# Who are we?

**Ernie Morgan - Owner**  
Funeral Director

Planning a funeral can become overwhelming; however, please rest assured that we are here to help you every step of the way. We will answer your questions and offer reassurance as you embark on this emotional journey.

Here, at Morse & Son and Morgan Funeral Homes, we believe that a funeral is a time to honour the life of the deceased and celebrate the heritage of the family. It is an important time for relatives and friends to gather, share stories, acknowledge loss and support each other.

It would be our greatest privilege to assist you in preparing a respectful, fulfilling experience that meets the individual needs of your family and your loved ones.

We pride ourselves in offering the very best service to the families we serve.

Please take a moment to read through this guide; we hope that you will find it to be a helpful and informative resource to the services and options that we offer.

*“There is only one thing a funeral has to be.....whatever you want it to be.”*

# Our Common Journey

*“A funeral or memorial service allows for a time to reflect and to say goodbye.”*

## **THE DEATH OF A LOVED ONE**

At some point, every family has to face the reality that life ends. Sometimes it is the result of an illness, or after a long life, but sometimes it happens suddenly, with no time to prepare.

## **HEARING THE NEWS**

When a death occurs, the immediate family has the task of letting other family members and friends know what has happened. This is often when the fact that a loved one has died begins to sink in.

## **FAMILY GATHERS**

Often the family home becomes a busy place as family members gather to make pressing decisions about what should be done next. Usually it is around this time that the family meets with one of our funeral directors, either at the funeral home or at the family's home, to plan out the details of the funeral.

## **FRIENDS SUPPORT**

As the word spreads, friends surround the family and offer support. People want to offer support by sending flowers or a card, calling or dropping off a meal.

## **PUBLIC MOURNING**

This is an opportunity for you to invite your community to join you in your grief, to offer support and to remember the deceased. Visitation hours provide a structured time for people to offer condolences to the family. A funeral or memorial service allows for a time to reflect, and to say goodbye. The tone of this service is often impacted by religious beliefs and world views held by the deceased and the family.

## **FINAL GOODBYE**

At this point, we say goodbye to the body of our loved one and begin to realize that life must go on without their physical presence.

## **PRIVATE GRIEVING**

Grief is a journey and does not end with the funeral. The grief a family experiences is very real and will last a long time. Often this is done in private with close family and friends offering support. Many times we will begin to seek support from those who understand.

## **ADJUSTING TO CHANGE**

Life must continue without the person who has died. Slowly a family adjusts to the absence of the deceased. Life changes but it does go on.

# Funeral Preplanning and Prepaying

*Funeral Planning as a part of Estate planning is a responsible decision. Whether facing the imminence of death in the family or making responsible arrangements for your Estate and affairs, there is a great benefit in discussing funeral arrangements in advance for yourself or a loved one.*

Let's talk about it in the comfort of your own home or at our location at a time that is convenient for you. We can present you with a range of funeral services and merchandise that is tailored to suit your traditions, beliefs and budget in a confidential and pressure-free manner. There is no cost or obligation.

## WHY SHOULD YOU PLAN AHEAD?

Pre-planning offers a number of benefits:

- Pre-planning gives you, as well as your family, peace of mind. Pre-planning leaves your loved ones with a clear idea of your wishes and intentions.
- Pre-planning offers an opportunity for you and your spouse or partner to carefully weigh all of the options and make decisions together, without the emotion of a recent death.
- Should you wish to pay for the funeral ahead of time, you will know that your family will be relieved of the financial burden associated with the funeral arrangements. Everything will be looked after.

## HOW DO YOU PAY FOR FUNERAL ARRANGEMENTS AHEAD OF TIME?

There are options for setting aside funds to cover funeral costs. Paying today means that the costs associated with the services and supplies are guaranteed. That means that, even though the costs will rise over the years, you and your family will not have to pay anything more for the services and supplies. You may pay all at once, or installments with pre-authorized debit payments. For your convenience, we offer two funding options when prepaying services and supplies.

**TRUST** You may pay the funds through us and we will place them In Trust where the funds will accrue interest until the contract is fulfilled (when the services and supplies are delivered) or the contract is cancelled.

