SKCMC Welcomes Everyone

The South King County Mobility Coalition welcomes and values all communities. We value, respect, and honor the identity and experience of all members.

We encourage everyone to participate, regardless of ability. We are committed to listening, learning, and improving in this process.

We acknowledge that the work we do takes place on the traditional land of the Coast Salish and Duwamish peoples, among others, as the first people of this land. We honor with gratitude the land itself as well as the past, present, and future of these tribes.

SKCMC Coalition Mission

Mission Statement

The South King County Mobility Coalition continuously identifies and initiates coordinated, creative, sustainable ways to assist individuals, including older adults, youth, persons with disabilities, limited English speakers, Veterans, and low-income individuals in South King County reach their potential by increasing their transportation options.
SKCMC Partner Role

• Share feedback and resources based on professional or personal experience to improve transportation access to the community

• Participate based on capacity and interest in bi-monthly meetings, presentations, and resource sharing by attending coalition meetings, suggesting agenda topics, sharing resources, and making partner referrals as appropriate

• Support the success of SKCMC projects and initiatives based on capacity and relevancy by participating in task force opportunities, providing guidance, and supporting the awareness and promotions of coalition projects.
SKCMC Mobility Coordinator Role

- Facilitate bi-monthly coalition meetings with SKCMC providers and partners (agenda, meeting materials, meeting minutes, etc.)

- Work collaboratively on improving transportation access and experience for community members by building relationships with diverse stakeholders including transportation providers, city staff, elected officials, human service agencies, and community advocates.

- Attend and actively participate in stakeholder groups

- Share relevant resources and transportation changes with SKC stakeholders

- Lead SKCMC projects, initiative, and planning efforts

Community Transportation Navigators

History

• Hopelink was awarded an inclusive planning grant in 2018 to create deeper engagement in the community, multiple projects came out of that grant including Community Transportation Navigators

• It is a peer-to-peer approach to providing transportation information directly to the community

• The program was created for the community, by the community approach. This approach allows community members to connect with navigators who have shared experiences, languages, cultures, and/or geography.

• Cohorts are developed with one community in mind and then navigators are recruited directly from that community

• Input was gathered from the community and decisions were made with support of communities engaging in this program
Community Transportation Navigators is extended for another 6 months!

Educational opportunities and presentations led by Navigators

- Online presentations via Zoom for community members
- In-person presentation at Filipino Community Center

Outreach include tabling events, follow up calls, enrollment assistance and building partnerships

- Seafood City
- Kirkland Library
- St. Paul
- Arts of Love Extravaganza
- Local radio spotlight on Rainier Avenue Radio

King County Mobility Coalition Action Plan

REGIONAL OUTREACH AND BRAINSTORMING

BEBHINN GILBERT
PROGRAM SUPERVISOR, KING COUNTY MOBILITY COALITION
SKCMC JANUARY MEETING
Goals for today

1. Introduce the county-wide project
2. Brainstorm together to see where South King needs and priorities meet with county-wide
The King County Mobility Coalition uses Action Plans as an essential tool for aligning our work with community needs. They are our roadmap for identifying next steps, coalition priorities, and potential projects.

This process is going to develop a three-year Action Plan based on findings from the 2021 Community Transportation Needs Assessment, community outreach, and coalition member input. This process will include convening advisory meetings, soliciting comments from a panel of reviewers, and engaging with aligned coalitions and community groups.

What else?
What **bold** and **transformative** steps should we choose to guarantee success – so that all people may move freely around King County and the Puget Sound Region?
What opportunities do you see for coordination and partnership?
What is your ideal solution?

What will solve mobility needs in South King County?
What barriers do we need to eliminate, so that mobility can become a resource for all?
