BUSINESS STUDY:

CONSUMERS 63% MORE LIKELY TO BUY FROM CHAMBER MEMBERS

A study by The Schapiro Group, an Atlanta-based market research firm, reveals a number of important findings about how consumers and business owners perceive the local chamber of commerce and the businesses that are their members. *For example:*

- When consumers know that a business is a member of the local chamber, they are 44% more likely to think favorably about it.
- Consumers who are told that a business is a chamber member are 51% more likely to be highly aware of it and 57% more likely to think positively of its local reputation.
- Consumers are 63% more likely to buy goods and services in the future from a company that they believe is a member of the local chamber of commerce.

- ✓ Choose the level that fits your goals and **Join Today!**
- ✓ Upgrade anytime as your business grows.

The study also has good news for businesses that sell to other businesses:

- When business decision-makers believe that a business is a chamber member, they are 37% more likely to think favorably of the business, 51% more likely to be highly aware of it, 58% more likely to think positively of its local reputation, and 59% more likely to buy goods and services from it.

Supporting the previous findings, the study also reveals a positive perception for the local chamber itself:

- Regarding the chamber's impact on the local economy, 82% of respondents believe that the local chamber of commerce helps create jobs and promotes local economic development.

The results of the Schapiro study are clear: Positive perception increases among consumers and business owners when a business is identified as a member of the local chamber of commerce.

OUR MISSION: *We help business people in our community innovate, grow and make the area a great place to live.*
