

DANTA ENERGY

Your Partner in East African Petroleum Supply and Logistics

COMPANY PROFILE

COMPANY PROFILE

About Us

Danta Energy is a leading Oil Marketing Company (OMC) based in Lubumbashi, Democratic Republic of Congo (DRC), dedicated to providing safe, efficient, and reliable petroleum solutions across Central and East Africa. Operating as part of a larger group with over 40 years of proven success across Africa's downstream petroleum sector, Danta Energy combines deep-rooted industry expertise with a forward-looking approach to fuel logistics and energy management.

Our Mission

To deliver reliable, safe, and efficient energy solutions that power progress.

Our Vision

To be Africa's most trusted and innovative fuel logistics partner.

Our Goals

To expand regional reach while ensuring excellence, compliance, and sustainability.

COMPANY KEY MILESTONES

Company Establishment

Danta Energy was formally launched in 2024 as part of a leading African petroleum group with over 40 years of experience.

Operational Footprint Expansion:

Established partnerships with key depots in Lubumbashi and Kolwezi to enhance product availability and reduce delivery times.

Technology Integration

Rolled out real-time fleet tracking, fuel level sensors, and ERP client integrations across our operations in early 2025.

Safety Recognition

Introduced our line of high performance industrial and automotive lubricants tailored for mining and manufacturing clients in late 2024.

New products release

Introduced our line of high performance industrial and automotive lubricants tailored for mining and manufacturing clients in late 2024.

FUELING PROGRESS WITH PURPOSE

Empowering industries through direct imports, smart logistics, and sustainable energy solutions across Africa.

Direct Imports

We import fuel products directly from trusted global suppliers, ensuring consistent quality, competitive pricing, and efficient regional distribution.

Petroleum Depot Operations

We deliver petroleum products directly to mining, manufacturing, and commercial sectors, ensuring uninterrupted operations with reliable and timely fuel supply.

FUELING PROGRESS WITH PURPOSE

Empowering industries through direct imports, smart logistics, and sustainable energy solutions across Africa.

Smart Logistics

Our tech-enabled fleet and real-time tracking systems guarantee efficient, secure, and on-time fuel delivery across borders and industries.

Going Green

We champion sustainability through eco-friendly practices, staff training, and ongoing development programs that promote cleaner energy solutions and responsible fuel handling.

OUR SERVICES

PETROLEUM SUPPLY

- **Bulk B2B Fuel Supply**
Reliable delivery of Premium Motor Spirit (PMS) and Automotive Gas Oil (AGO) tailored to large-volume consumers.
- **Metered Tanker Deliveries**
Ensuring precise quantity control and transparency at every point of delivery.
- **Scheduled & On-Demand Deliveries**
Flexible delivery windows designed to match your production or operational schedules.
- **Emergency Replenishment Services**
Rapid response to avoid downtime or operational disruptions during critical fuel shortages.

OUR SERVICES

LOGISTIC SOLUTIONS

Our Logistics Solutions are designed to deliver fuel with precision, speed, and reliability across complex supply chains. We offer end-to-end logistics support that ensures fuel reaches its destination safely, efficiently, and on time.

