The Challenge

Regulated expansion is complex - speed and accuracy matter

Time-to-market

- Lead times for incorporation
- Banking, KYC & vendor onboarding
- Regulatory review cycles

Compliance depth

- AML/CTF policies & controls
- Local substance requirements
- Ongoing reporting & audits

Multi-jurisdiction growth

- Different definitions of “VASP/PSP/MSB”
- Passporting vs. local licensing
- Cross-border operational setup

What We Deliver

A practical pathway from idea → licensed operations

Licensing & compliance advisory

- Scope & jurisdiction selection
- Regulator-ready documentation
- Operating model and controls

Ready-made licensed entities

- Purchase established crypto companies
- EMI / PSP / MSB / PI options
- Faster launch with due diligence

Company formation & local substance

- Entity setup, office and staffing
- Local partners & service providers
- Non-resident friendly delivery

Ongoing maintenance packages

- Compliance updates and renewals
- Registrations, filings & reporting
- Support as regulations evolve

Ready-Made Entities

Acquire an established structure to accelerate launch

Options highlighted by Ready Corp include:

Crypto exchange companies

- Fully operational crypto companies for sale
- Inventory shared as downloadable Excel/PDF lists

EMI / PSP / MSB / PI family

- EMI, API, SPI, PSP, MSB, MSO, PIS, PI
- Jurisdictions cited include UK, Malta, Denmark, Croatia, Poland, Lithuania, Latvia, Georgia, Estonia, Kazakhstan, UAE, Canada, USA, Hong Kong, Singapore, Mauritius, New Zealand

Why teams choose ready-made structures

- Compress setup timelines
- Start with an operational history (where applicable)
- Enable faster banking and vendor onboarding
- Focus internal resources on product and growth

Next steps

- 1) Define target jurisdictions & license scope
- 2) Choose: new setup vs. ready-made acquisition
- 3) Align compliance deliverables and timeline
