

European Decorative Pine Plywood

Make a feature of the edges

Solid & consistent cores

Thin & attractive layers

The image displays a collection of decorative panels. On the left, there are three vertical panels with a light grey, slightly textured finish. To the right of these are six panels arranged in a 2x3 grid, each featuring a different wood grain pattern. The top row shows three panels with varying wavy and organic wood grain patterns. The bottom row shows three panels with more pronounced, swirling wood grain patterns. The overall aesthetic is modern and natural.

Decorative pattern

Wild and wavy grain

Rotary cut veneer

Light and fresh tone

Fire Rated Panels Contra-Burn®

Can be manufactured to Euroclass B - s1,d0
