

Projected Savings for People with Medicare Part D Coverage:

When the negotiated prices go into effect in 2026, people enrolled in Medicare prescription drug coverage would save under the projected defined standard benefit design an estimated \$1.5 billion. These savings from the Negotiation Program are in addition to savings from other cost saving provisions in the Inflation Reduction Act, such as the first ever cap on out-of-pocket drug costs for people with Medicare.

Note: Numbers other than prices are rounded to the nearest thousands. List prices are rounded to the nearest dollar and represent the Wholesale Acquisition Costs (WACs) for the selected drugs based on 30-day supply using CY 2022 prescription fills. Drug companies' participation in the Negotiation Program is voluntary; the figures above represent estimates based on continued drug company participation in the Medicare program.
