## NEVER FEED or ENGAGE WITH WILDLIFE

### Bear encounters

Bear/human encounters are rare and almost always have peaceful resolutions. The National and State Park Service advises the following behavior in order to avoid a negative encounter:

- Walk in groups and make noise.
- Avoid surprising a bear.
- Never approach a bear.
- If you see a bear, slowly backtrack from where you came. Never run from a bear nor turn your back towards it.
- Do not attract bears with food. Dispose of unwanted food in indoor trash receptacles or bear-proof trash containers.

### Moose encounters

While moose may seem calm, they are wild animals that move surprisingly fast when they feel the need to protect their space. If you encounter one, please keep these guidelines in mind:

- Never feed moose.
- Give moose space. If the moose approaches you, give at least 50-foot distance.
- Charging moose: If its ears lay back or the hairs on its hump rise, it may charge. If a moose charges, get behind a tree.
- Never get between a cow and her calf.
