Company Profile

Who We Are

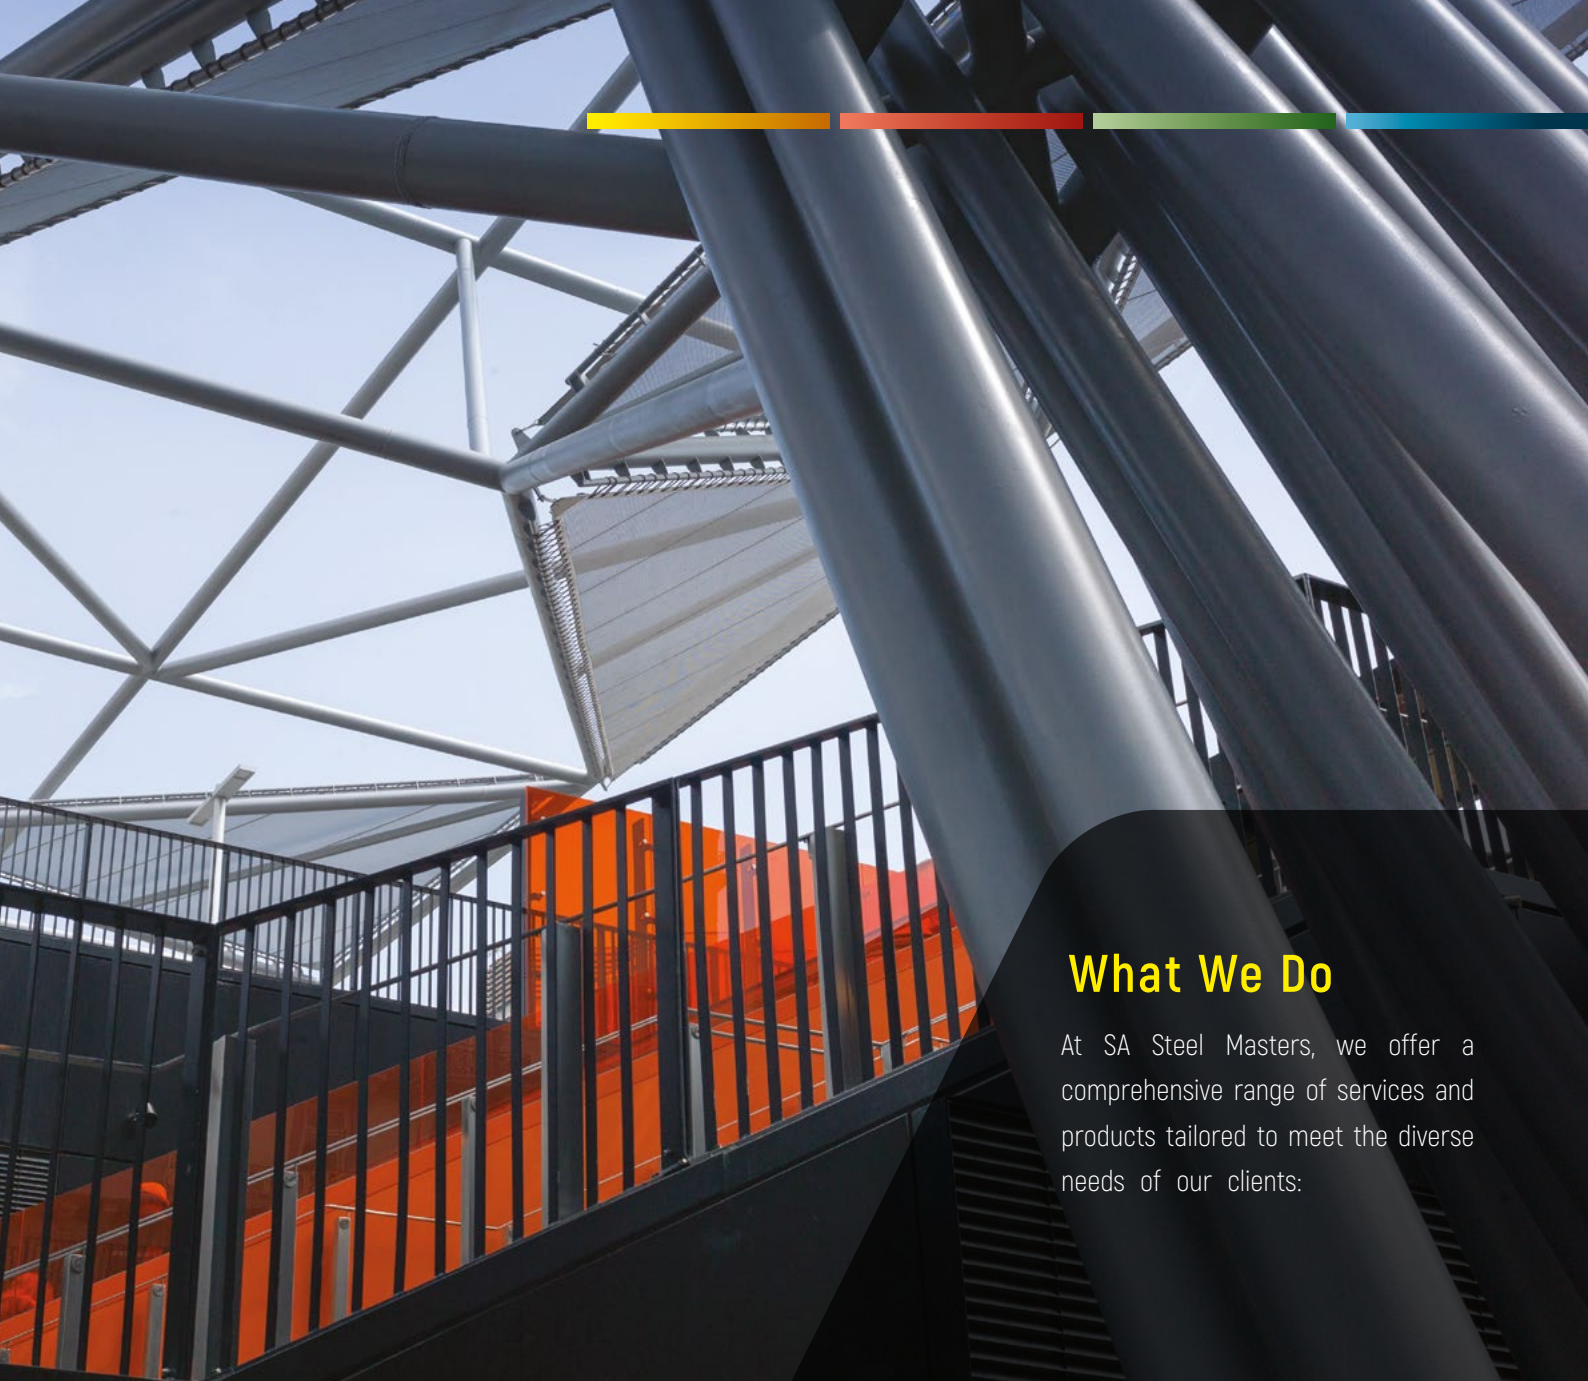

SA Steel Masters (Pty) Ltd is a proudly 100% black female-owned, Level 1 BBBEE company with operations in KwaZulu-Natal and Gauteng. Backed by over 60 years of combined industry expertise, we specialize in steel sourcing, technical advisory, and project management services. Our team is passionate about delivering innovative solutions for industries requiring steel or steel-related products, all while fostering a sustainable and inclusive future for South Africa.

Our Core Values

innovation,
respect, integrity,
transparency,
customer focus,
collaboration,
social
responsibility,
inclusion and
accountability

Our core values define who we are
and guide everything we do.

