with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and young people and those with SEN. Children and young people may therefore be covered by both SEN and disability legislation.

## 2 Application of this Policy

The policy is applicable to all employees (permanent and temporary) of DEMAT. Where applicable, it is also applicable to all Volunteers supporting DEMAT.

The above definitions are included for reference purposes for both Academy and Central Team staff to enable clarify and transparency when applying this policy.

## 3 Relationship with DEMAT Values

The application of this policy must be always applied in a way that reflects the values of DEMAT and its Christian Ethos:

### Vision

To Learn. To Know. To Lead Out. “I can do all things through Christ who strengthens me” (Philippians 4:13)

### Values

Love – We engender love and tolerance between and for our staff, pupils, and others to foster an inspiring atmosphere of mutual support.

Community – We are committed to ensuring our academies are a living part of the community and contribute positively to its needs.

Respect – We do everything to provide a caring, safe, and secure place for our staff and pupils to be happy and respected in our academies so they may achieve their potential.

Trust – We acknowledge accountability and responsibility for our actions and ensure that we encourage each other to make brave decisions and then learn from any mistakes.

Ambition – We are determined that our academies offer a place for the joy of learning, enabling those of all abilities to thrive and go on to lead rewarding lives.

## 4 DEMAT Principles of Inclusion

Our vision is for every child to flourish, be introduced to the richness of human experience and understand and question the world around them. As a result, we have high expectations and seek to explore and implement solutions to support and improve outcomes for our children.

- All DEMAT children are entitled to a knowledge-rich curriculum where knowledge is valued, specified, well-sequenced and taught to be remembered.
- Where necessary, through robust and rigorous assessment processes, we make intentional decisions to adapt and make reasonable adjustments ensuring that all DEMAT pupils receive this entitlement because their identified needs are addressed.
- In DEMAT schools, everyone is responsible for the culture of ambitious aspirations and high expectations for all pupils recognising that each child is unique, complex and valued.
- These high expectations are for our pupils' academic outcomes, their personal conduct, and their contribution as members of the communities to which they belong in order that they may flourish now and in the future.
- The behaviour curriculum is taught proactively with consistent expectations, approaches to the learning environment and routines set to ensure that all children receive their entitlement to the education they deserve.
- We work in partnership with parents, carers and professionals so there is a shared understanding of the evidence-informed inclusive practice.

## 5 Purpose and Scope

### 5.1 . Policy Statement

Children are at the heart of all we do. Ensuring access to education, regardless of any learning difference or disability, and facilitating learning by overcoming any potential barriers. All staff will be ambitious and aspirational for students with SEND.

### 5.2 . Purpose of this policy

This policy sets out the DEMAT policy and procedure for all our Academies to ensure all pupils in our care receive the best educational experience by:

- Explaining the roles and responsibilities of everyone involved in providing for pupils with SEND.

- Ensuring all staff understand their role and responsibilities in relation to SEND and inclusion.
- Demonstrating our Trust's commitment to procedures relating to SEND and inclusion.
- Ensuring all pupils who fall within the definitions identified in Section 1 of this policy, whether they have been issued with an EHCP, receiving SEN support, or placed on the SEN Register are supported.

The needs of those pupils with SEND are met by:

- Ensuring that the process of rigorous assessment and early identification lead to appropriate provision being made for any pupil who has special educational needs, or a disability and those needs are made known to all who are likely to teach them.
- The progressive removal of barriers to education and participation.
- Ensuring those pupils with SEND receive their full entitlement to a knowledge rich curriculum and appropriate inclusion in all Academy activities.
- Ensuring pupils with SEND are valued equally with all other pupils and will be enabled and encouraged to develop their potential to the full.
- Ensuring the Academy provides appropriate support framework to respond to pupil's identified needs.
- Following the Special Educational Needs and Disability Code of Practice (2015) when carrying out our duties toward all pupils with special educational needs or a disability.
- Involving the children themselves in planning for their own provision and value what they must contribute.

## 6 Procedures

### 6.1. Legislation and guidance

- All Academies must ensure that all pupils; including those with protected characteristics, as defined by the [Equalities Act 2010](#), can flourish and thrive within the academy community.
- The protected characteristics in which pupils must not be discriminated against are age; disability; gender reassignment; race; religion or belief; sex; sexual orientation.
- All pupils, including those identified as having SEND, have the same common entitlement to a broad and balanced academic and social curriculum, which is accessible to them, and enables them to be fully included in all aspects of academy life.
- All DEMAT pupils are entitled to a knowledge-rich curriculum where knowledge is valued, specified, well sequenced, and taught to be remembered.
- All Academies in England must have regard to the [SEND Code of Practice 2015](#) it provides statutory guidance on duties, policies and procedures relating to Part 3 of the Children and Families Act 2014 and associated regulations. Academies must fulfil their statutory duties towards children and young people with SEN or disabilities considering the guidance set out.
- Under the Equality Act (2010), all Academies have duties towards individual disabled children and young people. They must make reasonable adjustments, including the provision of auxiliary aids and services required by disabled children and young people to prevent them being put at a substantial disadvantage.
- [Teacher Standards 2021](#) expect all teachers to “adapt teaching to respond to the strengths and needs of all pupils”. Teachers must “have a clear understanding of the needs of all pupils, including those with special educational needs; those of high ability; those with English as an additional language; those with disabilities; and be able to use and evaluate distinctive teaching approaches to engage and support them.” (Standard 5)

- High quality teaching that is differentiated and personalised will meet the individual needs of most children and young people. Some children and young people need educational provision that is additional to or different from this. This is special educational provision under Section 21 of the Children and Families Act 2014.
- As part of its commitments under articles 7 & 24 of the UNCRPD, the UK government is committed to inclusive education of disabled children and the progressive removal of barriers to learning and participation in mainstream education.
