# Our Common Journey

*“A funeral or memorial service allows for a time to reflect and to say goodbye.”*

## **THE DEATH OF A LOVED ONE**

At some point, every family has to face the reality that life ends. Sometimes it is the result of an illness, or after a long life, but sometimes it happens suddenly, with no time to prepare.

## **HEARING THE NEWS**

When a death occurs, the immediate family has the task of letting other family members and friends know what has happened. This is often when the fact that a loved one has died begins to sink in.

## **FAMILY GATHERS**

Often the family home becomes a busy place, as family members gather to make pressing decisions about what should be done next. Usually around this time the family meets with one of our funeral directors, either at the funeral home, or at the family's home, to plan out the details of the funeral.

## **FRIENDS SUPPORT**

As the word spreads, friends surround the family and offer support. People want to offer support by sending flowers or a card, calling, or dropping off a meal.

## **PUBLIC MOURNING**

This is an opportunity for you to invite your community to join you in your grief, to offer support and to remember the deceased. Visitation hours provide a structured time for people to offer condolences to the family. A funeral or memorial service allows for a time to reflect, and to say goodbye. The tone of this service is often impacted by religious beliefs and worldviews held by the deceased and the family.

## **FINAL GOODBYE**

At this point, we say goodbye to the body of our loved one, and begin to realize that life must go on without their physical presence.

## **PRIVATE GRIEVING**

Grief is a journey, and does not end with the funeral. The grief a family experiences is very real and will last a long time. Often this is done in private, with close family and friends offering support. Many times we will begin to seek support from those who understand.

## **ADJUSTING TO CHANGE**

Life must continue without the person who has died. Slowly a family adjusts to the absence of the deceased. Life changes but it does go on.

# Funeral Preplanning and Prepaying

*Funeral planning as a part of estate planning is a responsible decision. Whether facing the imminence of death in the family, or making responsible arrangements for your estate and affairs, there is great benefit in discussing funeral arrangements in advance for yourself or a loved one.*

Let's talk about it in the comfort of your own home or at our location, at a time that is convenient for you. We can present you with a range of funeral services and merchandise, which is tailored to suit your traditions, beliefs and budget, in a confidential and pressure-free manner. There is no cost or obligation.

## **WHY SHOULD YOU PLAN AHEAD?**

Pre-planning offers a number of benefits:

- Pre-planning gives you, as well as your family, peace of mind. Pre-planning leaves your loved ones with a clear idea of your wishes and intentions.
- Pre-planning offers an opportunity for you and your spouse to carefully weigh all the options, and make decisions together, without the emotion of a recent death.

- Should you wish to pay for the funeral ahead of time, you will know that your family will be relieved of the financial burden associated with the funeral arrangements. Everything will be looked after.

## **HOW DO YOU PAY FOR FUNERAL ARRANGEMENTS AHEAD OF TIME?**

There are many options for setting aside funds to cover funeral costs. Paying today means that the costs associated with the arrangements are guaranteed. That means that even though costs will rise over the years, you and your family will not have to pay anything more. There are many options to pay: all at once, or in installments, with pre-authorized debit, or credit card payments. Talk to us about what might work best for you.

## **GUARANTEED TRAVEL ASSURANCE PLAN**

Are you planning to travel? Transporting your loved one from elsewhere can be a costly endeavor. Enrolling in the Guaranteed Travel Assurance Plan means the costs and logistics of repatriation will be looked after. You simply pay a one-time fee of \$495 plus taxes, and you will be covered. This plan covers expenses when a death occurs anywhere over 100 kilometres from home.

# Value of Viewing the Body

The traditions of our cultures are continually changing. Families are considering cremation and direct burials more often than before. Viewing the deceased has been a part of the death process for centuries, yet it is slowly fading away. The question is why?

Today, most individuals die in a hospital, nursing home or hospice setting where family and friends provide minimal care and have reduced contact with the dying individual. They are separated or protected from this reality of life. However, many are at a loss once the death occurs.

