Overview

The mission of Veranova Health is to provide state-of-the-art healthcare to women and families, specializing in obstetrics, gynecology, infertility, nutrition, and adolescent health, through evidence-based medicine. We provide services through an OB/Gyn, nurse practitioners, and a DPT pelvic floor specialist in a comprehensive care model that honors the unique beauty of every person by promoting dignity and life. Our goal is to provide the healthiest options for achieving wellness by caring for the mind, body and soul, and promoting restorative and functional fertility care in the medical profession.

To ensure that this level of care is accessible to patients regardless of ability to pay, our business is organized as a nonprofit enterprise. We solicit funds to assist us in our work so that families from the entire community can have access to our care.

We are a pro-life practice with a vision to nurture, restore, and protect the natural functions of the human person. Within this vision we promote and utilize training in natural methods of fertility awareness and family planning such as sympto-thermal, Creighton, Billings, FEMM, and Marquette. Our care model will not comprise services harmful to women and their families, including prescribing artificial contraceptives, placing IUD's, performing sterilization procedures, referring for in-vitro fertilization (IVF) or intrauterine insemination (IUI), or referring for or participating in elective pregnancy termination under any circumstance. Women can be hurt by or suffer significant side effects from these services; our care model gives them better options, which they deserve.

The day includes 2 keynote addresses, breakout sessions given by Dr. Matt Jordan and his wife Jen, Tim and Mary Ellen Jakubisin from Veranova Health, Luke Brown - founder of Sacred Heart Counselling, Brian and Maria Dean. Fr. Patrick Schultz will be the main presider at Mass. The day also includes confessions, adoration, cocktail hour and candlelight dinner. Click [here](#) to register.'

Breakout Session:

VERANOVA HEALTH

Why healthcare founded in faith is essential to Catholic family life in Cleveland.

TIM AND MARY ELLEN JAKUBISIN

Tim Jakubisin first got a glimpse of the Catholic Church's teaching on sexuality while a senior in high school when he was assigned to read *Humanae Vitae*. He thought it made sense and he was ready to use natural family planning if he ever got married. Fast forward five years to when Tim first saw Mary Ellen. He was immediately smitten. On one of their first dates, they discussed Church teachings. Mary Ellen had heard favorable things about contraception in her Catholic high school but was open to taking a class on natural family planning. A few years later they signed up to become NFP instructors. They enjoyed teaching couples about marriage and how NFP can help a couple grow closer together, grow in their love of God, and protect them from many dangers.

Their journey intensified in 2006 when they were asked to become northeast Ohio Chapter Coordinators for the Couple to Couple League. They began looking for ways

to help couples not only as they prepared for marriage but all through their married life. Together with other NFP instructors they formed Northeast Ohio NFP to support NFP instruction and married life. In 2018 they formed Fresnel Shores Foundation to promote natural family planning instruction, provide grants to medical personnel for training in women's fertility, and to support the creation of medical clinics that would provide women and family care in accordance with Catholic teaching. In 2019, with the help of a vibrant team of supporters and backers, they formed Veranova Health, a medical practice that provides women and family care in accordance with Catholic teachings.

Besides Tim's involvement in promoting natural family planning, Tim is employed as CFO of an international medical company, is a past board member of AM 1260, and is currently serving on the Board of Directors of St. Mary Seminary. Mary Ellen has been a team builder for a women's faith formation organization, led parenting groups, volunteered for various organizations, and served on the Board of Directors of Welcome House.

Tim and Mary Ellen are members of St. Angela Merici parish in Fairview Park. Their family is still growing! They have six grown children, eleven grandchildren and love life!

MATTHEW AND ANNIE MULLER

Matthew and Annie Muller will be joining Tim and Mary Ellen for this breakout to share their experience with Veranova Health. Matthew & Annie are cradle Catholics that have been married for 13 years and homeschool their 5 children. The Mullers live in Willoughby and are active in the community at St Vitus parish in Cleveland. Matthew is a Certified Anesthesiologist Assistant at University Hospitals and serves on the board of Veranova Health.

why we're different

Veranova Health is a life-affirming medical practice dedicated to nurturing, restoring, and protecting the natural functions of patients and their families.

restorative reproductive medicine

Our staff utilizes [restorative reproductive medical management](#) that is unique, effective, evidence-based, and works in cooperation with the body. At Veranova Health, we understand that your reproductive health is an integral part of who you are. We work with you to identify and treat the root cause of your symptoms or condition – so you and your family can remain healthy, happy, and thriving in the world.

