

# Green Forest Soaps & Salves

# *Living the Natural Way*

## GREEN FOREST SOAPS & SALVES

I began making soap in 2011 for our own family. What started as a simple project soon became a hobby - the more I researched, the more it grew. Before long, we were selling in a few local stores.

In 2017, our daughter purchased a share of a salve business. By 2019, we bought the rest and merged it with our soaps, creating what is now Green Forest Soaps & Salves.

All of our products are 100% natural. We grow most of our herbs right here on our farm and growing even more each year. We use doTERRA oils and all natural oils — no fragrances or citric acid.

### **2024 Updates From the Esh Family Farm in Paradise, PA**

We are currently regenerating our farm back to grass, grazing dairy cows, and raising chickens. We also work with injured horses, helping them recover and heal. Our herbs and salves are safe for pets and horses.

We are a chemical-free, non-GMO farm, and our neighboring farm is chemical-free as well. We are growing more of our own herbs.

Our salves are made with fresh, live plants, giving you the highest quality, most effective product possible.
