## General description

Embley is a school for the 21st Century that has recently been accredited by HMC. It is in the top 1% of schools nationally at A Level.

Embley is an academically selective school which is purposefully suited to the challenges of the modern world – the deliberate purposeful formation of young people is our aim, helping them become the best versions of themselves. Our core values of ambition, belief and compassion, underpin all that we do.

### Ambition

Embley dares to want more for its children. The world is challenging and changing and our task is to ensure that every young person leaves Embley with the tools to make progress a reality.

### Belief

We are humble and hungry: humble enough to pause and reflect, hungry enough to act ambitiously to make a difference, while having an appropriate and authentic sense of self.

### Compassion

We are a community that cares. The world needs more compassion at its heart, and that begins at schools like ours where we help children appreciate that the world does not stop at the end of our own experiences; where they don't think less of themselves but think of themselves less.