**INSURANCE** You may purchase an insurance contract where the proceeds of the insurance contract will be used to pay for the services and supplies at the time that they are delivered or the contract is cancelled. Talk to us about what might work best for you.

## GUARANTEED TRAVEL ASSURANCE PLAN

Are you planning to travel? Transporting your loved one from elsewhere can be a costly endeavour. Enrolling in the Guaranteed Travel Assurance Plan means the costs and logistics of repatriation will be looked after. You simply pay a one-time fee of \$495 plus taxes and you will be covered. This plan covers expenses when a death occurs anywhere over 100 kilometres from home.

# Value of Viewing the Body

The traditions of our cultures are continually changing. Families are considering cremation and direct burials more often than before. Viewing the deceased has been a part of the death process for centuries, yet it is slowly fading away. The question is WHY?

Today, most individuals die in a hospital, nursing home or hospice where family and friends provide minimal care and have reduced contact with the dying individual. They are separated or protected from the reality of life. However, many are at a loss once the death occurs.

Grieving a loved one is a difficult process, no matter the circumstances. It is human nature for us to look for ways to lessen this trauma. Sadly, many feel that viewing the deceased will be a difficult task (which it is), so they choose not to. Others are concerned about the deceased person's appearance, and feel that it is better to remember them as they were prior to their illness or death. This decision is final. We cannot provide this opportunity, this closure, days or weeks or months after the death occurred. We have a short window of opportunity.

As a funeral director, I see value in this opportunity. It is a touch-point whereby we can help family and friends continue their grieving process. As is often said, "seeing is believing." Without viewing the deceased, it can be difficult for an individual to persuade their own mind that their loved one is indeed gone. Denial can cause a person to continually expect their deceased loved one to some day "just walk through the door" and presents further challenges in the grieving process. Viewing provides families with a special time where they can say goodbye in their own personal way. It also provides an opportunity for social support, whereby we witness that others are with us as we work through the difficult grieving process. Viewing the body should ALWAYS be considered before final disposition.

Sadly, in speaking from experience, many individuals regret not taking advantage of this opportunity when they were given the chance. Please try to look past the challenges of this task and instead focus on the healing that this opportunity can provide you in the days, weeks, and months following your loved one's death. It is an opportunity that is invaluable, and most individuals don't realize the extent of the benefit until they have done it once themselves. I don't want families to look back with regret but, instead, appreciate opportunities we are given in life and take advantage of them. It will surely help in your grieving process.

A black vintage hearse is parked in front of a two-story brick building. A tall black pole stands in front of the building, topped with a large clock face. The clock face has "WASSE & SONS" written at the top and "FUNERAL CHAPEL" at the bottom. The building has several windows with white frames. The scene is brightly lit, suggesting daytime.

# Making it Personal

**Even the smallest touch can make a big difference in personalizing your funeral services. There is no right or wrong when it comes to remembering your loved one and honouring their life, accomplishments and individuality.**

Personalization isn't just about marking your loved one's individuality. It also allows family and friends to feel comforted by the services, and experience their connection to the life being honoured. A memorable and meaningful service can be an important part of the healing process for those who are coping with a loss. We work closely with you to get to know your loved one's life story and consider ways to represent your bond and pay tribute to their unique journey.

# Here are few ideas for your service

## **DOVE OR BUTTERFLY RELEASE**

We can coordinate this symbolic ceremony. Releasing doves or butterflies is often done at the end of a funeral or graveside service. The butterfly is a symbol of the resurrection, and the dove a symbol of the human soul. It is not only a touching part of a ceremony, but a wonderful and memorable way to include young children in the funeral service.

## **MEMORY COLLAGES**

We can provide memory boards for the display of snapshot photos and other memorabilia. These encourage conversations of special times and happy memories and provide a valuable time together for the family as they prepare the tribute.

## **SPECIAL MUSIC**

Everyone has a special song or piece of music that carries deep associations and memories. We can play your recorded music (we'll find it for you if you don't have it), or arrange a live performance. Live musical tributes can include bagpipers, buglers, harpists, organists, pianists, or a soloist to name a few.

