

Excellence in Hematology and Personalized Patient Care

Personalized. Responsive. Expert Care.

For Internal Medicine Physicians, PCPs, and Hospitalists:
Your trusted partner in hematology care.

When your patients need hematologic expertise — whether for a new diagnosis, post-discharge follow-up, or second opinions — Brodsky Hematology is ready to step in with personalized, responsive care.

- Rapid Post-Discharge Follow-Up
- Fast outpatient appointments for patients discharged with hematologic concerns.
- Second Opinions & Long-Term Management
- A fresh perspective and ongoing care for blood disorders, hematologic cancers, and anticoagulation needs.
- Anticoagulation Management
- Comprehensive management of DOACs, warfarin, and other therapies.

Coming Soon: Iron Infusion Therapy

- Convenient in-office IV iron treatments for patients with iron deficiency anemia.

Partner with Brodsky Hematology to ensure your patients receive seamless, responsive care — when and where they need it most.

For Patients: Your health deserves specialized care — ask your doctor about a referral to Brodsky Hematology.

If you've been told you have issues with your blood — such as anemia, clotting, or abnormal labs — Brodsky Hematology can help.

We specialize in:

- Evaluating abnormal blood counts
- Managing blood clots and bleeding disorders
- Helping after a hospital stay
- Providing second opinions for peace of mind
- Monitoring and adjusting blood thinners safely
- Soon: Treating iron deficiency anemia with IV infusions right in our office

At Brodsky Hematology, you're not just a case — you're a person. We listen, we explain things clearly, and we partner with you for better health.

Ready for answers? Ask your doctor to refer you to Brodsky Hematology.
