Risk Management

Cricket Australia National Club Risk Protection Programme

"If you don't attack risks, risks will attack you"

Risk Management is one of the most important things you do everyday. Wearing a seatbelt, doing your tax or checking the grounds before a game are all forms of risk management.

All clubs must take risks. Risk management is about deciding which risks to take and how to manage their outcomes.

Good risk management means quality assurance for your players, coaches, spectators and volunteers.

RISK MANAGEMENT HEALTH CHECK:				
		1 Point	2 Points	3 Points
Is your club proactive in regard to risk management (RM)?		☐ No	☐ Not s	rure
Has your club appointed someone to oversee risk management?		□ No	☐ Not s	ture
Does your club complete JLT Sport's Game Day Checklist prior to each and every game?		□ No	☐ Not s	sure
Have you checked out JLT Sport's Online Risk Management Education tool?		□ No	☐ Not s	sure
How healthy is your club in regard to risk management – see below for your results				
If you scored 4-6 Points	If you scored 7-9 Points:			If you scored 10-12 Points:
Urgent attention to RM is required	nt attention to RM is required Seek further assistance and/or information		ormation	You're on your way to being a quality club.

"Managing risk does not mean avoiding risk."

Risk Management helps you to **identify, prioritise and address**

risks that will affect your club's future.

Most people associate risk with negative or dangerous situations. But risks can be both **positive and negative**.

Risk Management is an **ongoing process.**

It shouldn't be a "task" that starts and ends.

In most cases, risks are **obvious, foreseeable and real** that will have an effect on your club's future.

Example categories of risk:

Safety of people

Financial risks

Legal and statutory compliance

Image and reputation

Safety of property and facilities

Risk Management should be EASY

Keep it simple

Identify REAL risks

Communicate openly and often

Involve others in the process

Be PROACTIVE – Not REACTIVE
