Why Peru

A formal MINCETUR route for online gaming and remote sports betting

Regulated pathway

Peru's online gaming framework includes both company setup and MINCETUR-facing workflows for legal entity authorization and platform registration.

The route is designed for remote gaming and remote sports betting operators.

Platform-focused

MINCETUR maintains registries for authorized technological platforms and related gaming / betting components.

The workflow must match the specific platform, domain, and technical stack.

Founder-friendly

International founders can scope the structure remotely, with practical guidance around SAC formation, filings, local representation, and launch prerequisites.

The structure is designed around a clear pre-commercial roadmap.

Scope the model first, then map the cleanest Peru route for MINCETUR authorization and platform readiness.

Regulation overview

MINCETUR authorization route with SAC setup and platform registration

What the route covers

A structured model centered on SAC incorporation, SUNARP/SUNAT registrations, exploitation authorization, and platform authorization / registration (homologation).

The final path depends on the platform model, domain, technical evidence, and operating design.

What Ready Corp delivers

SAC company creation, name reservation, incorporation minutes, notary/public deed coordination, SUNARP + SUNAT support, corporate books guidance, legal representative support, and MINCETUR filing coordination.

Launch position

Designed for teams needing a formal Peru operating route, a platform-specific registration workflow, and clear pre-launch requirements before going commercial.

Peru structuring notes

Guarantee, technical access, and capital reference points

Guarantee requirement

- A guarantee in favor of MINCETUR is typically required: bank deposit, bank guarantee letter, or surety policy.

Reference amount: the greater of 3% of annual net income or 600 UIT.

Technical + capital notes

- Operators typically need to communicate the domain/extension used for platform exploitation and provide MINCETUR access credentials to servers and the platform database.

Growth potential of Peru gaming

Why operators evaluate Peru for regulated online gaming launch structures

Formal regulatory route

Peru offers a defined MINCETUR-facing framework for remote gaming and remote sports betting operators seeking authorization.

Gaming + platform focus

Casino, sportsbook, and technology platform models can be mapped through exploitation authorization and platform registration workflows.

International operators

The SAC route can be practical for foreign founders who need local corporate filings, platform-specific registrations, and pre-launch legal representation.

The advantage: company setup, legal representation, platform registration support, and MINCETUR-facing execution under one roadmap.

Our approach (value to your team)

Practical, compliance-first execution for a Peru gaming launch

Model-first scoping

We confirm your platform type, target markets, domain plan, expected volumes, ownership, and tech-stack owner before mapping the route.

Documentation package

We coordinate SAC formation, Lima name reservation, incorporation minutes, notary/public deed workflow, SUNARP/SUNAT registrations, and corporate books readiness.

MINCETUR support

We support exploitation authorization and platform authorization/registration workflows, including declarations and communications that depend on technical inputs.

Outcome: SAC readiness + MINCETUR filing support + platform registration workflow + local operations planning

Client support

Built for remote gaming founders, sportsbooks, and platform teams

Casino & Sportsbook
