

HAWAI'I GREEN GROWTH

UN LOCAL2030 HUB

Vision

A thriving, resilient, and regenerative future for Hawai'i that inspires and leads Island Earth towards aloha.

Mission

Hawai'i Green Growth is a trust-based network organization that drives collective impact through measurable concrete action, inspiring local and global communities to advance regenerative economic, social, and environmental goals.

Guiding Principles & Values

Aloha & Pilina in Practice: We build strong, respectful, and authentic relationships. Our approach is relational over transactional, grounded in aloha, and invites differing perspectives.

Rooted in Place, Guided by Indigenous Knowledge: We honor Hawai'i's culture, 'āina, and ancestral wisdom, extending the history of innovation to create solutions that inspire and scale globally.

Transparency, Accountability & Integrity: We track, measure, and openly share progress toward shared goals. Trust and integrity are the foundation of our decisions and partnerships.

Collective Action to Solve Complex Problems: We recognize interconnectedness across issues, sectors, and communities, bringing people together to drive impact through systems transformation.

Convene Community & Political Leadership: We leverage the power of convening and consensus-building to advance policy, align resources, and drive concrete, time-bound collective action.

Strive for Excellence: We hold ourselves to high standards (maiau, ma'ema'e), striving for excellence, clarity, and authenticity in service to our communities, 'āina, and global peers.

Future Generations & Regeneration: We act as good ancestors, placing our keiki at the center of our purpose, ensuring choices today lead to net-positive regeneration of Hawai'i and Island Earth.
