III. VI DIRECTOR’S REPORT

Voice Institute Director, Philip Doyle stated: “This year's Voice
Institute has been very successful. Although formal numbers have
not been confirmed, it appears that attendance exceeded 120
individuals which are excellent. Of those in attendance, the IAL
initiative to attract students to the VI has met with remarkable
success with more than 60 students representing at least 11
university programs. Informal feedback from students suggests the
VI experience was highly valued by them and that they would encourage other students to attend in the future. Evaluation forms for the VI were obtained from more than 90 individuals and the preliminary assessment of the content, breadth, and value of information presented is outstanding. Formal tallies of responses will be provided as part of the final report submitted by the Interim Voice Institute Director within 60 days of the meeting.

The 14 visiting faculty who participated in all phases of the VI was unique in that five of them were new. As such, the breadth of information covered was done so in a novel fashion from a continuing faculty. Additionally, it should be noted that all faculty members refused to accept a stipend for their time or per diem as part of their participation; this gracious offer has afforded the IAL a considerable operational savings this year. Similarly, 7 local Speech-Language Pathology faculty members offer outstanding support, particular in relation to the hands-on TEP clinic conducted at the University of Kansas Medical Center (KUMC) on June 17th. The medical team at KUMC, headed by Dr. Douglas Girod also offered great support in an effort to make that session a success. Finally, sincere appreciation is also extended to Dr. Jeff Searl who coordinated all aspects of that clinic, along with substantial support regarding other local issues specific to the conduct of the VI. Formal letters of appreciation will be sent to all faculty members by the Interim Director to acknowledge their contributions to the success of this year's program.

While the general conduct of the VI was relatively smooth, some problems did emerge (lighting, room set up and changes) and the weakest link in solving these problems was at time related to hotel staff. These types of problems should be specifically addressed in advance of the next VI.

As for future considerations to improve all aspects of the IAL programs offered as part of the VI and the Annual Meetings, it would be beneficial to consider some logistic issues that will permit more seamless programming and to do so in an effort to optimize the opportunity for increased continuing education hours as part of one's attendance. Details regarding this concern and recommendations for improvements will be offered as part of the final report from the Interim Director.”

A list of the Committees was circulated to members of the Board to give them the opportunity to select which committees they would be interested in serving on. President Bob Herbst, will make appointments for each member excluding the Nominating, Finance and Annual Meeting Committees.