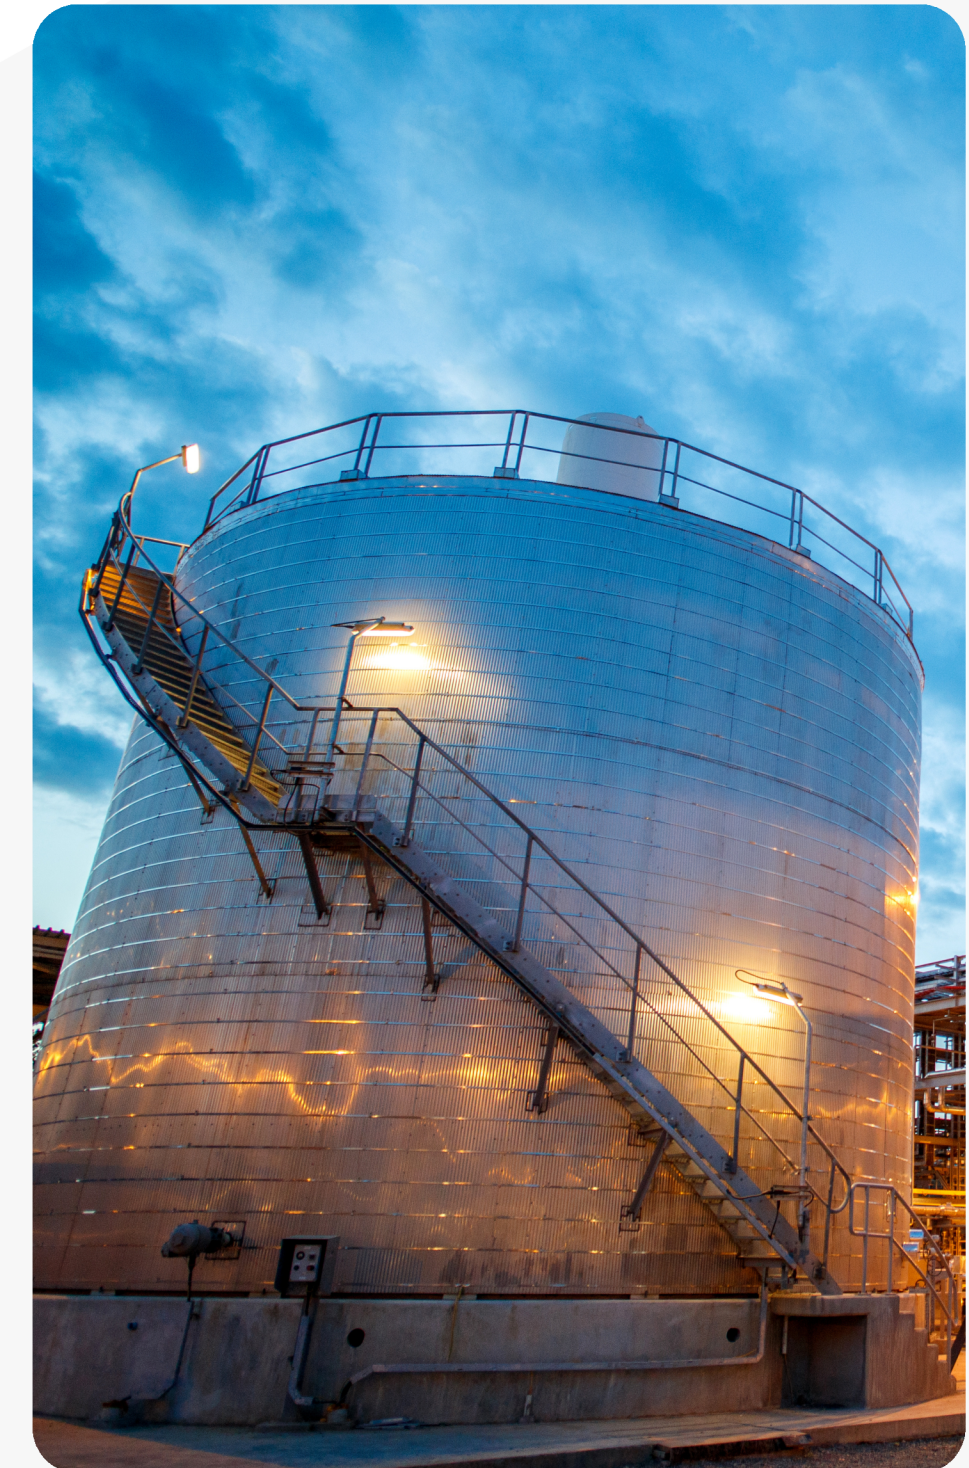

Comprehensive Transport & Distribution

We manage linehaul, last-mile delivery, warehousing, and recurring milk runs to ensure smooth and timely fuel movement from depot to destination. With real-time tracking, optimized routes, and regional expertise, our logistics system minimizes delays, reduces risk, and ensures efficient, reliable supply even in remote or high-demand areas.