Restorative reproductive medicine relies on FABMs (Fertility Awareness Based Methods of charting the cycle) to help identify irregularities in hormone levels and other reproductive functions that may indicate a problem requiring medical treatment. The treatment will depend on your diagnosis and may include bio-identical hormone supplements.

fertility awareness and natural family planning methods

Veranova Health offers cycle education programs. These include cycle charting for health monitoring and for family planning. The [fertility awareness-based family planning](#) methods offered are the Creighton Model FertilityCare™ System (CrMS), FEMM, Marquette, and the Sympto-Thermal Method (STM). By avoiding the introduction of unnecessary artificial hormones into your body, we help you manage your procreative potential in the healthiest way possible. See [Upcoming Classes](#).

Our care model does not include services harmful to women and their families, such as prescribing contraceptives, placing IUDs, performing sterilization procedures, referrals for in vitro fertilization (IVF) or pregnancy termination (abortion). Women suffer significant side effects as a result of these services. So, it is our goal to provide you with better, healthier options at Veranova Health.

OUR MISSION

Our mission is to light the way for women and families to find true health and wellness in body, mind, and spirit. Accordingly, our name and icon reflect this mission. Veranova was derived from two roots - vera, meaning true, and nova meaning new. Nova is also used in astronomy for a newly bright star. At Veranova, our staff seeks to honor the truth, and partake in making all things new.

Consequently, we seek to:

- Honor the unique beauty in every person by promoting dignity and life
- Provide the healthiest options for achieving wellness by caring for the mind, body, and soul
- Serve as a resource to the community for women's and family health education
- Promote restorative and functional fertility care
- Maintain exemplary customer service and a program for charitable support
- Deliver services in accordance with the Ethical and Religious Directives for Catholic Health Care Services (ERDs) issued by the USCCB

inspired by faith

At Veranova Health, one of our aims is to comply with the guidelines and standards set by Pro Women's Healthcare Centers (PWHC). While Veranova Health is not directly affiliated with the Catholic church, we intend to practice medicine in conformance with the ERDs. These guidelines are issued by the United States Conference of Catholic Bishops (USCCB). The guidelines invigorate us to find the best long-term solution for each individual client.

We are glad you found us! The entire team at Veranova Health invites you and your family to come in and get the personalized, holistic medical care you just can't get elsewhere. Call us in northeast Ohio at **(440) 732-2173** or [request an appointment](#) now. We look forward to seeing you soon!

our healthcare approach

We provide comprehensive care to create an outstanding approach to women's healthcare and family medicine which is welcoming, family focused, life-affirming and empowering.

WE ARE WELCOMING

At Veranova Health, we want every person who walks through our doors to know that we are honored to serve them, regardless of who they are, where they come from, or their ability to pay. Consequently, our goal is to work with all-major insurance companies to help patients access the care they need. We will also work with those patients who don't have traditional insurance to find appropriate solutions for them.

we are family-focused

Good health is a family matter. So, at Veranova, we are dedicated to serving the individuals and families that make up our community. And we believe it is important that each member of the family receive the preventative care and medical treatments they need. So, our family practice providers are extensively experienced to care for everyone who walks through our doors.

we are life-affirming

Our women's healthcare and family practice is built upon the foundation that life has inherent dignity and value, beginning at conception. We support our patients at every stage of development and aim to help them thrive and experience the fullness and vitality life has to offer. Are you hoping to have a child and have not conceived yet? We are here to help.

we empower through education

At Veranova, we take our responsibility to educate patients seriously. We aim to empower our patients with the information they need to actively participate and self-advocate in their own treatment plans.

Our Constellation of Support is generous "Luminaries" who commit to supporting our life-affirming work with a monthly gift.

Why become a Luminary in our Constellation of Support?

- ✦ It's foundational support.
- ✦ It's budget-friendly.
- ✦ It's a movement.
- ✦ It comes with a gift. A stylish V-star car magnet!

how does the support get used?

Constellation of Support income is crucial for Veranova Health to develop long-term, transformative initiatives over the next several years. The sustained partnership of our Luminaries enables Veranova Health to positively impact reproductive healthcare. As a nonprofit healthcare startup, Veranova Health has critical needs during these first few years:

- **We need to get the word out about Veranova Health** - by sharpening our online and social media presence, with SEO, advertising and marketing tools.
- **We need to make our care accessible to everyone** by providing financial assistance for those with insufficient insurance.
- **We need to become a sustainable, self-supporting medical practice.** Most startup practices take time to break even, even taking out loans, but a nonprofit needs support from donors until the revenues can cover our costs.
