

# Planet F140 click threshold

thermally separated | 140 x 7,5 mm

## Overview of Advantages

- Thermally separated flat threshold
- Simple click system
- Optimal transition between inside and outside
- For renovations and new construction
- Attached, ideal for renovation
- No floor recess required
- Barrier free due to reduced height
- Robust and traversable
- For screwing or gluing
- Invisible screw connection
- Optimised for use with Planet drop-down seals, freely positionable sealing surface
- In combination with Planet X3, guaranteed driving rain proof

## Incl. accessories

Planet assembly set for Planet F click thresholds (F120, F130, F140)

## Tender specification

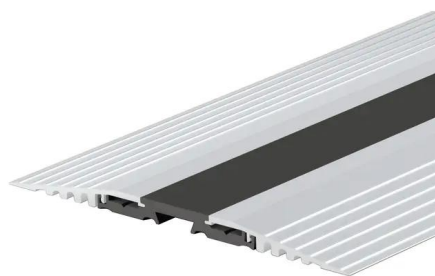

Thermally separated, modular Planet F140 Click threshold, suitable for barrier-free transitions. Optimal connecting link between inside and outside, with invisible screw connection, suitable for construction situations without floor strike, thus best for renovations. Colourless anodized EV1 (aluminium). Aluminium profiles can be subsequently replaced, optimised for use with drop-down seals.

## Technical data

Height	7.5 mm (threshold height)
Floor recess	Not necessary
Thermal separation	yes
Fastening	Screws or glue
Can be shortened	yes
Profile size	140 mm wide
Profile material	Aluminium, plastic
Surface	silver anodised EV1

## Variants that can be ordered

Order number	Product name	Order placement information
252119	Planet F140 click threshold, 1190 mm	
252600	Planet F140 click threshold,	per running meter
