Eltoncollection

Design Ludovica Serafini + Roberto Palomba

Elton è una collezione che sublima la capacità di Talenti di assottigliare i confini tra l'indoor e l'outdoor attraverso la ricercatezza delle forme e dei materiali. Una componibilità senza pari che introduce un nuovo modo di vivere gli spazi esterni: per la prima volta schienali e braccioli dei sofa diventano inclinabili grazie ad un meccanismo integrato nella struttura che ne consente la regolazione. Tecnologia a servizio del design, in grado di donare al divano una sinuosità estetica senza precedenti e di giocare sulla possibilità di personalizzare in toto il proprio comfort. La collezione si compone inoltre di tavoli caffè in caldo Accoya, natural o palissandro, impreziositi da eleganti top in vetro smaltato.

Elton is a collection that sublimates Talenti's ability to thin the boundaries between indoors and outdoors through the refinement of shapes and materials. An unparalleled modularity that introduces a new way of experiencing outdoor spaces: for the first time the backrests and armrests of the sofas become tiltable thanks to a mechanism integrated into the structure that allows them to be adjusted. Technology at the service of design, capable of giving the sofa an unprecedented aesthetic sinuosity and playing on the possibility of fully personalizing your comfort. The collection also consists of Accoya, natural or rosewood hot coffee tables, embellished with elegant enamelled glass tops.

Itacacollection

Design Carlo Colombo

Itaca è un invito a vivere il proprio spazio outdoor con eleganza e comfort, attraverso una componibilità senza precedenti. Ispirandosi all'iconico viaggio di Ulisse per mari e terre lontane, Carlo Colombo dà vita ad un'oasi di piacere in cui ritrovarsi, per godere della familiarità del proprio angolo di paradiso all'aperto. Proprio come isole di un arcipelago, i variopinti moduli di Itaca si aggregano e si dividono per formare composizioni sempre originali, in continuo movimento e in grado di adattarsi ad ogni esigenza di spazio o utilizzo. I profili arrotondati caratterizzano l'Accoya®, utilizzato per le solide basi, nelle varianti color miele e palissandro, e si ripropongono nelle sezioni di marmo e travertino che impreziosiscono i tavoli caffè e pranzo.

Itaca is an invitation to experience your own outdoor space with elegance and comfort, through extraordinary modularity. Inspired by the iconic journey of Ulysses to distant seas and lands, Carlo Colombo creates an oasis of pleasure in which to find yourself, to enjoy the familiarity of your own corner of paradise outdoors. Just like islands of an archipelago, the multicolored modules of Itaca come together and divide themselves to form compositions that are always original, in continuous movement and able to adapt to any need in space or use. The rounded profiles, characterize the Accoya®, used for the solid bases, in honey and rosewood variants, and are the same we find in the sections of marble and travertine that embellish the coffee and dining tables.

Nalucollection

Design Ludovica Serafini + Roberto Palomba

Nalu è una famiglia di arredi completa dove il richiamo alla fluidità delle onde riscrive il modo di intendere il legame tra rivestimento e struttura, fra geometrie rette e curve imprevedibili. Una nouvelle vague in cui grazia e potenza convergono per dare vita a qualcosa che va oltre il semplice elemento decorativo per sfociare in un universo omnicomprensivo di prodotti. Per questo progetto l'eclettica mente dello studio Palomba-Serafini si è ispirato allo stile dei maestri degli anni d'oro del design italiano, sviluppando l'idea di un cuscino unico che ripiegandosi genera sedute e schienali, in una sorta di onda, dai colori vibranti e in abbinamento alle strutture asimmetriche dei tavoli pranzo e caffè.

Nalu is a complete furniture family where the call to fluidity of waves rewrites the way of understanding the link between coating and structure, between straight geometries and unpredictable curves. A nouvelle vague in which grace and power converge to give life to something that goes beyond the simple decorative element to flow into an all-encompassing universe of products. For this project the studio Palomba-Serafini was inspired by the style of the masters of the golden years of Italian design, developing the idea of a unique cushion that, by folding, creates seats and backs in a kind of wave, with vibrant colors and in combination with the asymmetrical structures of the dining and coffee tables.

Venicecollection

Design Ludovica Serafini + Roberto Palomba

Il desiderio di leggerezza si fa reale con gli elementi arredo che sembrano fluttuare di Venice, collezione ispirata all'omonima città, dello studio Palomba-Serafini. Come battelli sul corso d'acqua, ampie sedute dalle linee morbide sono adagiate su solide basi di legno, da cui emergono, come artigianali parapetti di un vascello, schienali e braccioli rivestiti in pieno stile nautico. Monolitici ed eleganti i tavoli in pietra lavica, in lucida finitura ceramizzata che in tutte le loro colorazioni vogliono richiamare alla mente le sfumature calde al tramonto e fredde al crepuscolo dei nostri mari.

The desire for lightness becomes real with the furniture elements that seem to float of Venice, a collection inspired by the homonymous city, by the Palomba-Serafini studio. Like boats on the watercourse, wide seats with soft lines are laid on solid wooden bases, from which emerge, like handcrafted railings of a vessel, backs and armrests covered in full nautical style. Monolithic and elegant tables in lava stone, in glossy ceramic finish that in all their colors want to recall the warm shades at sunset and cold at dusk of our seas.

