PREPRESS

Dear Customers,

Because we want to offer our customers continually the best quality, it is necessary that we can adapt the files in order to add specifications related to the press. (PDF is our preference) Therefore we would like to ask you to always make your files with the following programs and to deliver these original files.

Technical requirements:

- Always deliver files made in Photoshop with high resolution (300dpi, 1/1), if possible with Layers. Never use continuous text in Photoshop. (only head lines)
- The used fonts have to be delivered, unless they are defined by vectors.
- Lay-out files have to be delivered full-sized (100%).
- Do not deliver files that are not relevant.
- Please add an info-box with the used colors and the correct size.
- A print or sample as colormodel can be usefull.
- Bleed: 2mm
- Minimum corps: 5 pt
- Minimum line thickness: 0,1mm
- Indicate the die cut line.

Available Lay-out programs:

- Adobe Illustrator CC
- Adobe InDesign CC
- Packz
- ArtPro

Available image program:

- Adobe Photoshop CC

Available drives:

- CD, DVD, USB

Do not hesitate to contact us by any questions or doubts.
We are always at your service.

Kind regards,
Conti-Label Pauwels nv