Grieving a loved one is a difficult process, no matter the circumstances. It is human nature for us to look for ways to lessen this trauma. Sadly, many feel that viewing the deceased will be a difficult task (which it is), so they choose not to. Others are concerned about the deceased appearance, and feel it is better to remember them as they were prior to their illness or death. Sadly, this decision is final. We cannot provide this opportunity, this closure, days weeks or months after the death occurred. We have a short window of opportunity.

As a funeral director, I see value in this opportunity. It is a touch-point whereby we can help family and friends continue their grieving process. As is often said, seeing is believing. Without viewing the deceased it can be difficult for an individual to persuade their own mind that their loved one is indeed gone. Denial can cause a person to continually expect their deceased loved one to someday "just walk through the door" and presents further challenges in the grieving process. Viewing provides families with a special time where they can say goodbye in their own personal way. It also provides an opportunity for social support, whereby we witness that others are with us as we work through the difficult grieving process. Viewing the body should ALWAYS be considered before final disposition.

Sadly, in speaking from experience, many individuals regret not taking advantage of this opportunity when they were given the chance. Please try to look past the challenges of this task but instead focus on the healing that this opportunity can provide you in the days, weeks and months following your loved one's death. It is an opportunity that is invaluable, and most individuals don't realize the extent of the benefit until they have done it once themselves. I don't want families to look back with regret, but instead appreciate opportunities we are given in life and take advantage of them. It will surely help you in your grieving process.

# Why We Have Had Funerals Since the Beginning of Time

WOLFELT'S HIERARCHY OF THE PURPOSES OF FUNERALS

## Transcendence

Ultimately, funerals help us embrace the wonder of life and death.

## Meaning

Funerals mark the significance of the life that was lived. They also help us find meaning and purpose in our continued living, even in the face of loss.

## Expression

Funerals allow us to express our inner thoughts and feelings about the life and the death.

## Support

Funerals bring together people who care about each other in an atmosphere of love and support.

## Recall

Funerals encourage us to remember the person who died and share our unique memories with others, creating hope for the future.

## Reality

Funerals help us begin to truly acknowledge the reality that someone in our life has died.

# Making it Personal

**Even the smallest touch can make a big difference in personalizing your funeral services. There is no right or wrong when it comes to remembering your loved one and honouring their life, accomplishments, and individuality.**

Personalization isn't just about marking your loved one's individuality. It also allows family and friends to feel comforted by the services and experience their connection to the life being honoured. A memorable and meaningful service can be an important part of the healing process for those who are coping with a loss. We work closely with you to get to know your loved one's life story and consider ways to represent your bond and pay tribute to their unique journey.

# Here are a few ideas for your service:

## Dove or Butterfly Release

We will coordinate this symbolic ceremony. Releasing doves or butterflies is often done at the end of a funeral or graveside service. The butterfly is a symbol of the resurrection, and the dove a symbol of the human soul. Releasing butterflies or doves is not only a touching ceremony, but a wonderful and memorable way to include young children in the funeral service.

## Memory Collages

We can provide memory boards for the display of snapshot photos and other memorabilia. These encourage conversations of special times and happy memories and provide a valuable time together for the family as they prepare the tribute.

## Special Music

Everyone has a special song or piece of music that carries deep associations and memories. We can play your recorded music (we'll find it for you if you don't have it), or arrange a live performance. Live musical tributes can include bagpipers, buglers, harpists, organists, pianists or a soloist, to name a few.

## A Fitting Send-off

We have arranged for and encourage families to display personal mementos of a life well lived for the visitation and services that include golf clubs, motorcycles, fishing tackle, and many other fitting send offs.

## Compassionate Service for an Infant Child

We feel a special sense of loss in the death of a young person. As the professional fees included in this guide are based on the provision of services for an adult, we have adopted the following reduction table for infants and children.

<u>Child's Age</u>	<u>Reduction**</u>
11 years to 16 years	25%
6 years to 10 years	50%
5 years and under	75%

\* All pricing included in our Planning Guide does not include applicable taxes.

\* Pricing is reflective of services held and completed in the funeral home. Additional fees may be applicable for services completed away from the funeral home.