Georgecollection

Design Ludovica Serafini + Roberto Palomba

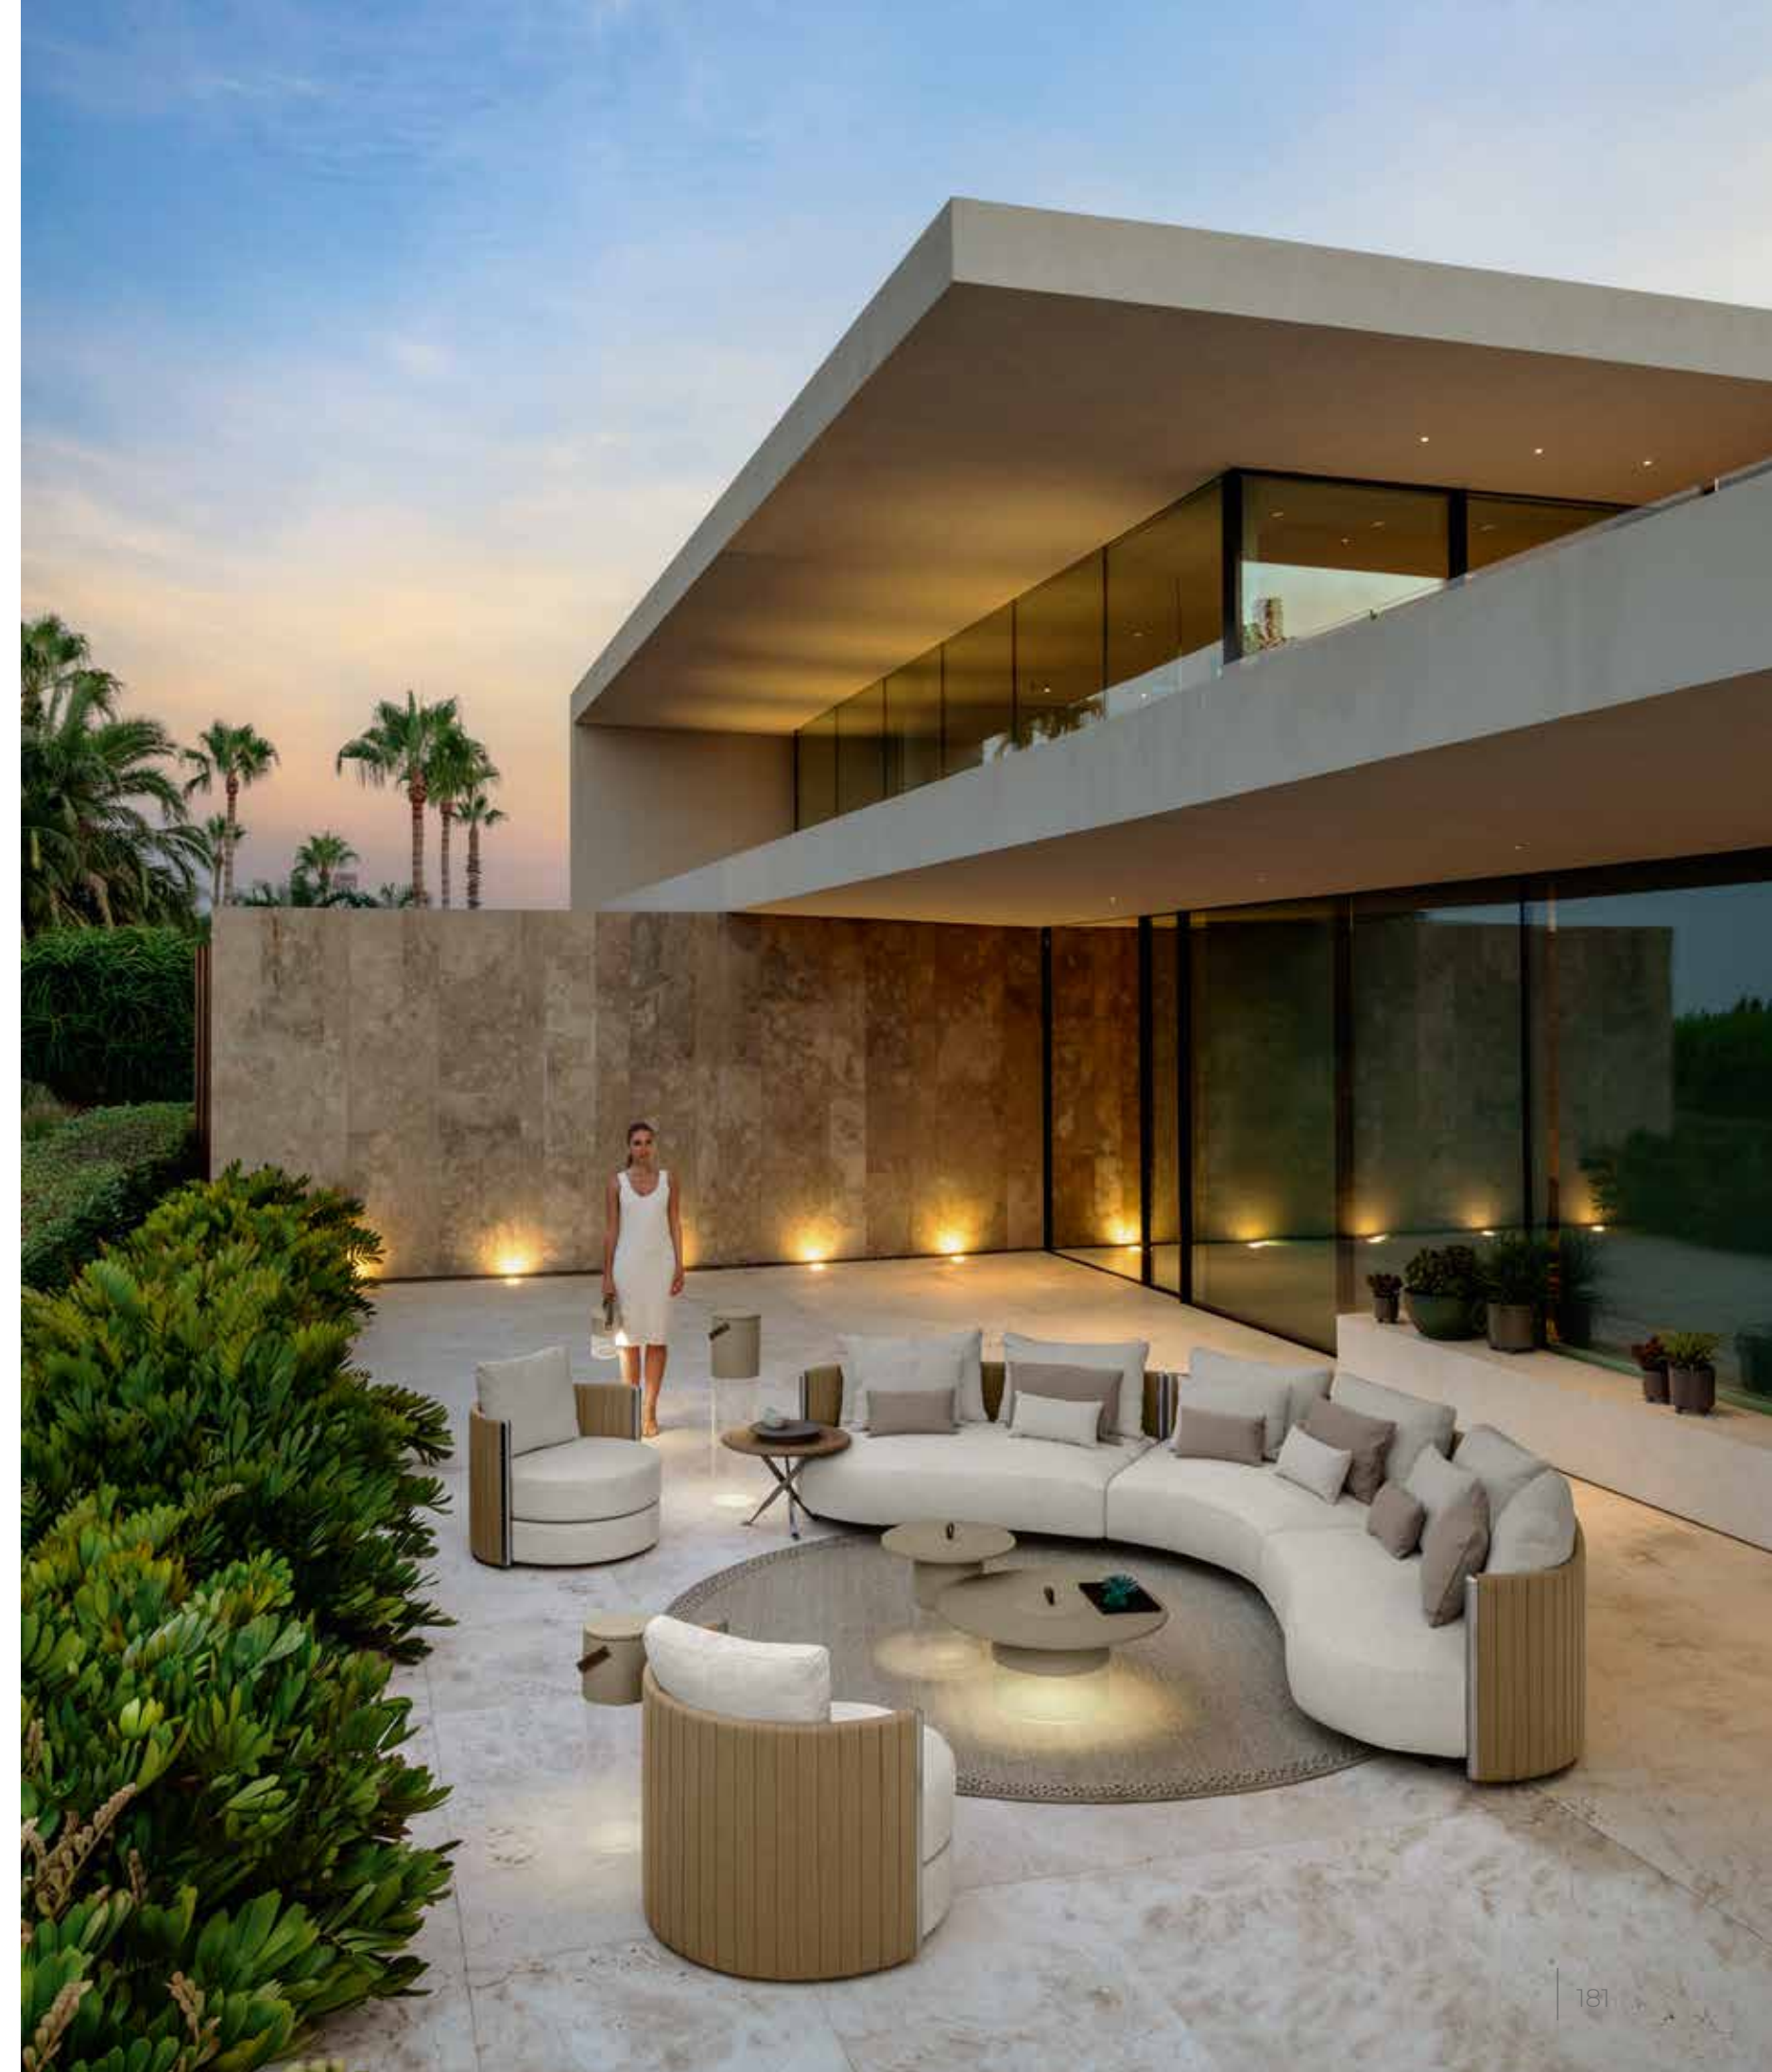

Un progetto che nasce dallo scopo di unire leggerezza e comodità nella vita en plain air, andando a ridisegnare situazioni che trasmettano sensazioni di intimità e relax, sempre nel massimo rispetto dell'equilibrio ma soprattutto della proporzione. La struttura in acciaio inossidabile è il fil rouge del progetto, totalmente rivestita da un intreccio in corda leggermente imbottita. Un design avvolgente, che per i materiali utilizzati, strizza l'occhio al mondo della nautica. Alla leggerezza visiva della struttura intrecciata fanno da contrappunto cuscini di seduta e schienale generosamente imbottiti.

A project that was created with the aim of combining lightness and comfort in life in the open air, redesigning situations that convey feelings of intimacy and relaxation, always with the utmost respect for balance but above all for proportion. The stainless steel structure is the fil rouge of the project, totally covered with a slightly padded rope weave. An enveloping design whose materials are reminiscent of the nautical world. The visual lightness of the woven structure is counterpointed by generously padded seat and back cushions.