## **A FITTING SEND-OFF**

We encourage families to display personal mementos of a life well-lived for the visitation and services that may include golf clubs, a motorcycle, fishing tackle, paintings, sewing, embroidery, crafts or almost any other interest they may have had.

# Itemized Services

The following services have been itemized to allow for full flexibility in the choice of services to be provided. Some of these items reflect specific services that you select, and others are required to enable us to serve you in a professional manner.

## Compassionate Service for an Infant Child

We feel a special sense of loss in the death of a young person. As the professional fees included in this guide are based on the provision of services for an adult, we have adopted the following reduction table for infants and children.

Child's Age	Reduction**
11 years to 16 years	25%
6 years to 10 years	50%
5 years and under	75%

\*\*Reduction rate does not apply to any disbursements, merchandise items including casket, vault, stationery, limousine fees or additional transportation expenses (i.e. mileage for out-of-town transfers, etc.)

\* All pricing included min our Planning Guide does not include applicable taxes.

\* Pricing is reflective of services held and completed in the funeral home. Additional fees may be applicable for services completed away from the funeral home

# Are you thinking of Cremation?

## THE CREMATION PROCESS

Cremation involves reducing the body to bone fragments by applying intense heat for a period of two to three hours. The cremated remains, which are commonly referred to as ashes, are removed from the cremation chamber, and any metal objects are removed. The cremated remains are then processed, so that they are of an equal consistency. They will often appear white or grey in colour, and typically weigh between one and two kilograms.

### ***What mementos or personal items can be placed in a casket prior to cremation?***

Some personal items can be placed in the casket, like notes or photos, which can be a helpful way to say goodbye. Since most items will be destroyed as part of the cremation process, we suggest that jewellery be removed and placed inside the urn with the cremated remains after the cremation has taken place.

### ***What funeral services can be selected if cremation is chosen?***

Cremation does not limit the funeral services that may be chosen. The same options available with earth burial are available with cremation. Some of these choices include the type of casket, having

an open casket viewing or visitation, location of service, and type of funeral or memorial service. Ask one of us if you have any questions about this.

## OUR CREMATORIUM

We will arrange cremation with any crematorium, but we suggest Southwest Crematorium, located on the grounds of the Milton Evergreen Cemetery. We, along with many other family-owned funeral homes, are part owners of the crematorium, and we feel that Southwest can best serve the needs of your family. The crematorium is located in a beautiful building, which has a chapel that can seat up to 50 people for a ceremony.

## ATTENDING THE CREMATION

We are used to being present for the burial of a loved one, but have you considered attending the cremation? Some families find it beneficial to accompany us to the crematorium and to have a goodbye ceremony in the crematorium chapel, as a way of seeing the process through. If desired, you may even witness the beginning of the cremation process in a respectful manner. Many families have appreciated accompanying their loved one for a final journey. Ask your funeral director about how this might work for your family.

*“... we suggest Southwest Crematoriums located on the grounds of the Milton Evergreen Cemetery.”*

# Cremation Containers and Caskets

The cremation caskets and containers offered here are designed for cremation with minimal or no metal used in construction. While all are designed to transport the deceased to the crematorium, some are designed to function during a visitation and/or ceremony. Others are designed more for a simple private family identification. Your funeral director will assist you in making a selection that best suits your needs.

# Rental Casket Packages

When visiting hours and a funeral service are part of the arrangement, many families appreciate the option of a rental casket. These caskets are identical in appearance to the burial caskets, yet they function differently. Only the interior shell and bedding of the rental casket is purchased and accompanies the deceased throughout the funeral and cremation. The exterior shell of the casket serves as ornamentation and is only rented for the period of the funeral. This introduces some practical cost savings and reduces wood combustion in the cremation process.

# Urn Vault Selection

If you plan on ground burial for the urn containing cremated remains, a cemetery may have a requirement that it be placed into an outer protective urn vault.

