

Planet F120 click threshold

thermally separated | 120 x 2,5 mm

Overview of Advantages

- Thermally separated flat threshold
- Extremely flat, ideal for new builds (also possible for renovation)
- Floor recess only 5 mm
- Robust and traversable
- Simple click system
- Optimal transition between inside and outside
- For screwing or gluing
- Invisible screw connection
- Optimised for use with Planet drop-down seals, freely positionable sealing surface
- In combination with Planet X3, guaranteed driving rain proof

Incl. accessories

Planet assembly set for Planet F click thresholds (F120, F130, F140)

Tender specification

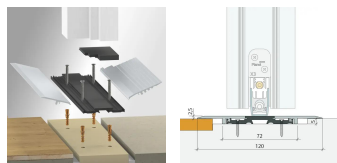

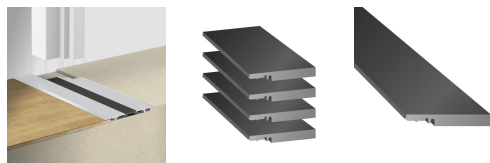

Thermally separated, modular Planet F120 Click threshold, suitable for barrier-free transitions. Optimal connecting link between inside and outside, with invisible screw connection, for only 5 mm floor recess. Colourless anodized EV1 (aluminium). Aluminium profiles can be subsequently replaced, optimised for use with drop-down seals.

Technical data

Height	2.5 mm (threshold height)
Floor recess	5 mm
Thermal separation	yes
Fastening	Screws or glue
Can be shortened	yes
Profile size	120 mm wide
Profile material	Aluminium, plastic
Surface	silver anodised EV1

Variants that can be ordered

Order number	Product name	Order placement information
254119	Planet F120 click threshold, 1190 mm	
254600	Planet F120 click threshold,	per running meter
