NKCMC Vision & Mission Statement

**Vision:** A transportation network that allows all people to move freely around North King County and the surrounding region.

**Mission Statement:** As the regional mobility coalition in North King County, the North King County Mobility Coalition (NKCMC) works to facilitate mobility improvement projects for special needs populations in North King County, improve education and awareness of transportation needs, and coordinates with members and service providers to identify transportation challenges. The NKCMC focuses its efforts on older adults, people with disabilities, low-income households, people experiencing homelessness, refugees, recent immigrants, limited-English proficient (LEP) populations, youth, and other populations that are disproportionately affected by limited transportation options.

NKCMC Fiscal Year 2024 Priorities

**Priority 1**  Participate in Snoqualmie Valley Mobility Coalition’s Transportation Advocacy 101 project including leveraging findings from NKCMC’s Cross-County Transportation project.

**Priority 2**  Support the Lynnwood Link Light Rail expansion including changes to the NKC transportation network by participating in planning, coordination, education, and outreach efforts.

**Priority 3**  Support the development and expansion of services in North King County.

NKCMC Fiscal Year 2024 Work Plan Projects

1. **Advocate for Cross-Border Transportation Improvements – July 2023 to June 2024**
   Building off of the findings from the Cross-County Transportation project, the NKCMC will create spaces to identify priorities and advocate for the recommended improvements. This project will result in changes to current cross-border travel limitations and more ease in travel across borders such as cities, neighborhoods, and county lines. NKCMC will also partner with the South King County Mobility Coalition on strategies to improve cross-border travel throughout the region.
### Mobility Education & Outreach

In support of NKCMC’s priorities, vision, and mission the North King County Mobility Coordinator also engages in education and outreach efforts across the region. These efforts are incorporated into Coalition projects when applicable and exist independently as an effort of the Hopelink Mobility Management team. Coalition members are always welcome to partner on outreach and education efforts. In the 2024 fiscal year the North King County Coordinator will prioritize outreach opportunities that are hosted in partnership with other service providers and offer opportunities for wrap-around connections.

Hopelink Mobility’s Education and Outreach programming consists of three main travel programs: Travel Ambassador Trainings (train the trainer), Getting Around Puget Sound tabling and community events, and Public Transit Orientations (field trips). These programs focus on the end-user, the community member, and making accessible the information community members need for getting to where they need to go.

More information on Mobility Education and Outreach can be found at [this webpage](#). To partner on our outreach programming please reach out to the North King County Mobility Coordinator.