Juncollection

Design Marco Acerbis

Dalla mente eclettica di Marco Acerbis, nasce Jun, una collezione che combina l'eleganza del teak e le sedute generose ma compatte, in pieno stile orientale. I tubolari in legno e le sedute comunicano grazie ai rivestimenti in tessuto bouclé tono su tono degli schienali e dei braccioli, facilmente sfoderabili. I tavoli in legno dalle forme irregolari sono impreziositi da piani in gres vetrificato, offrendo un perfetto equilibrio tra comfort e stile, rendendo ogni spazio esterno un'oasi di lusso contemporaneo.

From the eclectic mind of Marco Acerbis, Jun was born, a collection that combines the elegance of teak and the generous but compact seats in full oriental style. The wooden tubular furniture and the seats communicate thanks to the tone-on-tone bouclé fabric upholstery of the backrest and armrests, which can be easily removed. The irregular shaped wooden tables are embellished with glass stoneware tops, offering a perfect balance between comfort and style, making every outdoor space an oasis of contemporary luxury.

Flowcollection

Design Ludovica Serafini + Roberto Palomba

Comfort e multi-materialità sono gli elementi chiave di questa collezione che, come rievoca il nome, vuole trasmettere una sensazione di fluidità. Una raccolta di elementi dove i cuscini avvolgenti, abbinati a materiali ricercati e a tessuti a righe dal forte valore decorativo, contribuiscono a portare l'atmosfera dell'indoor negli spazi esterni. La struttura in alluminio, si integra armoniosamente con le sinuose lavorazioni di legno, esaltando il know di Talenti nella realizzazione di arredi che fondono materiali apparentemente lontani. Il risultato è un mix raffinato tra il calore tradizionale del teak e la forza estetica degli elementi laccati, in grado di formare una famiglia di prodotti completa e versatile che include divani componibili, poltrone lounge, tavoli e sedute dining.

Comfort and multi-materiality are the key elements of this collection which, as the name recalls, aims to convey a feeling of fluidity. A collection of elements where enveloping cushions, combined with refined materials and striped fabrics with a strong decorative value, contribute to bringing the indoor atmosphere into outdoor spaces. The aluminum structure, integrates harmoniously with the sinuous woodwork, enhancing Talenti's know-how in the creation of furnishings that blend apparently distant materials. The result is a refined mix between the traditional warmth of teak and the aesthetic strength of lacquered elements, capable of shaping a complete and versatile family of products including modular sofas, lounge armchairs, dining tables and seats.