<sup>1</sup> Included in Full Professional Service Fees on pages 12 - 13 & 28 - 29.

<sup>2</sup> All transportation charges are based on a 35 kilometer radius one way and 3 hour maximum. Additional charges (\$2.89/km one way or \$87.50/hr for funeral coach or limousine - \$1.95/km one way or \$40.00/hr for all other vehicles) will apply beyond those limits, including wait times between service/ceremony and final disposition.

\*\* Reduction rate does not apply to any disbursements, merchandise items including casket, vault, stationery, limousine fees or additional transportation expenses (i.e. mileage for out-of-town transfers, etc.)

# Are you thinking of Cremation?

## THE CREMATION PROCESS

Cremation involves reducing the body to bone fragments by applying intense heat for a period of two to three hours. The cremated remains, which are commonly referred to as ashes, are removed from the cremation chamber, and any metal objects are removed. The cremated remains are then processed, so that they are of an equal consistency. They will often appear white or grey in colour, and typically weigh between 1 to 2 kilograms.

### *What mementos or personal items can be placed in a casket prior to cremation?*

Some personal items can be placed in the casket, like notes or photos, which can be a helpful way to say goodbye. Since most items will be destroyed as part of the cremation process, we suggest that jewellery be removed and placed inside the urn with the cremated remains after the cremation has taken place.

### *What funeral services can be selected if cremation is chosen?*

Cremation does not limit the funeral services that may be chosen. The same options available with earth burial are available with cremation. Some

of these choices include the type of casket, having an open casket viewing or visitation, location of service, and type of funeral or memorial service. Ask one of us if you have any questions about this.

## OUR CREMATORIUM

We will arrange cremation with any crematorium, but we suggest Evergreen Crematorium, located on the grounds of the Milton Evergreen Cemetery. We, along with many other family-owned funeral homes, are part owners of the crematorium, and we feel that Evergreen can best serve the needs of your family. The crematorium is located in a beautiful building, which has a chapel that can seat up to 50 people for a ceremony.

## ATTENDING THE CREMATION

We are used to being present for the burial of a loved one, but have you considered attending the cremation? Some families find it beneficial to accompany us to the crematorium, and to have a goodbye ceremony in the crematorium chapel, as a way of seeing the process through. If desired, you may even witness the beginning of the cremation process in a respectful manner. Many families have appreciated accompanying their loved one for a final journey. Ask your funeral director about how this might work for your family.

*“...we suggest Evergreen Crematorium, located on the grounds of the Milton Evergreen Cemetery.”*

# Cremation Containers and Caskets

The cremation caskets and containers offered here are designed for cremation with minimal or no metal used in construction. While all are designed to transport the deceased to the crematorium, some are designed to function during a visitation and/or ceremony. Others are designed more for a simple private family identification. Your funeral director will assist you in making a selection that best suits your needs.

# Rental Casket Packages

When visiting hours and a funeral service are part of the arrangement, many families appreciate the option of a rental casket. These caskets are identical in appearance to the burial caskets, yet they function differently. Only the interior shell and bedding of the rental casket is purchased and accompanies the deceased throughout the funeral and cremation. The exterior shell of the casket serves as ornamentation and is only rented for the period of the funeral. This introduces some practical cost savings and reduces wood combustion in the cremation process.

# Urn Vault Selection

If you plan on ground burial for the urn containing cremated remains, a cemetery may have a requirement that it be placed into an outer protective urn vault.

An urn vault is a sealed outer receptacle that houses the cremation urn, protecting it from the weight of the earth and cemetery maintenance equipment that will pass over it. Lined urn vaults provide additional protection from subsoil elements while preventing the ground from settling, thus maintaining the beauty of the grounds.

Many are constructed of high-strength concrete and some are reinforced with various lining materials including bronze, copper, stainless steel, and high-impact plastics. Other are made of man-made materials such as acrylic.

Beyond the basic purpose of protection, many people choose to use the cremation urn vault as a repository of memories of an individual's life, and may place personal items (space permitting) inside along with the urn and cremated remains.