An urn vault is a sealed outer receptacle that houses the cremation urn, protecting it from the weight of the earth and cemetery maintenance equipment that will pass over it. Lined urn vaults provide additional protection from subsoil elements while preventing the ground from settling, thus maintaining the beauty of the grounds.

Many are constructed of high-strength concrete and some are reinforced with various lining materials including bronze, copper, stainless steel and high-impact plastics. Others are made of man-made materials such as acrylic.

Beyond the basic purpose of protection, many people choose to use the cremation urn vault as a repository of memories of an individual's life, and may place personal items (space permitting) inside along with the urn and cremated remains.

Your funeral director can help you select a cremation urn vault that suits your needs and budget.

**TRIGARD LINED URN VAULTS**

Trigard lined urn vaults are designed to hold the weight of the earth, and more importantly, to protect your loved one after burial. The daily use of heavy cemetery equipment and the gravity of the earth exert a force that far exceeds what an unprotected urn can handle.

A backhoe can weigh up to 14,000 pounds. An impact load is produced by the dropping of a backhoe bucket and exerts an even stronger force throughout the soil.

**No Outer Container**      **Concrete Grave Liner**      **Lined, sealed urn vault**

Trigard © 2017. All Rights Reserved.

The advertisement features a yellow backhoe loader positioned on a grassy surface above a cross-section of the ground. A large blue banner at the top contains the title 'TRIGARD LINED URN VAULTS'. Below the banner, a text block explains the purpose of the vaults. To the right, another text block provides specific details about the weight of a backhoe. At the bottom, three diagrams illustrate different vault options: 'No Outer Container' (a simple urn in a shallow pit), 'Concrete Grave Liner' (an urn in a rectangular concrete box), and 'Lined, sealed urn vault' (an urn in a dome-shaped, lined vault). A downward-pointing arrow labeled 'Strong downward force of backhoe' indicates the pressure exerted on the vaults. The Trigard logo is in the bottom right corner.

# Are you thinking of Burial?

## **SOME FACTS ABOUT BURIAL**

The body is buried in a casket, and the casket may be placed in a concrete liner or vault. The body can be buried shortly after death, after a visitation and/or funeral service, or before a memorial service. The body may be buried in the ground, or entombed in a mausoleum. Embalming is not required for burial, but may be recommended, depending on the visitation and funeral arrangements.

## **DO I NEED TO PURCHASE A VAULT?**

Some cemeteries require or recommend purchasing a vault or cemetery liner to enclose the casket in the ground. This offers protection from the weight of the earth and, in the case of sealing vaults, protection from the elements in the ground.

## **WHAT MEMENTOS OR PERSONAL ITEMS CAN BE PLACED IN A CASKET PRIOR TO BURIAL?**

Any personal items can be placed in the casket, like notes or photos, which can be a helpful way to say goodbye. We will ask you whether any jewellery or mementos placed with your loved one during the visitation should be left with the person, or returned to the family. If desired, we can donate eyeglasses to charity.

## **PLANNING AHEAD**

We believe it is a good idea to select burial plots ahead of the time of need if possible. Selecting a final resting place for a loved one is an important decision that we can help you with. We have information available for all cemeteries in the area and can provide you with comparisons so that you can make a decision that fits both your wishes and your budget. Please give us a call or send us an email if you would like any information about cemeteries in our area. In addition, we can help you with designing and installing a fitting tribute with memorial monument or marker.

## **ARE KEEPSAKES FOR CREMATION ONLY?**

Some people find it helpful to have a part of their loved one to keep with them, as a special way to remember them. This is possible if you choose burial as well as cremation. Instead of cremated remains, a lock of hair can be enclosed for safekeeping, or a special note or photo. We offer jewellery options that can incorporate your loved one's fingerprint or locket that will hold an important photo. Ask one of our knowledgeable team members to assist you with the many options available.

# Casket Selection

The value, selection and cost of caskets are affected by a number of factors such as materials of construction, design details and personalization features. Basically, there are two types of caskets - wood and metal.

The two main purposes of a casket are to provide the primary protection of the deceased in burial, and to act as a focal point during the services. Therefore, choosing the right casket for yourself or a loved one is a very personal decision.