Tressécollection

Design Carlo Colombo

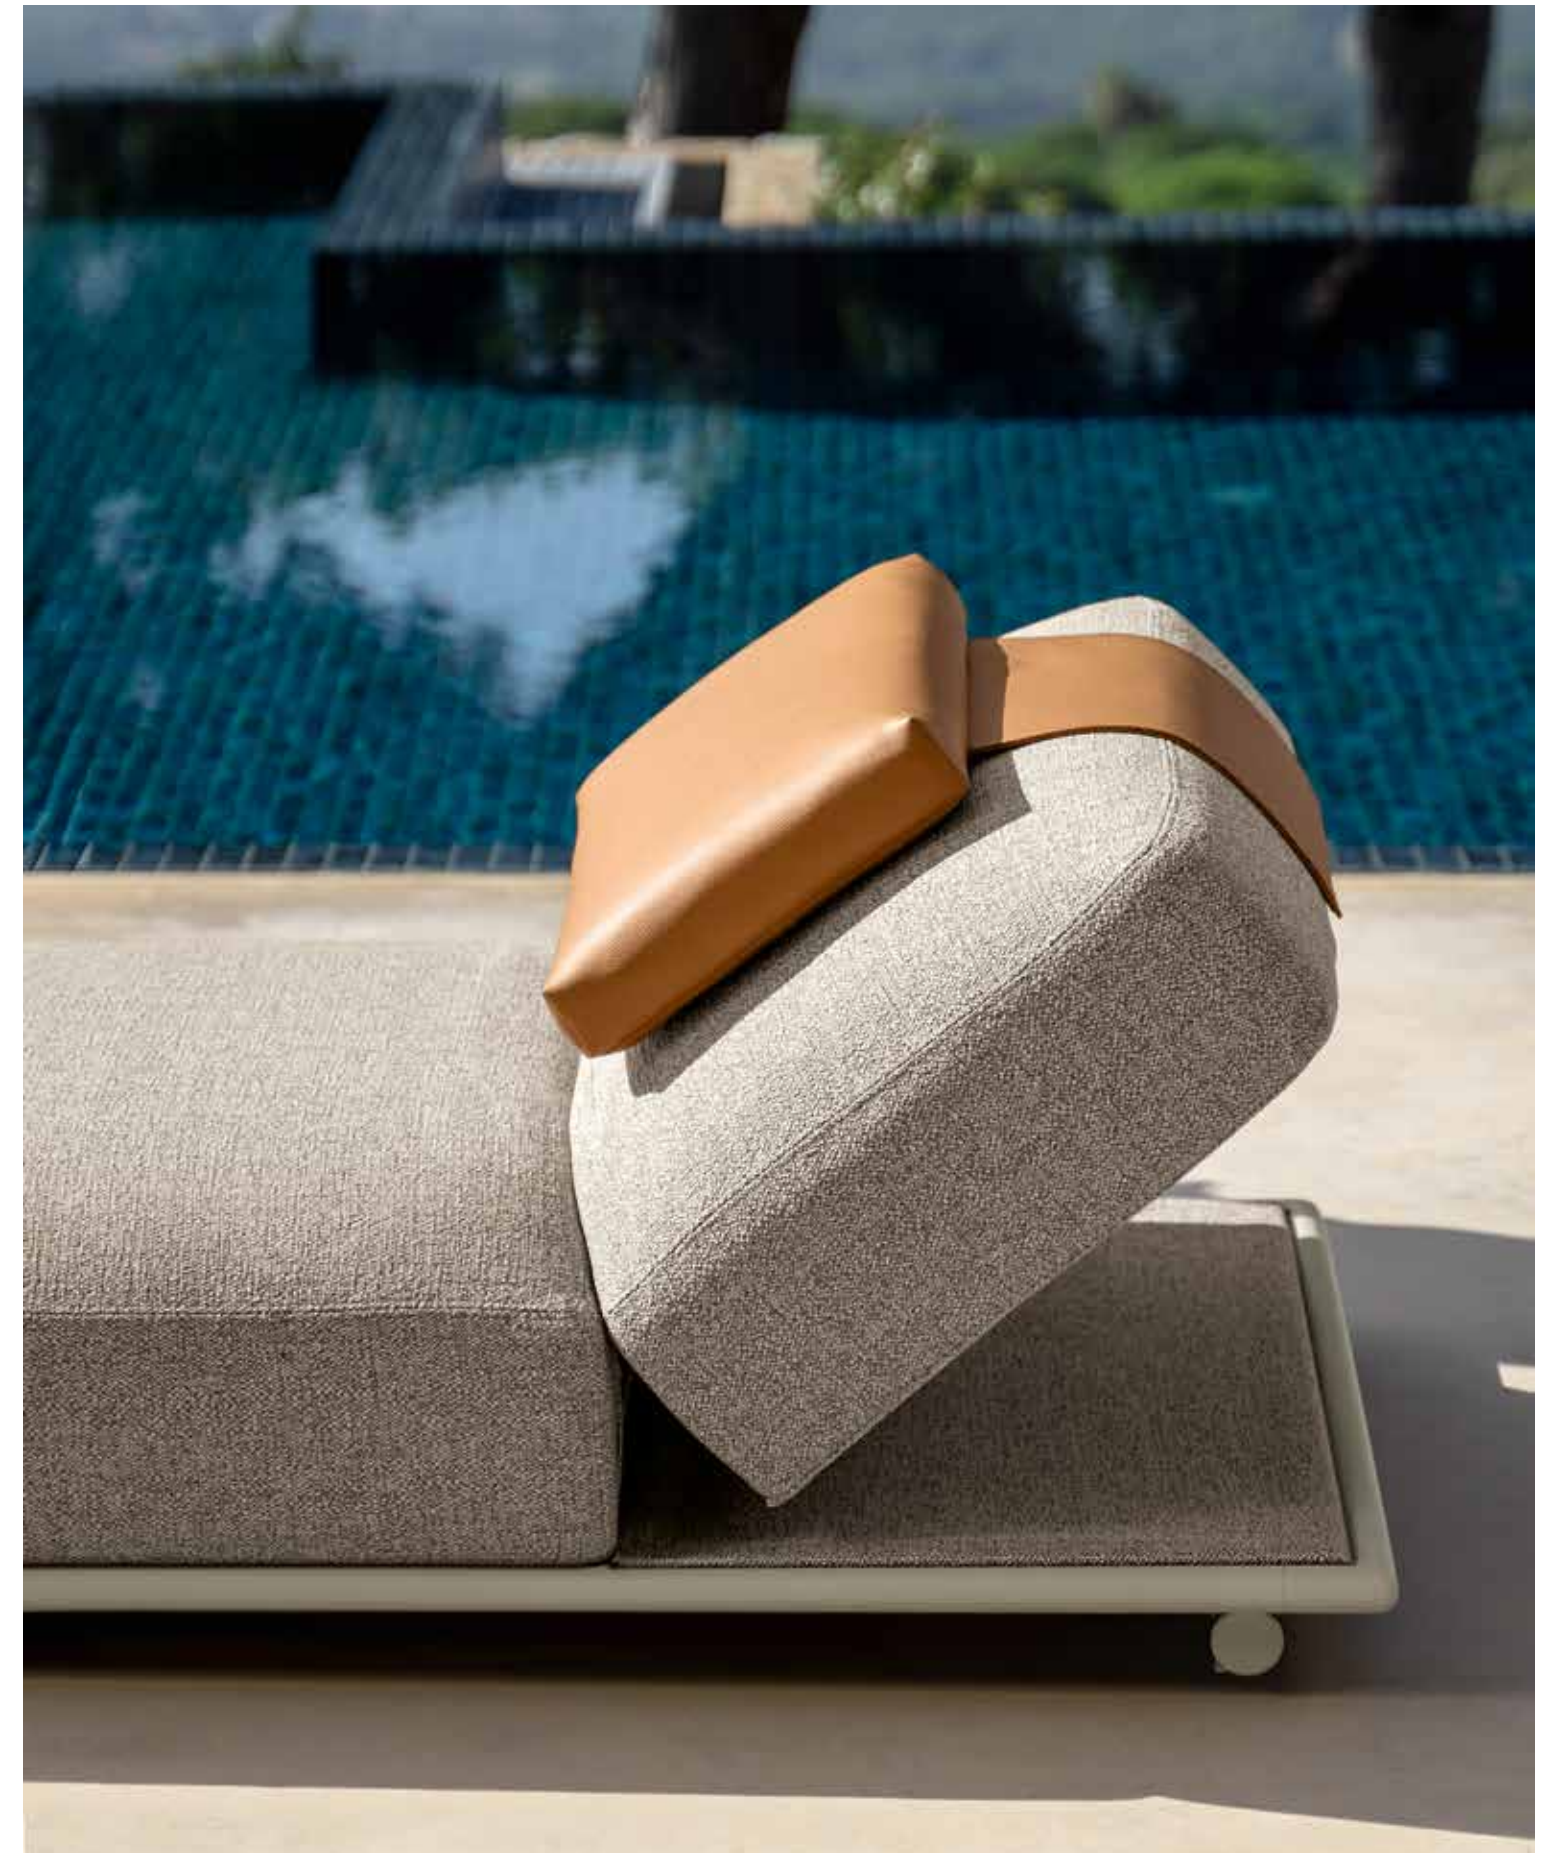

Dalla ricerca di eleganza che contraddistingue la produzione dell'architetto Carlo Colombo nasce Tressé, collezione che emana al contempo solidità e comfort. Tutto ruota attorno allo studio del cubo come elemento primordiale in cui trovare ordine e da elevare attraverso finiture di pregio. Tra queste il sofisticato intreccio di fasce in ecopelle che abbraccia l'intero perimetro delle sedute e che si pone come elemento distintivo dell'intera collezione, declinato nelle varianti cromatiche in grado di adattarsi a qualsiasi ambiente che vanno dal freddo grigio seta, al più intenso e deciso fango, fino a spiccare con il caldo terra di Siena.

From the search for elegance that distinguishes the production of the architect Carlo Colombo was born Tressé, a collection that radiates both solidity and comfort. Everything revolves around the study of the cube as a primordial element in which to find order and to elevate through fine finishes. These include the sophisticated interweaving of eco-leather bands that embraces the entire perimeter of the seats and that stands as a distinctive element of the entire collection, declined in color variations that can adapt to any environment ranging from cold gray silk, to the most intense and decisive mud, up to stand out with the warm land of Siena.

Salinascollection

Design Ludovica+Roberto Palomba

La collezione Salinas trae ispirazione dall'omonima regione naturale di Ibiza. Un progetto in cui si è voluto portare la raffinatezza tipica dell'indoor nel mondo outdoor, accorciando sempre più la distanza tra i due ambienti mettendoli in continuità. La collezione è composta da divani e poltrone in cui la componente tessile è predominante. La cinghia imbottita ed i preziosi dettagli metallici visibili nei terminali degli schienali, conferiscono alla collezione fascino ed eleganza senza tempo.

The Salinas collection draws inspiration from the homonymous natural region in Ibiza. Through this project, Ludovica + Roberto Palomba bring the typical refinement of the indoor world into the outdoor world, shortening the distance between the two environments, bringing them into continuity. The collection consists of sofas and armchairs in which the textile component is predominant. The padded belt and the precious metal details visible in the ends of the backrests create an elegant and timeless charm.

Argocollection // Wood

Design Ludovica Serafini + Roberto Palomba

Collezione ispirata al tema della scatola di legno, si presenta con un linguaggio rigoroso, pulito e geometrico, caratterizzata da grandi fascioni laterali che contengono la cuscinatura e rendono la seduta profonda ed accogliente. A questo gioco abbiamo voluto unire dei piedi a slitta creando così una magica sospensione dell'imbottito e delle proporzioni. La collezione si arricchisce con un imbottito dalla forma scultorea, caratterizzata da un avvolgente volume intrecciato. Generose le sedute imbottite e il particolare piede in legno che dialoga perfettamente con gli altri elementi della collezione.

Argo collection is inspired by the theme of the wooden box and shows a rigorous, clean and geometrical language. The collection is characterized by big lateral waistbands that contain the cushions and make the seat deep and cosy. To this play we intentionally added a sledge base in order to create a magical suspension of padding and of proportions. The collection is enriched by a padding with sculptural shape, whose peculiarity is an all-embracing intertwined volume. The abundant padded seats and the particular wood feet, perfectly dialogue with the other element of the collection.

Argo collection // Alu

Design Ludovica Serafini + Roberto Palomba

Argo, un nome evocativo, ricorda l'antica e mitologica nave che veleggiò tra le isole greche alla ricerca del vello d'oro. Argo alluminio è un sistema di arredi outdoor che coniuga una grande ricerca estetica e una grande libertà sul piano compositivo. Argo è un progetto caratterizzato da un'estetica contemporanea; alla rigorosa struttura in alluminio si contrappone la generosità dei cuscini imbottiti. La struttura rivestita in cinghie elastiche ne sottolinea le forme profonde ed accoglienti, ad essa sono uniti dei piedi a slitta che creano una magica sospensione dell'imbottito e delle proporzioni.

Argo, a mythological name, that is inspired by the mythological wooden boat that sailed around the Greek islands, in search of the legendary golden fleece. Argo aluminum is an outdoor furnishing system that is a perfect match of a great aesthetic experimentation and extraordinary versatility in terms of personalization. Argo is a project characterized by a contemporary aesthetic. The generous size of the upholstered cushions offsets the austerity of the aluminum structure. The frame covered by elastic belts emphasises the deep and cosy shapes which characterize the collection, magically suspended on the sledge feet which create a perfect balance between the upholstery and the shapes of this new modular sofa.

Cruisecollection // Teak

Design Ludovica Serafini + Roberto Palomba

Ispirata al mondo della nautica, la collezione Cruise nasce dal desiderio di rievocare le emozioni uniche che solo una traversata nei mari più belli del mondo può regalare. L'uso di materiali nobili come il legno nella base, associato ad un'accurata selezione dei tessuti, conferisce un appeal elegante sofisticato all'intera linea. La corda, vera protagonista, avvolge schienali e braccioli di ogni elemento di seduta della collezione: poltrone living, divani modulari o a struttura fissa e poltroncine pranzo.

Inspired by the nautical world, Cruise collection is built upon the desire to recall the unique emotions of sailing in the most beautiful seas in the world. The use of fine materials, such as the wood in the base, and an accurate fabrics' selection convey to the entire collection an elegant and sophisticated appeal. The rope plays the lead role in this collection and is intertwined with the armrests and backrests of every seating element: living armchairs, fixed and modular sofas and dining armchairs.

Cruisecollection // Alu

Design Ludovica Serafini + Roberto Palomba

L'eleganza e il sofisticato appeal della collezione unite alla contemporaneità dell'alluminio delle strutture danno vita alla Cruise Alu. La collezione è caratterizzata da una base in alluminio con piedini pressofusi. La tecnica della pressofusione ha permesso di progettare nel dettaglio il piede che si fa elemento distintivo della collezione donando all'imbottito e ai tavoli un maggiore impatto estetico.

The elegance and the sophisticated appeal of the Cruise Teak combined to the modernity of the aluminium frames give life to the Cruise Alu. The collection is characterized by the use of an aluminium base with die-cast aluminium feet. Die-casting process allows to design accurately the foot, that becomes a distinctive element of this range and improves the aesthetic impact of sofas and tables.

