

Renita Wolf is the founder of Poe Wolf Partners, where she helps middle-market business owners strengthen business value, reduce owner dependency, and prepare for growth, succession, or an eventual transition.

A longtime Colorado Springs resident and community leader, Renita brings more than 25 years of corporate finance, strategy, and M&A experience, including leadership roles with HP, Agilent Technologies, Wells Fargo, and Cray Computer Corporation. Her experience on the buyer side of transactions gives her a practical perspective on what makes a business valuable, transferable, and attractive long before a transaction begins.

Today, she works with privately held business owners to help them build stronger companies and create more choices for whatever comes next.