## METAL CASKETS (SUITABLE FOR BURIAL ONLY)

Those who choose metal caskets typically value the protective qualities they offer, as well as the various colours, styles and ornamentation options available.

## WOOD CASKETS (SUITABLE FOR BURIAL OR CREMATION)

Wood caskets can either be made of solid construction, or of select wood veneers. Most people who choose a wood casket do so because of the warmth and beauty of the wood. In fact, no two wood caskets are identical, since the graining patterns are unique to each one.

# Burial Vaults

Some cemeteries require you to purchase a burial vault or concrete liner. The diagram to the right demonstrates the benefit of a liner or burial vault. A concrete liner or burial vault will provide stability for the ground, as well as protection for the casket. Sealed burial vaults will also protect the casket from the natural elements.

# Are you thinking of Green Burial?

## WHAT IS GREEN BURIAL

Green Burial is a statement of personal values for those who seek to minimize their impact on the local and global environment. For people who are mindful of the cyclical nature of life, green burial is a spiritually fulfilling alternative to conventional burial and cremation. It is an environmentally sensitive practice; the body is returned to the earth to decompose naturally and contribute to new life.

## THE FIVE PRINCIPLES OF GREEN BURIAL

**No embalming** - Decomposition is nature's way of recycling the body. Human Remains can still be prepared for private family viewing.

**Direct Earth Burial** - Human Remains are to be wrapped in a shroud that is biodegradable and if desired, the shrouded remains can be placed into a casket, or wicker container which are made of sustainable and fully biodegradable materials.

**Ecological Restoration & Conservation** - After allowing some time for grave settling, and using the guidelines set out, the burial site may be covered by indigenous plant materials, groundcover, and/or shrubs or trees may be planted in order to enhance the delicate ecosystem.

**Communal Memorialization** - Individual memorials are discouraged. Green Burial sites are a living memorial to the person interred there.

**Optimize Land Use** - Optimization of land use which exclude the installation of infrastructure such as roads, as an example.

*For those considering Green Burial choices we are fortunate to have a Green Burial option available locally in Willow's Rest located at Fairview Cemetery in Niagara Falls*

**100% biodegradable caskets**

**Green Burial Shrouds are 100% biodegradable**

## Catering

Catering is available through the funeral home starting at \$13.95 per person. Ask your funeral director for complete menus. An additional catering delivery fee may apply.

*\* Price based on use of facility post funeral only. Speak with a funeral director or Event Centre co-ordinator for other non-post funeral gatherings.*

# Floral Arrangements

**During a time of loss, Morse & Son and Morgan Funeral Homes can help you select from a wide range of sympathy flower options, designed to suit your needs and those of your family and friends.**

As part of the value added services, once the service has concluded, we will deliver the flowers locally to a location that may include your family's residence, a nursing home or hospital of your choice.

# Estate Documentation Program

*Most people don't think about the day after a funeral. That's why we do. For most of us, there will never be a day quite like the one following a funeral. With fewer distractions, the reality of loss seeps into places we didn't know existed. People around us ease back into their routine.*

It's hard to imagine how anyone could think clearly - or even care - about the many things that need to be taken care of following a funeral

*THAT'S WHERE OUR ESTATE DOCUMENT PROGRAM STEPS IN.*

We offer Estate Documentation because we know it makes a difference to families who have entrusted us with their loss. Our trained counselor helps you begin in the healing process by providing valuable "hands-on" assistance with many of the tasks (large and small) that must be dealt with.

## **HERE IS WHAT YOU CAN EXPECT FROM THE ESTATE DOCUMENTATION PROGRAM**

---

Beneficiary charges, notifying the appropriate government agencies and timely insurance claims are among the most pressing matters facing a survivor, and may impact your financial well-being. Some things, left undone, have the potential to complicate your life if not addressed in a timely manner.

Want us to make phone calls? Need us to get a claim in the works? That's what we'll do. And if you're not sure where to start, we'll help you determine a plan of action.

Your counselor will help you complete any benefits you may be entitled to including the CPP Death Benefit/ CPP Survivor's Pension, OHIP and SIN maintenance and much more.
