

All life is precious.

The mission of the Rochester Presbyterian Home is to provide a loving home for Elders where they are honored and cared for as family and inspired to live life to its fullest. This has been our mission since 1925!

Our founders, Helen Niven and Mary Dunn, raised \$125,000 for the construction of Rochester Presbyterian Home. Through the years the generosity of faithful donors has enabled this mission of caring to expand and thrive.

Today we operate at three locations and serve 210 Elders. As our founders intended, we continue to care for our community's most vulnerable elderly including those with dementia and those with limited financial resources.

- More than two-thirds of our Elders suffer from Alzheimer's Disease or other dementias. They receive dignified care and are accepted and loved as part of our family.
- Up to forty percent of our Elders receive financial assistance. Elders remain in our care, even after their financial resources are depleted. Annually RPH subsidizes nearly \$1 million to help these Elders live life to its fullest.
- Upgrades to the RPH facilities cost more than \$500,000 each year. This capital support allows RPH to keep pace through outstanding programs and staff while honoring the character of older buildings.

Your contributions help assure our commitment to this mission continues each day. Gifts to the RPH Foundation provide a base of support for critical renovations and subsidies for low-income Elders for years to come.

Thank you for joining in with your financial commitment and together we will honor our Elders.

Sincerely,

Anne Gallese, Chief Executive Officer