End-to-End Supply Chain Control

Our operations provide full visibility and control, ensuring fuel is delivered securely, on schedule, and without disruption. Through real-time tracking and smart planning systems, we align supply precisely with each client's operational needs minimizing downtime and maximizing efficiency.

OUR SERVICES

LOGISTIC SOLUTIONS

Our Logistics Solutions are designed to deliver fuel with precision, speed, and reliability across complex supply chains. We offer end-to-end logistics support that ensures fuel reaches its destination safely, efficiently, and on time.

Advanced 4PL Services

We provide full-service 4PL logistics support, including on-site fuel bay setup, real-time control towers, and flexible DDU/DDP delivery models. These solutions offer clients maximum control, visibility, and adaptability across every stage of the fuel supply chain.

Smart Inventory & Demand Management

Our smart inventory and demand management uses ERP and IoT integrations to automate tracking, predict restocking needs, and optimize supply planning reducing stockouts, improving efficiency, and keeping operations running without interruption.

OUR SERVICES

DEPOT OPERATIONS

Our Depot Operations are a critical part of our ability to deliver secure, timely, and efficient petroleum solutions across the region. We operate and manage petroleum depots located at strategic hubs to streamline the import, storage, and distribution process.

We Ensure ease of importation and customs clearance through nearby ports

We Maintain ready access inventory, reducing wait times and operational delays

We Minimize the risk of stock outages with proactive supply planning

We Offer faster lead times for deliveries through regional coverage

COUNTRIES
ACROSS AFRICA

OUR ABILITY

Extensive Fleet Capacity

500+ trucks ensure efficient bulk fuel transport

High-Volume Delivery

25+ million litres of fuel delivered monthly

24/7 fleet monitoring

Advanced VTS and AI-driven ADMS systems

Reliable Fleet Performance

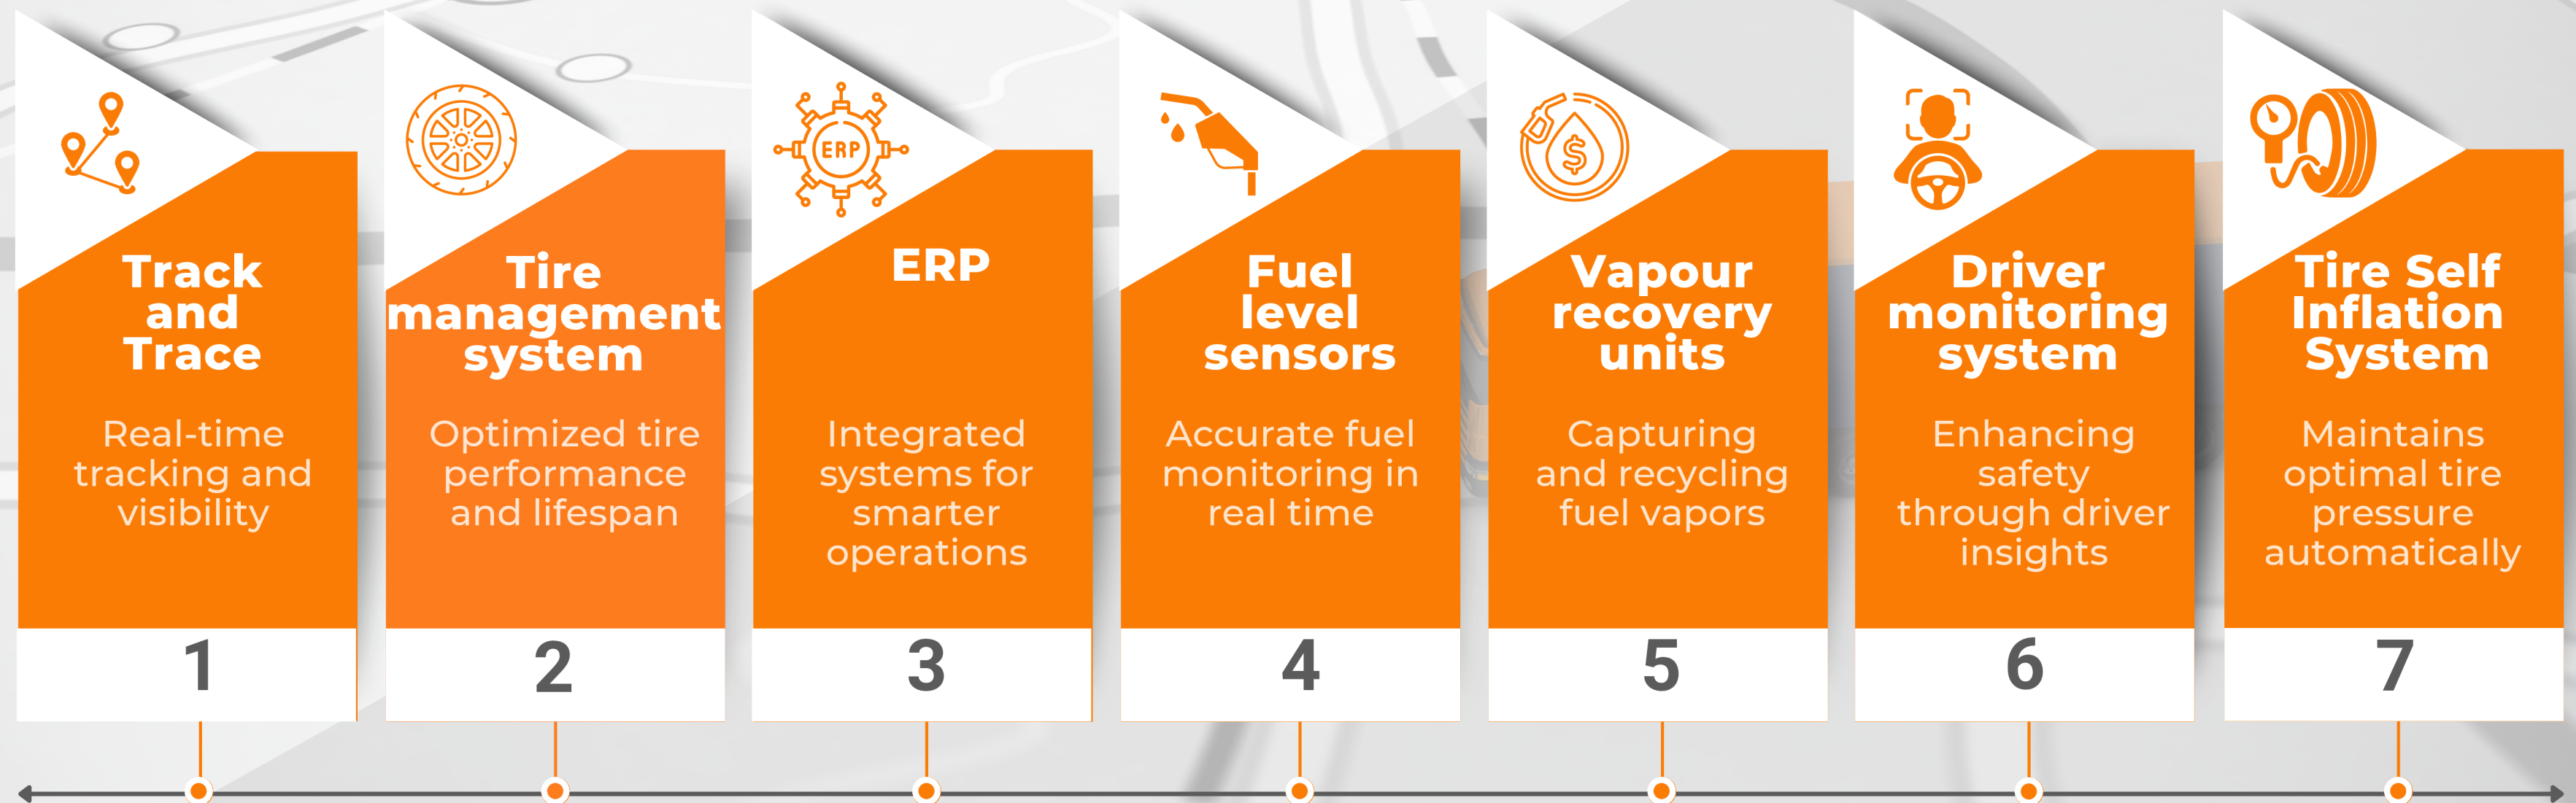

Expert-led maintenance ensures high uptime and consistency

DRIVEN BY TECHNOLOGY

Empowering Performance Through Innovation

We integrate advanced technologies across all of our operations to deliver efficiency, transparency, and value. Our commitment provides clients with real time visibility, seamless tracking, and data-driven insights empowering smarter decisions and stronger outcomes.

REGULATORY AND STATUTORY COMPLIANCE

Danta Energy is fully compliant with all legal, tax, safety, and petroleum regulatory requirements in the Democratic Republic of Congo, ensuring transparent and responsible operations.