Allurecollection

Design Christophe Pillet

Informale ed elegante, contemporanea ma legata alla tradizione. La collezione Allure, firmata Christophe Pillet, nasce dal desiderio di unire eleganza ed informalità. Una modularità inconsueta che, partendo da delicati piedini in alluminio si sviluppa in orizzontale attraverso una solida cornice in legno d' Accoya. La cuscineria geometrica e lineare, di diverse dimensioni, è in grado di dar vita a diverse combinazioni e scenari. Il risultato è una collezione dall'animo inquieto in grado di conferire carattere ad ambienti outdoor in perenne mutamento.

Informal and elegant, contemporary but at the same time tied to tradition. The Allure collection, designed by Christophe Pillet, gets its inspiration by the desire to combine elegance and informality. It is characterized by an unusual modularity that, starting from delicate aluminium feet, develops its shapes through a solid Accoya wood frame. The geometric and linear cushions in different sizes make it possible to create different combinations and scenarios. The result is a collection with a restless soul capable of giving character to mutable outdoor environments.

Cliffcollection

Design Ludovica Serafini + Roberto Palomba

Nata dall'incontro tra accostamenti materici inaspettati e dalla ricerca di linguaggi sempre nuovi, la collezione Cliff è sinonimo di grande versatilità. I dettagli, realizzati con corde nautiche intrecciate e tessuti dai motivi geometrici, creano un senso di giocosità con un tocco super glamour. La varietà cromatica unita alla modularità delle strutture consente di disporre gli elementi in assoluta libertà, generando infinite possibilità di combinazione.

Cliff collection is based on the combination of different materials, born from the research of new ways of expression. It is synonymous of great versatility. The details, made with intertwined nautical cords and geometric-patterned fabrics, create a sense of playfulness with a super-glamorous touch. The chromatic variety combined with the modularity of the structures makes it possible to arrange the elements in absolute freedom, generating infinite combination of possibilities.

Cliff Dèco collection

Design Ludovica Serafini + Roberto Palomba

Cliff Dèco arricchisce la già ampia famiglia Cliff ed è il risultato di una lunga ricerca progettuale e creativa per una nuova generazione di prodotti che strizzano l'occhio al mondo dell'indoor. Un divano moderno ed elegante, che si distingue per il suo design senza tempo, impreziosito da sedute sinuose e avvolgenti, palette tenui ed intrecci realizzati a mano su schienali e braccioli. La collezione Cliff Dèco è sinonimo di grande versatilità, la modularità delle strutture consente di disporre gli elementi in assoluta libertà, generando infinite possibilità di combinazione.

Cliff Dèco enriches the already wide Cliff family and it is the result of a deep projectual research for a collection, that wink at the indoor furnitures. An elegant and modern sofa, characterised by its timeless design. It features sumptuously deep and inviting cushions, fine colour palettes and hand-woven backs and armrests. Cliff Dèco is synonymous of great versatility, thanks to the modularity of the structures makes it possible to arrange the elements in absolute freedom, generating infinite possible combinations.

