Welcome

Welcome to Caring Alternatives, where comfort, independence, and compassionate care come together in a warm and welcoming environment. With three locations in Oak Creek and Muskego, we are committed to providing personalized care that supports each resident's unique physical, emotional, and social needs.

At Caring Alternatives, we believe every resident deserves to feel comfortable, respected, and cared for. Our dedicated team takes a hands-on and heartfelt approach, playing an active role in the lives of our residents while helping them maintain their independence and quality of life.

Our aging-in-place philosophy means that once a resident becomes part of our community, we make every effort to keep them comfortable and cared for through every stage of life. As their needs change, our level of care changes with them, providing the support they need along the way.

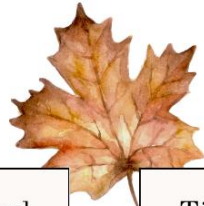

As an independently owned and operated community, we take pride in getting to know each resident and their individual needs. When additional care is needed, we also partner with trusted healthcare agencies to ensure our residents receive the comprehensive support they deserve.

At Caring Alternatives, we're more than just a place to receive care—we're a community dedicated to making each resident feel valued, comfortable, and at home. We invite you to discover the warmth, personalized care, and heartfelt approach that make Caring Alternatives a special place to call home.

Employee & Resident of the Month

Eric

Eric's favorite foods are lasagna and pizza, and he loves '60s blues and R&B music, which would definitely get him on the dance floor! If he could have one superpower, he would choose the ability to read minds so he could know what people are thinking.

Fall is Eric's favorite season because he was born in the fall and loves sweater weather. He grew up in North Milwaukee, and one of his fondest childhood memories is Christmas—helping find gifts hidden in the cellar and getting dressed up for Christmas dinner.

If Eric could give one piece of advice, it would be, "Life is short, do what you want to do, don't live life under a rock."

Eric comes from a close-knit family with his mom, dad, five brothers, and five sisters. He fondly remembers playing in the backyard with his siblings and always having a dog at home.

What Eric likes most about Creekside Manor is the residents. Although it was an adjustment being the "new kid on the block," he is still getting used to everything and says that it has been good!

Tiffany

Tiffany has been with the company for three years. She is very friendly and kindhearted, and her family means everything to her. She enjoys spending time with her family, traveling, and trying new restaurants.

In 10 years, Tiffany sees herself running her own CBRF training classes to help ensure there are more positive and compassionate caregivers in the field.

Her favorite part of her job is her residents. She loves learning about the lives they have lived and hearing how things have changed throughout the years.

Something people might be surprised to learn about Tiffany is that she was once a cornhole champion! She also loves playing pool, and her favorite thing to do is cook.