What We Do

At SA Steel Masters, we offer a comprehensive range of services and products tailored to meet the diverse needs of our clients:

STEEL SOURCING:

Leveraging local and international supply chain networks, we provide steel products that meet the highest standards of quality and performance.

TECHNICAL ADVICE:

Our experienced team delivers expert guidance to help you choose the right solutions for your critical applications.

PROJECT MANAGEMENT:

We streamline and optimize supply chain challenges, ensuring smooth project execution and business growth.

From downgraded steel parcels to specialized steel for high-precision applications, we cater to the most stringent quality and tolerance requirements, making us a trusted partner in the steel industry.

Our Mission

We are dedicated to driving positive contributions to the South African economy and empowering future generations. Our mission is to offer expert, high-quality products and services while addressing your unique business challenges. By streamlining supply chains and providing reliable solutions, we aim to elevate your business to the next level.

Our Vision

To become a trusted leader in the steel and project management industry, recognized for our innovation, customer-centric approach, and unwavering commitment to excellence. We strive to create lasting partnerships, promote sustainability, and leave a meaningful legacy for South Africa's future.

Industries and Products We Cater To

SA Steel Masters (Pty) Ltd proudly serves a diverse range of industries, providing high-quality steel products tailored to specific needs. Below are just a few examples of the sectors and product types we support:

CONSTRUCTION AND INFRASTRUCTURE:

Reinforcing bars, structural steel, beams and columns.

MANUFACTURING AND ENGINEERING:

Steel plates, sheets, and coils for machinery and fabrication.

MINING AND ENERGY:

Durable steel solutions for mining operations and energy applications.

AGRICULTURE:

Steel products for agricultural equipment and storage solutions.

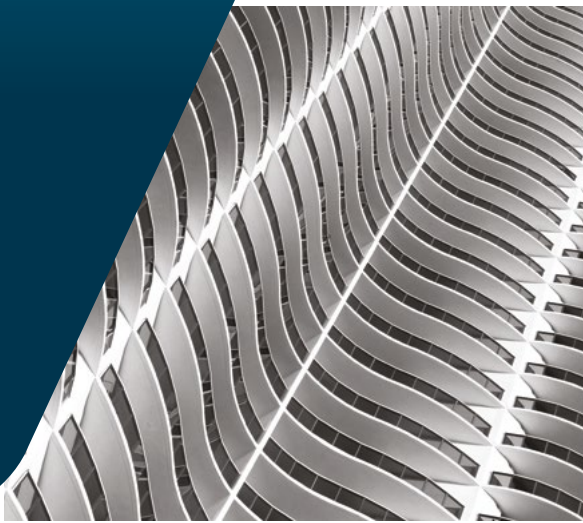

SPECIALISED APPLICATIONS:

Precision steel for critical use cases requiring stringent quality and tolerance standards.

Whether for large-scale industrial projects or unique applications, our extensive inventory and technical expertise ensure that we deliver solutions that exceed expectations.

Your One-Stop Solution for All Your Project Needs

At SA Steel Masters, we combine high-quality products with a comprehensive range of value-added services to meet your unique project needs. Our goal is to simplify your processes and ensure a seamless experience, making us the go-to partner for all your requirements.

Our services include coil cut-to-length, slitting, and in-line blanking, ensuring precise materials tailored to your specifications. We also provide plate cut-to-size using advanced HD plasma and laser technology, along with plate rolling, bending, and profile cutting for specialized applications.

For structural projects, we excel in light, medium, and heavy structural cutting, as well as the fabrication of steel structures and tanks. Additional services such as guillotine cutting, steel section cutting, punching, slotting, and drilling are also available to meet diverse project demands.

We offer specialized services like chamfering/bevelling, cropping, and peeling to prepare materials with the utmost precision. Our roofing products and lipped channels, including punching and drilling options, ensure comprehensive solutions for construction and industrial projects.