Your funeral director can help you select a cremation urn vault that suits your needs and budget.

**TRIGARD LINED URN VAULTS**

Trigard lined urn vaults are designed to hold the weight of the earth, and more importantly, to protect your loved one after burial. The daily use of heavy cemetery equipment and the gravity of the earth exert a force that far exceeds what an unprotected urn can handle.

A backhoe can weigh up to 14,000 pounds. An impact load is produced by the dropping of a backhoe bucket and exerts an even stronger force throughout the soil.

The advertisement features a yellow backhoe loader on a grassy field. Below the backhoe, a diagram shows three levels of protection for an urn. The first level, 'No Outer Container', shows an urn directly in the soil. The second level, 'Concrete Grave Liner', shows an urn inside a simple concrete box. The third level, 'Lined, Sealed Concrete Urn Vault', shows an urn inside a more complex, lined concrete structure. A downward arrow labeled 'Strong downward force of backhoe' points to the vaults. The Trigard logo is in the bottom right corner.

# Cremation Jewellery & Keepsakes

In addition to our line of full size and portion urns, we offer both custom and standard cremation jewellery and keepsakes, for those that wish to retain a small portion of cremated remains or a fingerprint, close to them.

## *Gravure Craft*

### Standard Cremation Keepsake Jewellery

Gravure Craft offer a very wide choice of pendants created from 316 jewellery quality stainless steel. Each pendant comes with a 21" stainless steel snake chain. You may choose from those in our display, or go to [gravurecraft.com/collections/cremation-jewelry](http://gravurecraft.com/collections/cremation-jewelry) to view their complete offering.

Starting at \$99.00 each

## *Eternity's Touch*

### Custom Cremation Keepsake Jewellery

There is nothing more individual or personal than a fingerprint. Eternity's Touch create one-only custom jewellery items or keepsake items from gold, silver, stainless steel, or acrylic, using the fingerprint impression of your loved one. Ask our funeral director for an Eternity's Touch brochure, and obtain your own PIN to login and order directly from [eternitystouch.com](http://eternitystouch.com)

Jewellery items starting at \$ 134.00 each  
Other keepsake items starting at \$20.00 each

# Floral Arrangements

During a time of loss, Morse & Son and Morgan Funeral Homes can help you select from a wide range of sympathy flower options, designed to suit your needs and those of your family and friends.

As part of the value added services we provide, once the service has concluded, we will deliver the flowers locally to the location of your choice that may include a nursing home, hospital, church or your residence.

# Are you thinking of Burial?

## **SOME FACTS ABOUT BURIAL**

The body is buried in a casket, and the casket may be placed in a concrete liner or a vault. The body can be buried shortly after death, after a visitation and/or funeral service, or before a memorial service. The body may be buried in the ground, or entombed in a mausoleum. Embalming is not required for burial, but may be recommended, depending on the visitation and funeral arrangements.

## **DO I NEED TO PURCHASE A VAULT?**

Some cemeteries either require or recommend purchasing a vault or cemetery liner to enclose the casket in the ground. This offers protection from the weight of the earth, and in the case of sealing vaults, protection from the elements in the ground.

## **WHAT MEMENTOS OR PERSONAL ITEMS CAN BE PLACED IN A CASKET PRIOR TO BURIAL?**

Any personal items can be placed in the casket, like notes or photos, which can be a helpful way to say goodbye. We will ask you whether any jewellery or mementos placed with your loved one during the visitation should be left with the person, or returned to the family. If desired, we can donate eyeglasses to charity.

## **PLANNING AHEAD**

We believe it is a good idea to select burial plots ahead of the time of need if possible. Selecting a final resting place for a loved one is an important decision that we can help you with. We have information available for all cemeteries in the area and can provide you with comparisons so that you can make a decision that fits both your wishes and your budget. Please give us a call or send us an email if you would like any information about cemeteries in our area. In addition, we can help you with designing and installing a fitting tribute with memorial monument or marker.