Leafcollection

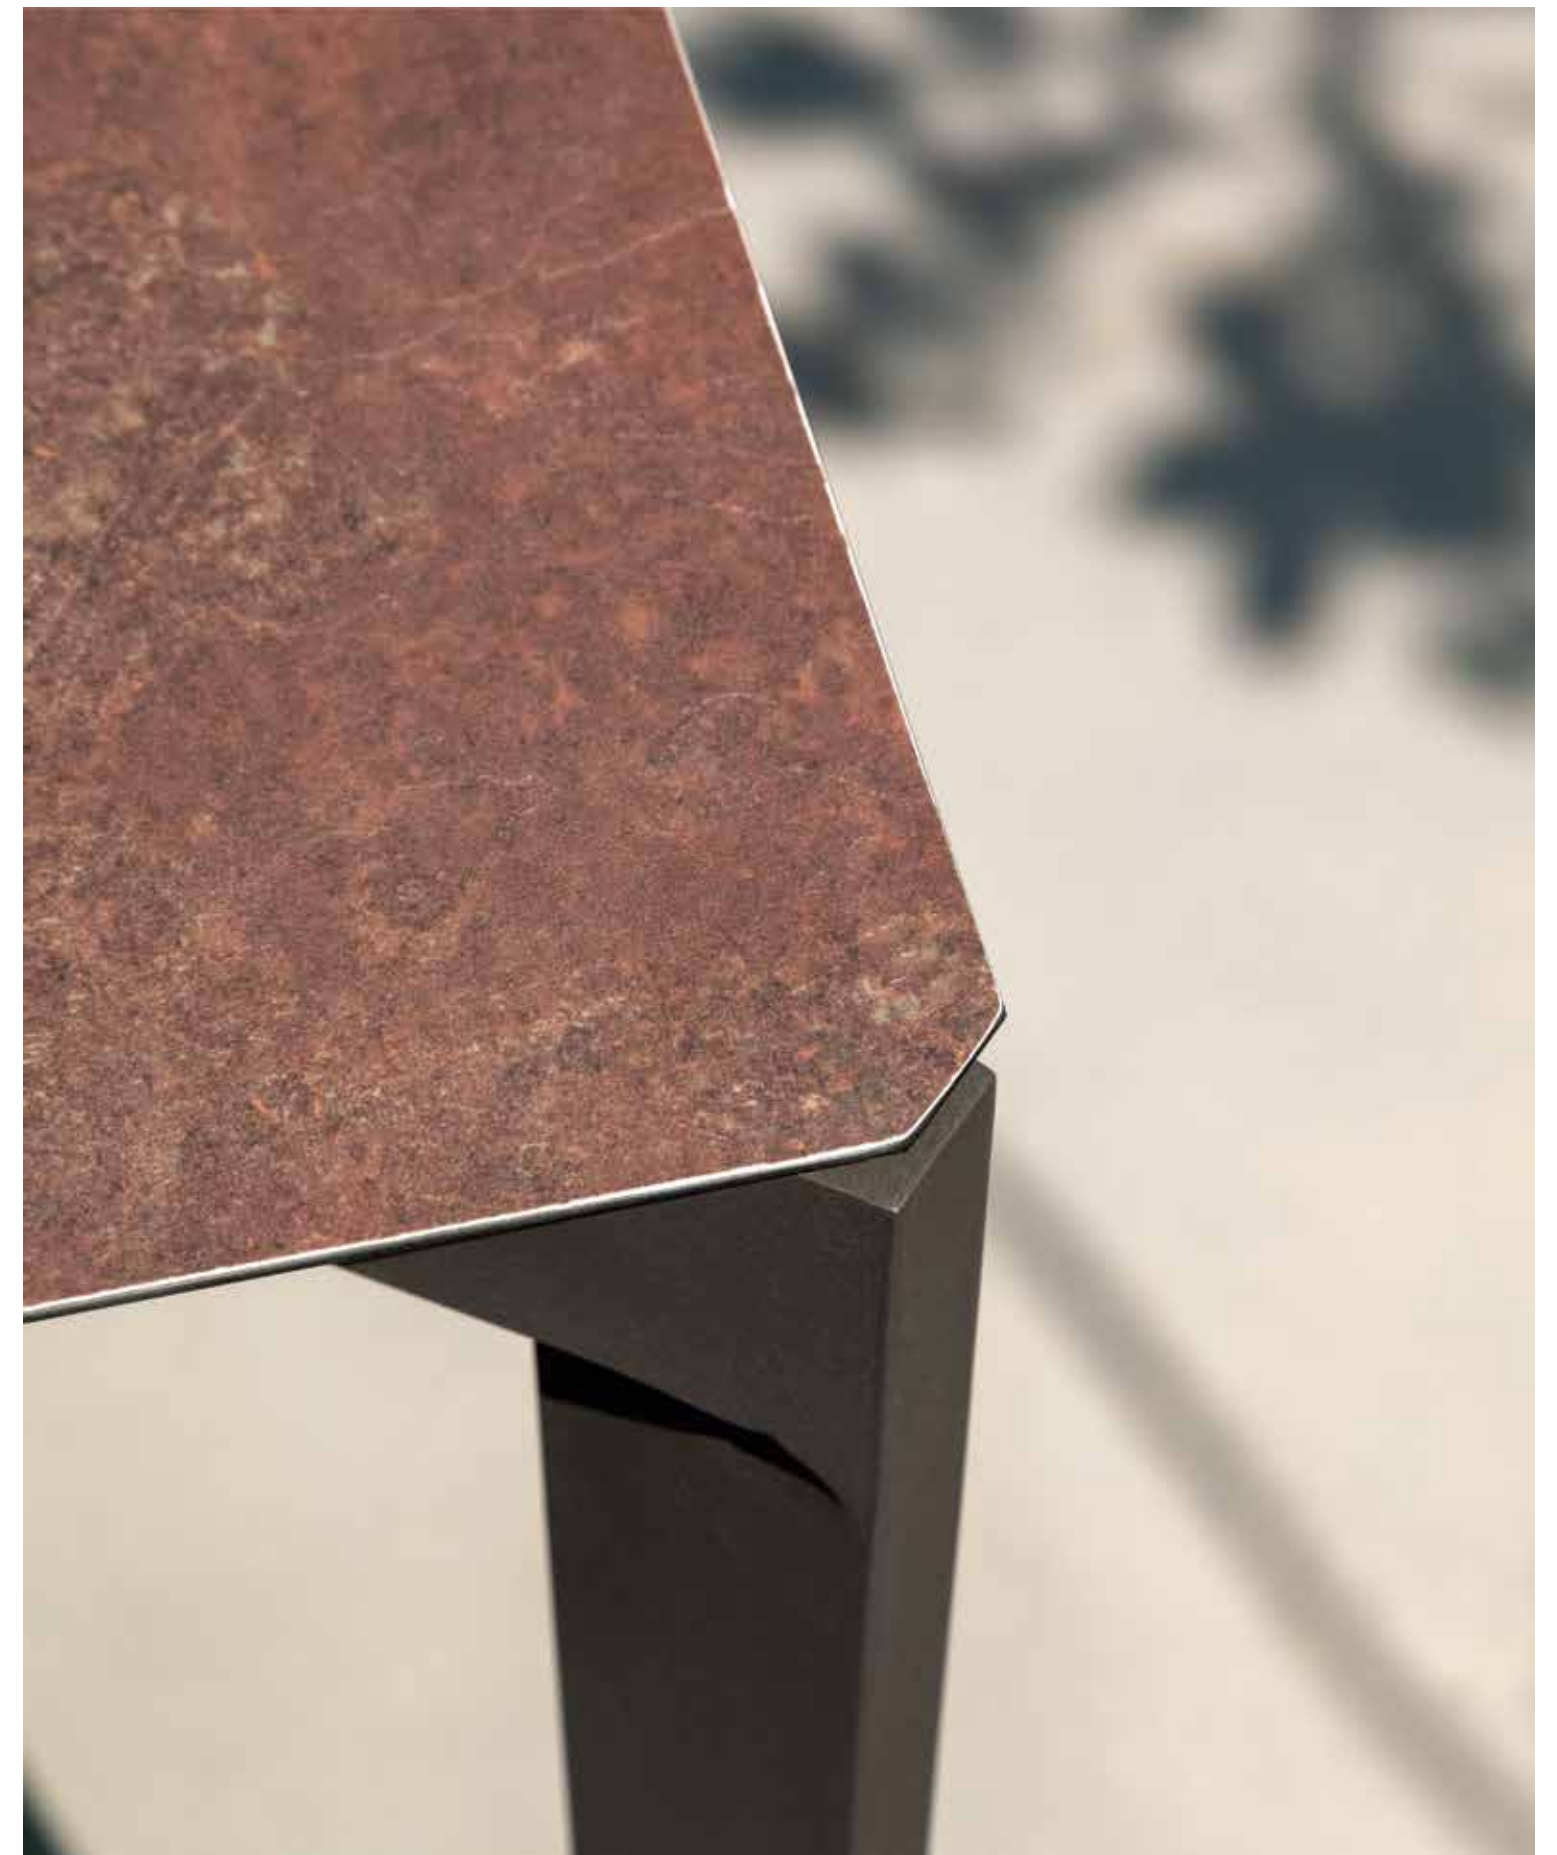

Design Marco Acerbis

Una collezione che si ispira alla natura con cui il mondo outdoor dialoga costantemente. La leggerezza dei petali di un fiore e la loro eleganza sono stati l'incipit per una nuova collezione dove alle proporzioni curate ma generose si unisce il comfort di una cuscineria di grande morbidezza e sensualità. I piedini sono snelli e slanciati per creare un forte senso di sospensione della cuscineria dei divani che sembra galleggiare nell'aria come un fiore sul suo gambo. Tutti questi dettagli e queste sensazioni sono poi naturalmente trasportate nello sviluppo dell'intera collezione che comprende il tavolo, i tavoli da caffè, le sedie ed il lettino prendisole.

Leaf is a collection inspired by nature, with which the outdoor world is in constant dialogue. The lightness of a flower's petals and their elegance have been the incipit for a new collection where the careful but generous proportions are combined with the comfort of cushions of great softness and sensuality. The feet are slender and slender to create a strong sense of suspension of the sofa cushions that seem to float in the air like a flower on its stalk. All these details and sensations are then naturally carried over into the development of the entire collection, which includes the table, coffee tables, chairs and sun lounger.

