APPROVAL OF AGENDA

Superintendent James recommended the Board approve the agenda for Tuesday, August 12, 2025, Board meeting.

Board President Campbell – I would like to add back to the agenda Board comments.

Superintendent James – Jayne Williams with AASB said to get Board concerns off the agenda's. In our whole Board training, she said do not put Board concerns on your agenda's

Board President Campbell – Board members have the right as an elected official to discuss things and ask questions. I would like the opportunity to have open discussions. I cover three other school Boards, and on every agenda is Board comments/concerns.

Board member Johnson – Are you saying Board comments or Board concerns. Every conference I have went to in the past few years suggest do not add Board concerns to your agenda, and do not have parent concern. Sometimes this may create an issue. This goes back to the Superintendent and Board President making the agenda.

Board President Campbell – I suggest that every three months we have an open meeting

Board member Johnson – No, twice a year

Board Attorney Braswell – This is why other districts have on their agenda new business, old business. That is normally areas for discussions.

Board President Campbell – I wanted this on the agenda so we can ask questions. We are professional enough to know what we can discuss in public.

Superintendent James – to go off topic.

Board Attorney Braswell – Under a new business tab, these would all be under those tabs. Ex. “I need to know about this.” A report will be sent next week/month. Then you are creating an agenda for the next meeting. This tab can be for the maintenance of the schools, etc. So we can be better informed.

Board member Gibson – Also, outstanding things happen, we would like to congratulate them.

Superintendent James – So you are going to bring them to the Board

Board member Gibson – A lot of good stuff going on here, but people only see the bad

Board president Campbell – People who have gone above and beyond, we would like to recognize them. It is done in other districts

Board member Skinner – It was done here too.

Board President Campbell – That was my intention. In the past, I think Ms. Banks started recognizing individuals, such as student achievements etc. Across the Board. This exposes more knowledge, and more confidence in our system. We can obtain this information through our principals. I do not want to drag this out. Do you want to add back?

Board member Gibson – The more information we can get to the public, the better our system will look. It is little achievements, but they do not know about it.

Superintendent James – We will come back to it.

Board member Skinner – I am all for it, as long as it is controlled.

Board President Campbell – People may not know what is coming down the line. We need a little more open input at these meetings.
