#### **1: Membership Subscription rates for 2026/27 season**

The committee have carefully considered the subscription rates and structure for the coming year and propose to retain these rates for all categories at the same levels as the previous two years with no planned increases at all.

We do however propose to raise the age limit of the Youth category to 18 and introduce a new Young Adult category from 25 to 30, which we hope will attract younger members to join the club with these more attractive lower rate bands. This is in line with other local clubs and will help keep us competitive when looking at new membership drives.

Our continued financial stability and substantial reserves were key reasons for these decisions, as well as considering the future investment plans of the club.