Karencollection

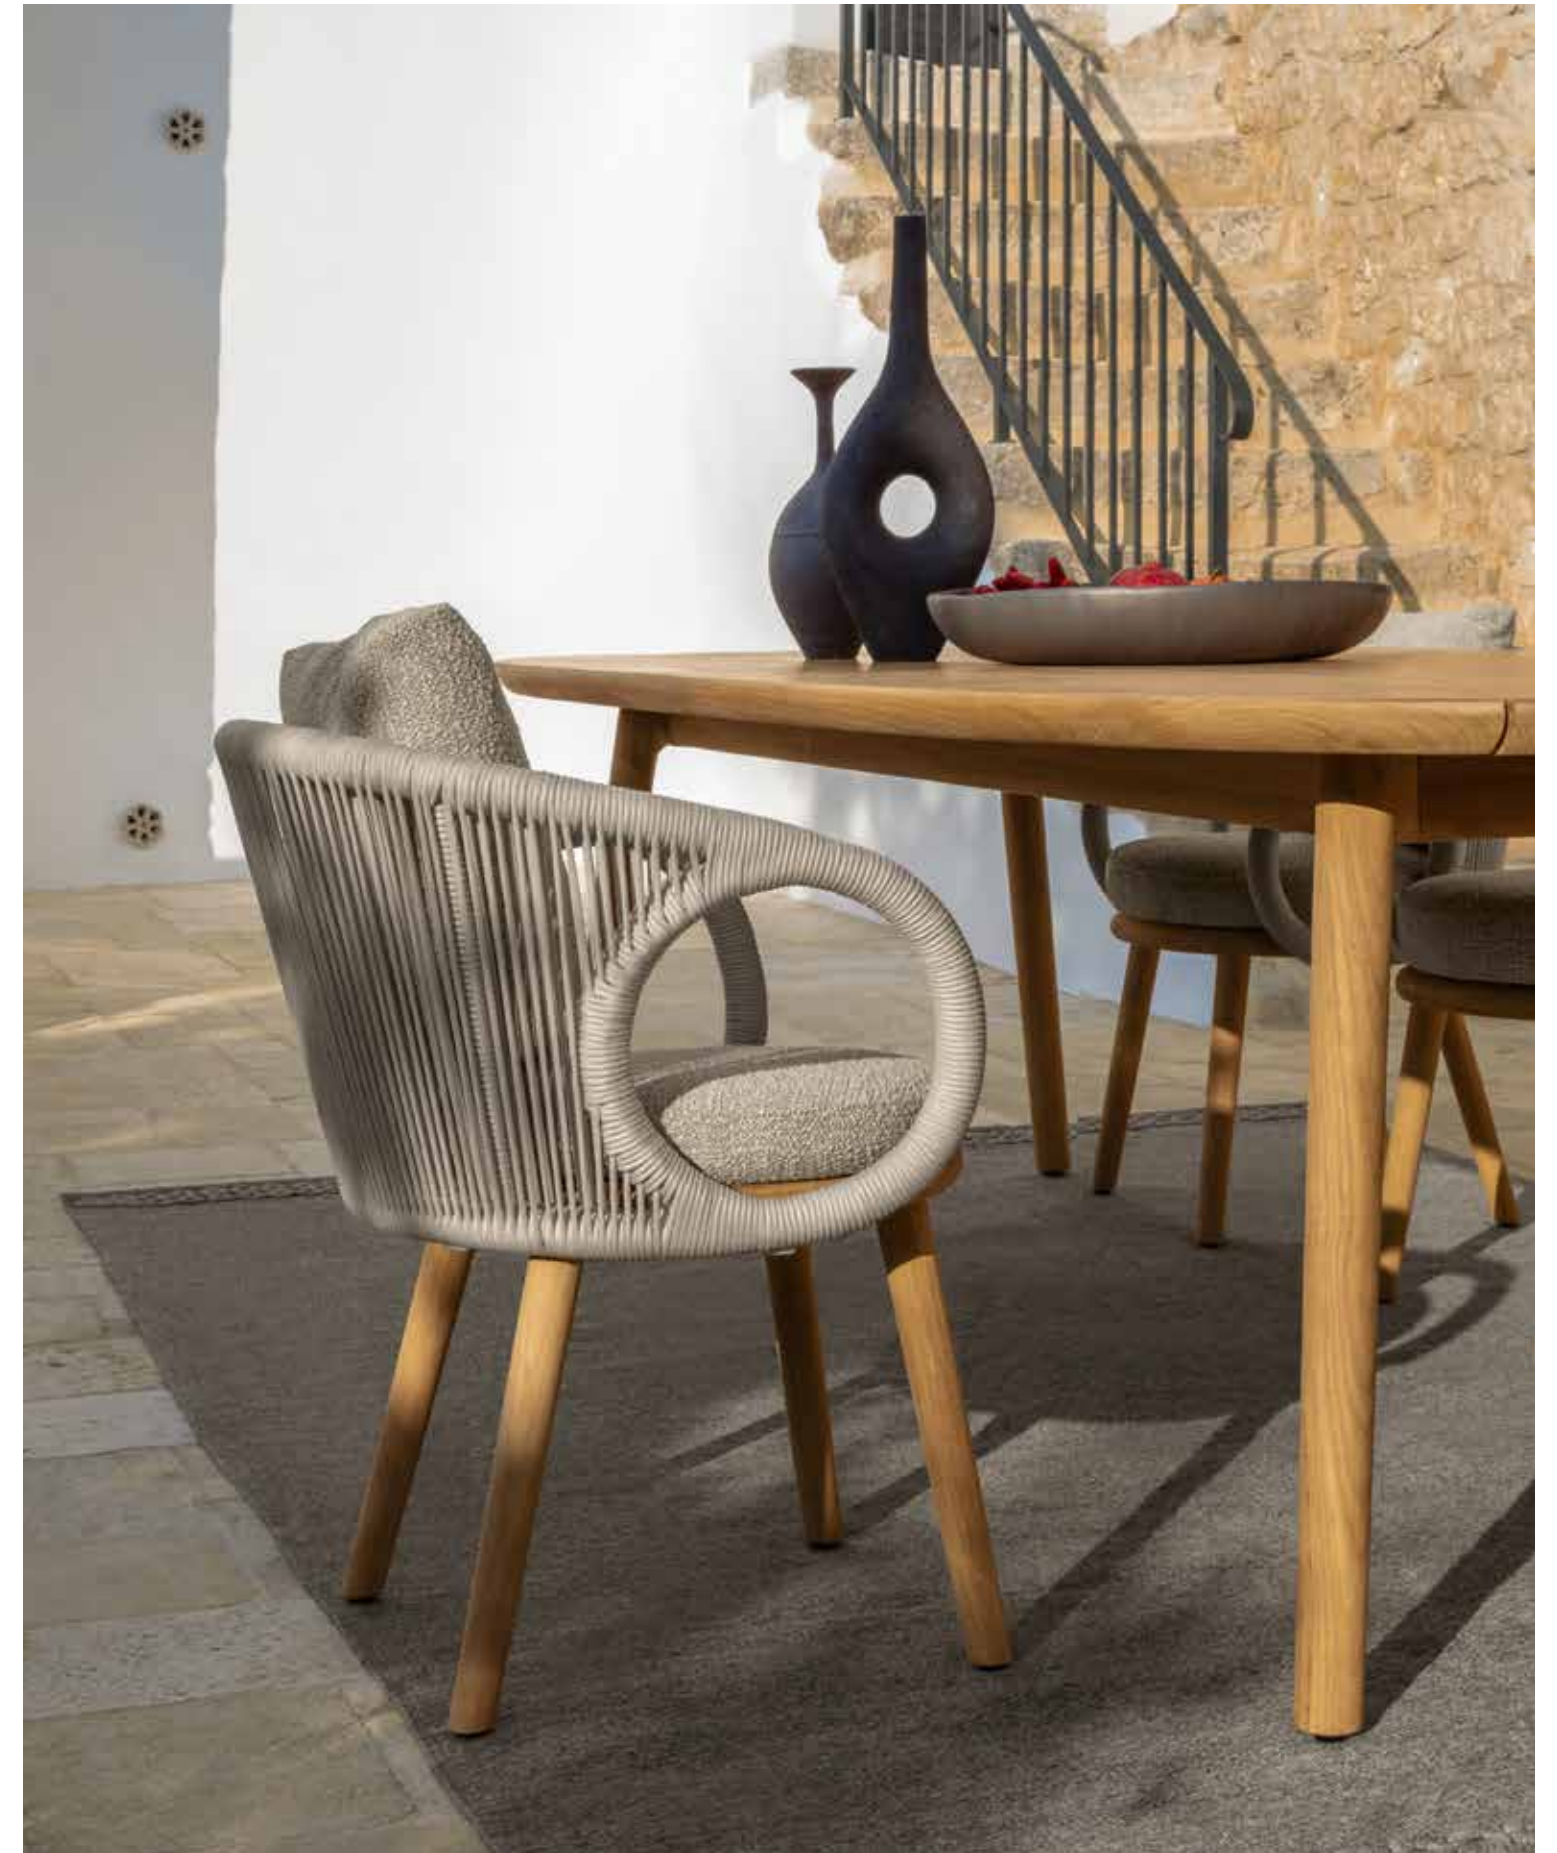

Design Ludovica Serafini + Roberto Palomba

Un progetto che pone al centro estetica ed artigianalità. L'incontro tra culture diverse e l'amore per l' Africa hanno permesso allo studio Palomba Serafini di dar vita ad una collezione unica in cui si è voluto trasportare la forza e la bellezza di questa terra, dagli intrecciati degli anelli che diventano braccioli e dagli innumerevoli fili di tessuto che sorreggono gli schienali. Le sue linee curve conferiscono l'aspetto di un trono e le forme avvolgenti donano all'imbottito l'aspetto di un rifugio, di un bozzolo protettivo.

A project which focuses on aesthetics and craftsmanship. The meeting of different cultures and the love for Africa have allowed the Palomba Serafini studio to create a unique collection in which have been conveyed the strength and the beauty of this land. This inspiration got translated into intertwined rings that become armrests and the countless threads of fabric that support the backrests. Its curved lines give the upholstery the appearance of a throne and its enveloping shapes give it the appearance of a refuge, of a protective cocoon.

Scacco collection

Design Ludovica Serafini + Roberto Palomba

È grazie all'intreccio che la corda disegna nel frame metallico che nasce la Scacco collection, divano modulare che fa delle rotondità degli imbottiti la sua cifra stilistica. Il gioco che si crea fra la parte anteriore, in cui prevalgono tessile ed imbottito, e la parte posteriore, dove "lo scacco" diventa protagonista, è ciò che denota il forte carattere del divano.

Scacco collection is born from the weave created by the rope on the metal frame. A modular sofa whose main stylistic feature is the paddings' roundness. The strong personality of this sofa is the result of the contrast between the frontal part, in which the textile and the paddings stand out, and the back, where the "check" pattern is the key element.

CleoSoftcollection // Wood

Design Marco Acerbis

Le parole chiave della collezione “Cleo” si possono riassumere in volume, forma ed equilibrio. È una composizione che facilmente si declina in modi diversi ma sempre con un senso di calma, eleganza e semplicità. L'equilibrio si fonda principalmente sulla contrapposizione tra il divano, dal carattere rigido e geometrico e una nuova cuscineria morbida di grande accoglienza e comfort.

Volumes, shapes and balance are the key elements of Cleo collection. It is a composition of objects that can be arranged in multiple layouts but always maintaining a sense of calm, elegance and simplicity. The balance is based on the contrast between the sofa, with its rigid and geometric character, and a new soft cushions of great welcome and comfort.

Cottagecollection

Design Ramón Esteve

Lo spirito rustico viene reinterpretato cercando la sintesi formale del mobile contemporaneo. Il risultato è una proposta di arredi da esterno in cui i materiali moderni come l'alluminio e i tessuti tecnici convivono con quelli più tradizionali come la corda, stabilendo relazioni emotive con la mente dell'utente finale.

The countryside mood is redesigned aiming at searching the formal synthesis of the contemporary furniture. The result is a proposal of outdoor furniture pieces, where modern materials such as aluminium and technical fabrics coexist with more traditional ones, such as the rope, that emotionally connect user's mind.

Materials

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elavata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.
Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.
Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.
Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.
Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cathoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable row material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Una delle pietre più pregiate e maggiormente impiegate in outdoor è sicuramente il marmo. Il marmo, grazie alla sua particolare composizione e natura, è una pietra poco porosa e poco assorbente, durezza e resistenza, fanno del marmo una tra le pietre più pregiate e durevoli nel tempo. La formazione del marmo avviene mediante un processo metamorfico di cristallizzazione: il carbonato di calcio, venendo in contatto con le rocce sedimentarie, dà vita ad un insieme di cristalli di calcite e minerali vari, i quali ne determinano il colorito.

Per mantenere la lucentezza del marmo e del granito è necessario detergere giornalmente le superfici: è sufficiente diluire il sapone neutro in acqua tiepida. Le superfici dovranno essere strofinate per mezzo di una spugna o un panno morbido. Sarà sufficiente risciacquare con un panno umido, prestando attenzione a non lasciare i fastidiosi aloni di detergente.

Marble is certainly one of the most precious and used stones for the outdoor. Marble, thanks to its particular composition and nature, is a little porous and not absorbing stone, hardness and resistance, making marble one of the most precious and durable stones in time. The marble formation takes place by means of a metamorphic crystallization process: calcium carbonate, coming into contact with the sedimentary rocks, gives rise to a set of crystals of calcite and various minerals, which determine the complexion.