Ministry of Hydrocarbons

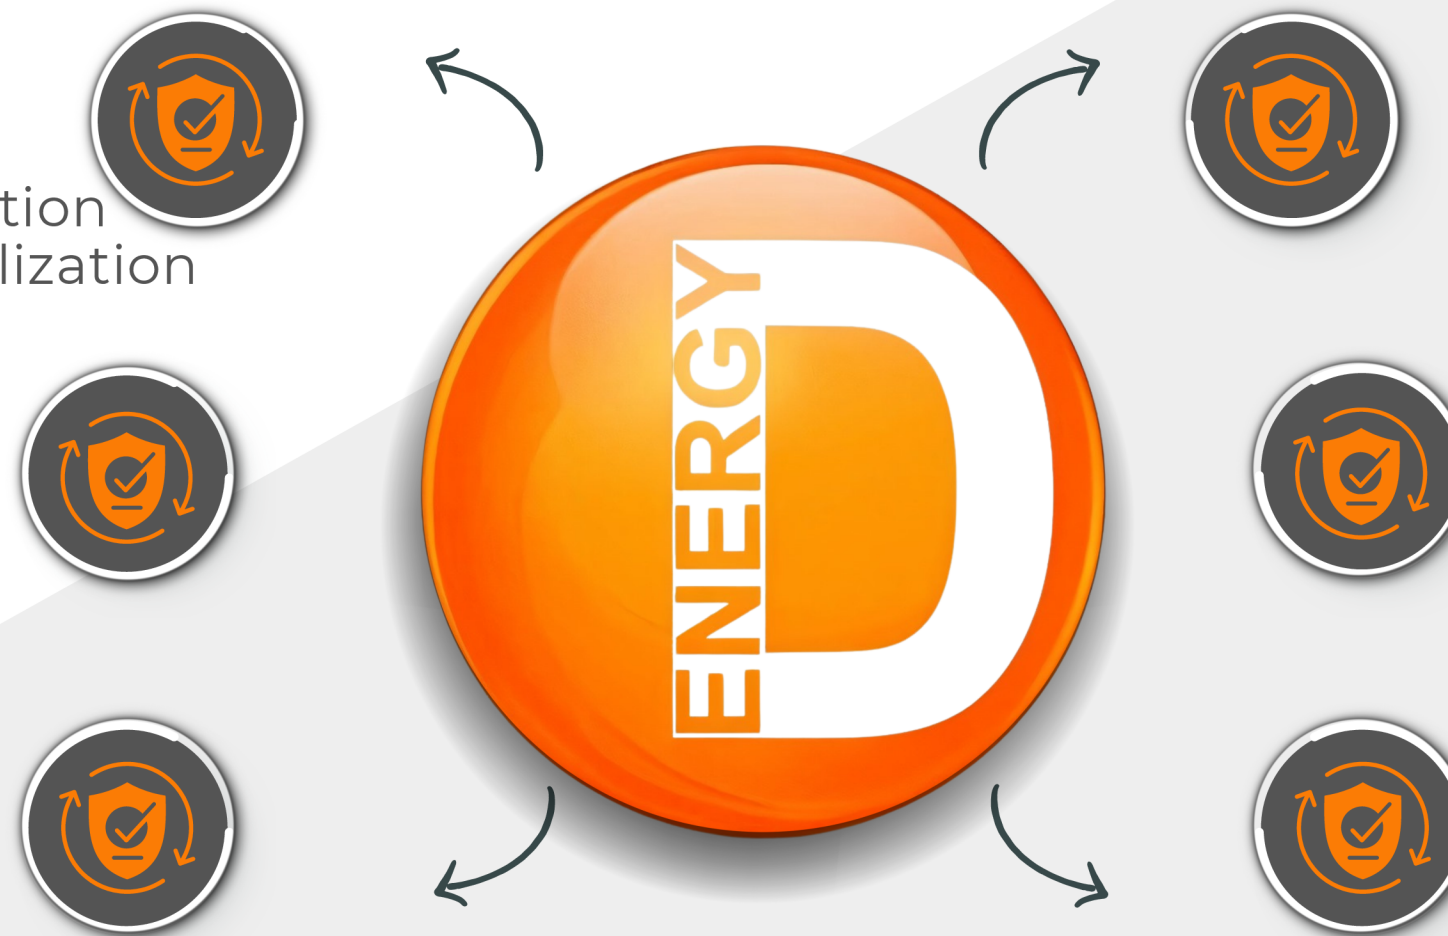

- Contrat de Fourniture
- License for Storage & Transportation
- License for Import & Commercialization

DGDA Registration & Compliance

For import formalities and taxes

Environmental and Social Impact Assessment

Approved and operational environmental compliance

International HSE standards

Adherence to international HSE standards in petroleum handling, transport, and storage

General Directorate of Taxes (DGI)

Registered with the General Directorate of Taxes (DGI) for corporate tax and VAT purposes

Insurances

Insurance for stock, third-party liability and transport fleet

SAFETY AND COMPLIANCE

Safety is our top priority. We enforce rigorous protocols and conduct regular staff training to ensure safe petroleum handling and protect our employees, the public, and the environment.

- ENVIRONMENT
- SECURITY
- HEALTH
- TRAINING
- PREVENTION
- PERSONAL SAFETY
- SOCIAL PERFORMANCE
- PROCESS SAFETY

Quality Management

Ensuring risk-free, fully authorized fuel supply operations for all our valued clients

Information Security Management

Real-time visibility & tracking via ERP, fuel sensors, and AI-driven monitoring

Environmental Management

ESIA approvals and operational environmental compliance

Occupational Health & Safety

Rigorous HSE protocols & cyclic training for safe petroleum handling & transport

Occupational Safety and Health Authority

Adherence to international HSE standards, protecting employees, public & environment

WHY CHOOSE US ?

Petroleum Import + Storage + Fleet

We are one of the region's leading integrated solutions, importing, storing, and delivering petroleum efficiently and reliably.

Extensive Fleet

We have over 500+ trucks and trusted 3PL partners—ready to meet any volume demand, anytime.

Technologically-Advanced Operations

ERP, fuel sensors, and real-time tracking for smarter planning and enhanced client reporting.

Regional Expertise

Proven experience in East Africa, with deep knowledge of cross-border logistics, compliance, and customs.

Commitment to Compliance

Strict safety and HSE protocols to protect cargo, drivers, and the environment.

Trusted Group Legacy

Backed by 40+ years of success in Africa's petroleum sector, delivering reliability and expertise.
