**CloudCollect**  
Simplifying Cloud Storage and Management

## Cloud Collect Edge

Camera firmware plug-ins (apps) for all major camera brands that record video to an object storage directly from a camera.

CloudCollect  
Simplifying Cloud Storage and Management

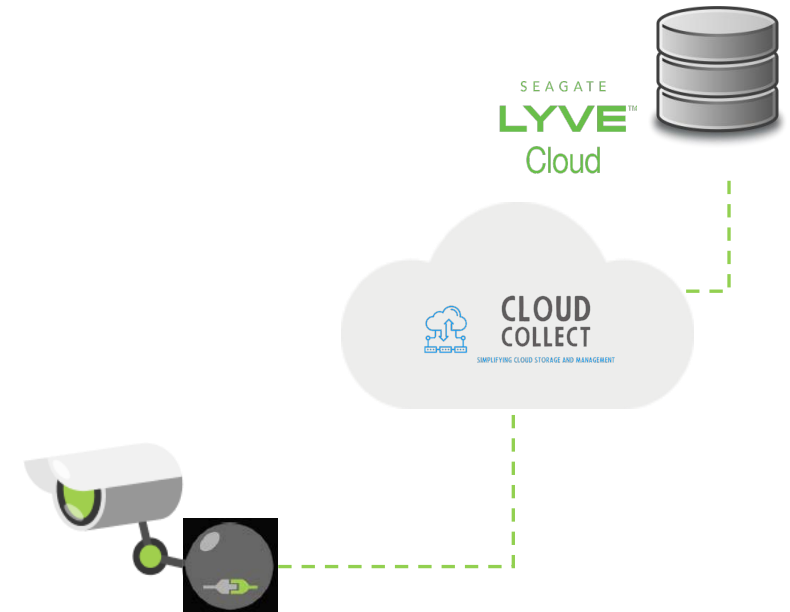

Cloud Collect Edge

## Camera plug-in (app)

Values and benefits:

1. No lock-ins and dependencies – works with any VMS or without VMS at all.
2. Low entry barrier – pay per camera, no need to buy a VMS or NVR.
3. Easy distribution – an all-in-one simple s/w module that runs on a camera.
4. Simple integration – standard clips and image files that can be used even without a VMS

Cloud Collect Edge

## Camera plug-in (app)

### Features:

1. Records video to an object storage directly.
2. Backups video to an SD card and recovers in case of network loss.
3. Converts video to simple, easy-to-use formats: clips, images, text.
4. Connects to a traditional VMS – Cloud Collect Cloud VMS.

000723.000027_primary_d60.jpg	34.71 KB

(this is how it looks in an object storage)

1. Any VMS can be used in parallel with the camera plug-in.
2. Integrated with Cloud Collect Cloud VMS.
