

EMERALD BEE

INTERIORS

Service Offerings

EMERALD BEE INTERIORS IS A RESIDENTIAL INTERIOR DECORATING AND DESIGN BUSINESS OPERATING IN WYLIE, TEXAS (AND SURROUNDING NORTH DALLAS SUBURBS).

Owner and designer, Emily Mussett, earned Bachelor of Science degrees in Architecture and Civil Engineering from Texas Tech University in 2009. Having experience in both of these fields balances a passion for design with practical application. Emily will use her experience to aid in a wide range of flexible services including:

WALK-THROUGH CONSULTATION SERVICES

If your needs can be met through consultation alone, a walk-through session will be conducted to review your home room by room. During this two-hour appointment (typically enough time to discuss up to three spaces), we'll explore design ideas, color palettes, and layout recommendations tailored to your goals. The session may include a color consultation, validation of your current selections, suggestions for incorporating existing pieces, and recommendations to help you confidently complete each space. Pricing includes up to two follow-up calls as needed.

If you decide to move forward with Design-Only or Full-Service Design after your consultation, we'll complete a detailed questionnaire to identify your budget and project scope. At that time, all spaces within scope—and any existing items to be integrated—will be measured and photographed for reference.

Rate: \$250 for up to 2 hours

NICHE SERVICES

Emerald Bee Interiors also offers specialty services such as custom painting (including geometric wall designs and murals) and sewing for bespoke pillows, cushions, and draperies. Pricing is determined based on the scope and details of each project.

DESIGN-ONLY AND VIRTUAL DESIGN SERVICES

Perfect for clients who want a professional design plan without full-service implementation. Whether working locally or remotely, this option provides a cohesive, customized design package with all the tools and guidance needed to bring your space to life—at your own pace and as your budget allows.

Emerald Bee Interiors will create detailed concept boards, floor plans, and elevations (as needed), along with a budgeting spreadsheet featuring clickable product links for easy purchasing. All recommendations—color palettes, furnishings, textiles, and décor—are curated to fit your style, goals, and budget.

Clients can choose to manage purchasing and installation independently or request procurement assistance for access to trade discounts. Virtual clients receive the same professional support through digital consultations and ongoing communication.

(Starting at \$500 per space with a single use)

FULL-SERVICE DESIGN

Our Full-Service Design option provides a complete, start-to-finish experience. We manage every detail—from concept and sourcing to contractor coordination and final styling—to create a cohesive, beautifully finished home. Emerald Bee Interiors partners with trusted trades and vendors to procure unique pieces, oversee installations, and ensure every element reflects your vision.

Rate: 25% of the total budget

NEW CONSTRUCTION CONSULTATION

Building a new home or undertaking a major renovation comes with countless design decisions in a short timeframe. We'll meet before your builder's design appointments to clarify your vision, define priorities, and help you allocate your budget for maximum impact.

Emerald Bee Interiors can also provide in-person support during selection meetings to guide choices, ask the right questions, and ensure every decision aligns with your overall design goals.

Rate: \$600 for up to 6 hours
