HHW is a drive thru facility. Please remain in your vehicle until approached by an employee.

All chemicals brought to the facility must be packaged in either the original container, or a leak free container with a lid.
For your safety and the safety of our staff please DO NOT combine chemicals.

Items should be labeled if possible.

Transport items in the bed of a truck or car trunk. If items are transported inside of the vehicle, ensure proper ventilation for items with fumes.

The facility has a 300lbs limit per vehicle per day.
