Flower – Daisy

April's flower is the dainty daisy. It looks like a sun and opens with sunshine, and it represents innocence and purity. Legend tells that the first daisy appeared when a young nymph transformed into one to avoid unwanted attention. In Norse mythology, the daisy is the flower of Freya, goddess of love, motherhood, and beauty. Romantics often pull off daisy petals one by one to tell if “he loves me” or “loves me not.”

Birthstone – Diamond

The gorgeous, glittery diamond is the birthstone for April. For centuries, this stone has been synonymous with romance, intrigue, power, greed, and magic. In the Middle Ages, it was believed to cure headaches and to create love potions. Today, diamonds symbolize everlasting love and devotion and are traditionally the stone of choice for engagement rings.

*“A gush of bird-song, a patter of dew,
A cloud, and a rainbow’s warning.
Suddenly sunshine and perfect blue—
An April day in the morning.”