## **ARE KEEPSAKES FOR CREMATION ONLY?**

Some people find it helpful to have a part of their loved one to keep with them, as a special way to remember them. This is possible if you choose burial as well as cremation. Instead of cremated remains, a lock of hair can be enclosed for safekeeping, or a special note or photo. We offer jewellery options that can incorporate your loved one's fingerprint or locket that will hold an important photo. Ask one of our knowledgeable team members to assist you with the many options available.

# Casket Selection

The value, selection and cost of caskets are affected by a number of factors such as materials of construction, design details and personalization features. Basically there are two types of caskets – wood and metal.

The two main purposes of a casket are to provide the primary protection of the deceased in burial, and to act as a focal point during the services. Therefore, choosing the right casket for yourself or a loved one is a very personal decision.

## **METAL CASKETS (SUITABLE FOR BURIAL ONLY)**

Those who choose metal caskets typically value the protective qualities they offer, as well as the various colours, styles and ornamentation options available.

### Casket Construction Codes

S1 - Solid Wood Construction of 1" Stock Timber  
VS - Veneer Sides of 5/8" Material

## **WOOD CASKETS (SUITABLE FOR BURIAL OR CREMATION)**

Wood caskets can either be of solid construction, or made of select wood veneers. Most people who choose a wood casket do so because of the warmth and beauty of the wood. In fact, no two wood caskets are identical, since the graining patterns are unique to each one.

# Burial Vaults

Some cemeteries require you to purchase a burial vault or concrete liner. The diagram to the right demonstrates the benefits of a liner or burial vault. # Celebrant Services

## *Every Life is Worth Remembering*

### What is a Funeral Celebrant?

A Celebrant is a person who is trained and certified to meet the needs of families during their time of loss. A Celebrant serves by providing a funeral service that is personalized to reflect the personality and life-style of the deceased.

### Why Use a Certified Celebrant?

The training for Celebrants seeks to provide the most comprehensive and sensitive training available. It is important that you and your family know that you are being served by someone who understands the process and is prepared to offer the very best service possible.

### What Does a Certified Celebrant Offer the Family?

A Celebrant has been specifically trained to design a service for your loved one that is completely personal, incorporating those unique stories, songs and experiences that defined the loved one. A Celebrant will schedule a special Family Time for your family to share memories, anecdotes and special moments in the loved one's life. The essence of the service will be

based upon the remembrances of the family. The Celebrant will consult with you to help design a service that best reflects and memorializes the life of your loved one. The Celebrant can serve at a funeral service, memorial service, graveside service, anniversary tribute, tree planting, bench dedication or any other gathering designed to honour the deceased.

### What is the Cost?

The Celebrant will spend approximately 10 hours in preparation for your service as well as the expense of maintaining a resource library and on-going training. The average cost for the Funeral Celebrant Services is \$250.00-300.00 plus H.S.T. and may be added to your funeral service account.

# Estate Documentation Program

*Most people don't think about the day after a funeral. That's why we do. For most of us, there will never be a day quite like the one following a funeral. With fewer distractions, the reality of loss seeps into places we didn't know existed. People around us ease back into their routine.*

It's hard to imagine how anyone could think clearly – or even care – about the many things that need to be taken care of following a funeral.

THAT'S WHERE OUR ESTATE DOCUMENTATION PROGRAM STEPS IN.

We offer Estate Documentation because we know it makes a difference to families who have entrusted us with their loss. Our trained counselor helps you begin the healing process by providing valuable “hands-on” assistance with many of the tasks (large and small) that must be dealt with.

## **HERE IS WHAT YOU CAN EXPECT FROM THE ESTATE DOCUMENTATION PROGRAM:**

---

Beneficiary changes, notifying the appropriate government agencies and timely insurance claims are among the most pressing matters facing a survivor, and may impact your financial well-being. Some things, left undone, have the potential to complicate your life if not addressed in a timely manner.

Want us to make phone calls? Need us to get a claim in the works? That's what we'll do. And if you're not sure where to start, we'll help you determine a plan of action.

Your Funeral Director will help you complete any benefits you may be entitled to including the CPP Death Benefit/ CPP Survivors Pension, OHIP and SIN maintenance and much more.