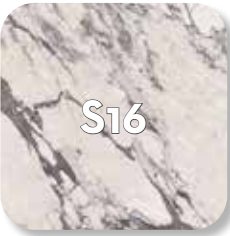

To maintain the shine of marble and granite it is necessary to clean the surfaces daily: it is sufficient to dilute the neutral soap in warm water. The surfaces must be rubbed with a sponge or a soft cloth. It will be sufficient to rinse with a damp cloth, being careful not to leave detergent stains

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Grazie all'utilizzo di materiali puri compattati tra loro ad alte temperature, senza l'aggiunta di resine sintetiche, il gres risulta molto resistente agli urti e alla flessione.

Per la pulizia dei in piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

The stoneware, thanks to its excellent physical and flexural strenght, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. Composed of pure ingredients compacted at high temperatures, without the addition of synthetic resin.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Il gres smaltato è ottenuto mediante la smaltatura manualmente di elementi in gres porcellanato. Le variazioni di colore e di aspetto tra una superficie e l'altra sono imprevedibili e rappresentano il valore aggiunto e la peculiarità di una lavorazione interamente artigianale.

Lava è un materiale robusto, consistente e di facile manutenzione realizzato smaltando artigianalmente lastre in pietra lavica o in gres. È un processo che unisce tecnologia e tradizione artigianale in cui vengono sapientemente bilanciati tempo e temperatura, donando inaspettate particolarità alla superficie. I colori, trasparenti e luminosi, applicati con processi manuali, permettono di cogliere, fra le loro sfumature, la porosità e le imperfezioni della pietra. Le lievi variazioni di spessore e tonalità di colore sono quindi valori di prestigio che rendono ogni prodotto unico.

La cottura ad alte temperature ed il vetro, completamente riciclato tramite un esclusivo processo di frantumazione e macinazione, migliora la superficie nelle sue caratteristiche tecniche, capace di rispondere a tutte le esigenze del vivere l'esterno.

Lava is a robust, consistent and easy-to-maintain material made by hand-glazing lava stone or stoneware slabs. It is a process that combines technology and traditional craftsmanship in which time and temperature are wisely balanced, giving unexpected peculiarities to the surface. The colors, transparent and bright, applied with manual processes, allow to capture, among their shades, the porosity and imperfections of the stone. The slight variations in thickness and color shades are therefore prestige values that make each product unique.

The firing at high temperatures and the glass, completely recycled through an exclusive crushing and grinding process, improves the surface in its technical characteristics, able to meet all the needs of outdoor living.

Cemento / Concrete

Beige cement

Grey cement

Il cemento è un materiale naturale e, in quanto tale, durante il suo processo produttivo possono verificarsi leggere sfumature e variazioni delle tonalità dell'impasto cementizio, che caratteristica portante del materiale e della tecnologia. Le fibre sono una componente dell'impasto cementizio e conferiscono al emento Ductal la sua estrema resistenza e flessibilità. Se la finitura scelta è molto levigata, le fibre possono intravedersi sulla superficie e devono essere accettate come caratteristica intrinseca alla finitura. I piani in cemento, specialmente di grandi dimensioni, non sono perfettamente planari a causa della natura stessa del materiale e della sua lavorazione artigianale.

Micro cavillature da ritiro, devono essere accettare come fenomeno naturale della lavorazione del materiale. Piccoli fori e bolle possono apparire sulla superficie dei prodotti in cemento. Essi sono una naturale conseguenza del processo produttivo e parte integrante delle caratteristiche del materiale. Il loro aspetto e la loro quantità varia da finitura a finitura. I fori inferiori a 4 mm di diametro vengono lasciati tali, mentre di norma vengono stuccati quando superano il diametro di 5 mm.

Il cemento è un materiale poroso che tende ad assorbire i liquidi che entrano in contatto con la sua superficie, per questo va protetto con dei prodotti appositi; antidegrado ed antimacchia. È importante quindi evitare il ristagno dei liquidi sui piani e specialmente il contatto prolungato tra cemento e oggetti bagnati quali vasi, bottiglie, bicchieri o teli di plastica: una non corretta evaporazione dei liquidi può causare infatti macchie difficilmente removibili dai manufatti.

Eseguire una pulizia superficiale con l'utilizzo di una soluzione di acqua e detergente neutro con basso contenuto di cera (es. prodotti per pavimenti in marmo). Per macchie insistenti, è possibile utilizzare soluzioni che contengono ammoniaca/candeggina diluita al 10%, cioè 1 parte di candeggina su 10 parti di acqua.

Cement is a natural material and due to its nature it may present slight nuances and variations in its combination, which is a key characteristic of the material and production technology. Fibres are a component of the cement mix and give the Ductal cement its extreme strength and flexibility. If the chosen finish is highly polished, fibres may be visible on the surface and must be accepted as an intrinsic feature of the finish. Cement top and flat surfaces, especially the large ones, are not perfectly flat due to the nature of the material and its craftsmanship.

Micro shrinkage cracks must be accepted as a natural phenomenon of the material's workmanship. Small holes and bubbles may appear on the surface of cement products. They are a natural consequence of the production process and an integral part of the material's characteristics. Their appearance and quantity varies from finish to finish. Holes smaller than 4 mm in diameter are left as they are, while they are normally grouted when they exceed 5 mm in diameter.

Cement is a porous material that tends to absorb liquids which get in contact with its surface, which is why it must be protected with special products such as anti wear sealant and Anti stain sealant. It is therefore important to avoid the stagnation of liquids on the surfaces and especially the prolonged contact between cement and wet objects such as vases, bottles, glasses or plastic sheets: incorrect evaporation of liquids can cause stains that are difficult to remove.

Clean the surface with water and neutral detergent with a low content of wax (for ex. marble flooring products). Stubborn stains can be cleaned by using a solution containing 10% diluted ammonia/bleach, which is 1 part bleach for 10 parts water.

Corten

HPL è un durevole laminato compatto di ultima generazione, senza formaldeide che ha come caratteristica esclusiva quella di essere tutto colore, interno ed esterno. Caratteristiche principali:

- interamente impermeabile
- ignifugo ed autoestinguente (classe B-s2, d0)
- altissima resistenza agli urti e ai graffi
- resiste all'uso di detergenti chimici aggressivi
- adatto al contatto diretto con gli alimenti
- non trattiene odori e sapori
- antibatterico, per rispondere ai più severi requisiti igienici.

In caso di sporco ostinato o incuria rimuovete prima con un panno morbido e umido eventuali depositi di materiale secco, senza sfregare per non rigare la superficie. Utilizzate poi una spugna morbida non abrasiva e un detergente domestico, lavate la superficie con il detergente e risciacquate con acqua tiepida, quindi asciugate bene.

HPL is the latest generation compact laminate formaldehyde-free carактерized by a durable surface, with the unique feature of being full colour, inside and outside. Main features:

- it is completely waterproof
- it is flame-retardant and self-extinguishing (class B-s2, d0)
- it has a very high resistance to impacts and scratches
- it s resistant to the use of aggressive chemical detergents
- it is suitable for direct contact with food
- it does not retain odours or flavours
- it is antibacterial, to meet the most stringent hygiene requirements.

In case of stubborn dirt or lack of care, we recommend to first remove any dry deposits with a soft and damp cloth, without rubbing to avoid scratching the surface. Then use a soft, non-abrasive sponge and a household detergent, wash the surface with the detergent and rinse with warm water, at the end dry thoroughly.

Materials

Vetro / Glass

Milk white Pumpkin orange Persian blue

Materiale elegante e contemporaneo, il vetro retroverniciato è ideale per applicazioni outdoor grazie alle sue eccellenti qualità estetiche e funzionali. Si tratta di un vetro float, generalmente temprato per aumentarne la resistenza, su cui viene applicata una vernice nella parte posteriore, successivamente protetta da uno strato di fissaggio. Il risultato è una superficie frontale completamente liscia, lucida e facilmente pulibile.

Grazie alla sua composizione, il vetro retroverniciato è resistente agli agenti atmosferici, ai raggi UV e all'umidità, mantenendo intatta la brillantezza dei colori e l'integrità della superficie anche in ambienti esterni.

Per la pulizia ordinaria si consiglia l'uso di una soluzione di acqua e detergente neutro con basso contenuto di cera (ad esempio prodotti specifici per superfici in marmo). In caso di macchie persistenti, è possibile intervenire con soluzioni contenenti ammoniaca o candeggina diluita al 10% (1 parte di candeggina in 10 parti di acqua), avendo cura di risciacquare abbondantemente e asciugare con un panno morbido.

An elegant and contemporary material, back-painted glass is ideal for outdoor applications thanks to its excellent aesthetic and functional qualities. It is made from float glass, usually tempered to increase its strength, with a layer of paint applied to the back and protected by a sealing coating. The result is a perfectly smooth, glossy, and easy-to-clean front surface.

Thanks to its composition, back-painted glass is resistant to weather conditions, UV rays, and humidity, maintaining the brightness of its colors and the integrity of its surface even in outdoor environments.

Maintenance
For routine cleaning, we recommend using a solution of water and a neutral detergent with a low wax content (such as products for marble floors). In case of stubborn stains, it is possible to use solutions containing ammonia or diluted bleach (10% bleach solution: 1 part bleach to 10 parts water). Be sure to rinse thoroughly and dry with a soft cloth.
