Tilt & turn Juliet balcony

More glass, less frame

More light, slimmer frames: with **MACO Multi Matic (IQ)**, attractive and secure Juliet balconies can be constructed from PVC, aluminium and timber. Our hardware is concealed yet still supports a load capacity of up to 180 kg, even when used with slimmer and thus more elegant frames. The secure tilt ventilation also allows for draught-free room ventilation with increased burglary protection.

Benefits for fabricators

01 Concealed heavyweight hinges

Up to 180kg per sash: Allows for the use of large acoustic glass.

02 For all material types

Your choice: MACO Juliet Balcony doors can be manufactured in Aluminium, Timber and PVCu.

03 First-class quality

For maximum service life: From the hardware to the look and feel, everything has been developed and manufactured with the utmost care.

Benefits for consumers

01 Modern elegant design

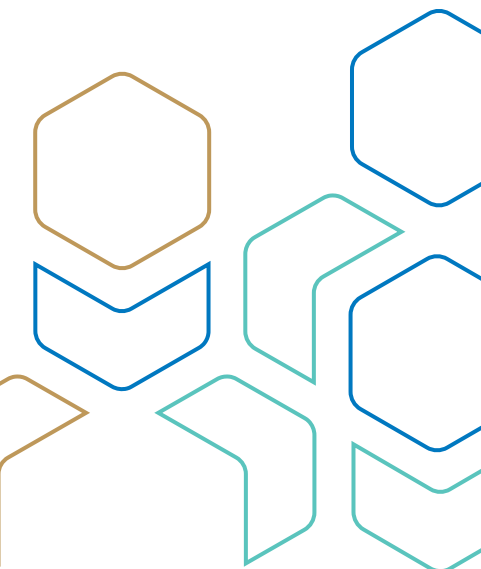

Narrow sightlines and hidden hinges: For a better looking home.

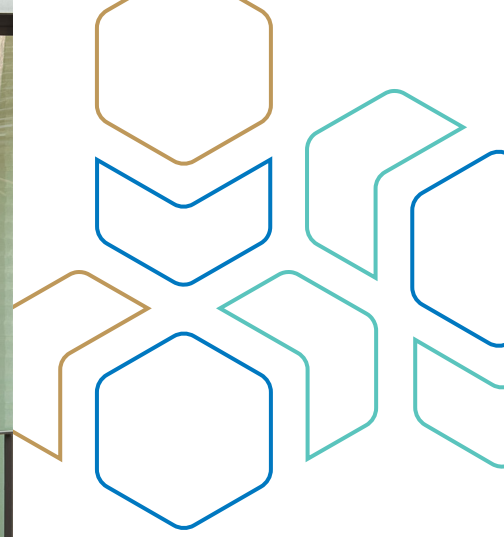

02 Elegant handles

Handle free outside: Further enhance the minimalistic look and feel.

03 Thermally efficient design

Full perimeter locking: Ensures high performing thermal capabilities.

Special properties

What you can expect from us

Tilt function

Safe and secure tilt ventilation enables safe, secure and draft free ventilation.

Full perimeter locking

Giving complete peace of mind security and draft free living.

90 degree opening of both sashes:

Keeping in design with more traditional systems, both doors can be fully opened.

TECHNOLOGY IN MOTION
