November 4: Load In Day

November 5 – 6: Expo Days

9 AM – 1 PM

Boeing Center at Port San Antonio

3331 General Hudnell Dr, San Antonio, TX 78226

15th CORE4 STEM Program + Expo

About the CORE4 STEM Program

This transformative two-day event welcomes thousands of 7th and 8th grade students from five inner-city school districts, providing them with a hands-on introduction to the possibilities within STEM (Science, Technology, Engineering, and Mathematics).

CORE4 STEM is designed to spark curiosity and ignite ambition to educational and professional pathways in STEM fields. Through engaging workshops, real-world demonstrations, and interactive sessions led by industry experts, students experience firsthand how STEM can shape their futures and empower their communities.

This program is a cornerstone of the Chamber's broader mission to build a more innovative and economically vibrant San Antonio by investing in our future leaders and ensuring every student, regardless of background, has access to opportunity and inspiration.

Why Sponsor CORE4?

Sponsoring CORE4 is more than a branding opportunity, it's a chance to make a measurable impact on the next generation of innovators, problem-solvers, and changemakers.

Your support will:

- Directly connect your organization with thousands of bright and motivated students
- Position your brand as a community champion and STEM advocate
- Offer a platform to showcase your company's innovations and workforce pathways
- Support educational equity and help cultivate a diverse pipeline of future talent

Sponsors also benefit from high-visibility recognition across media, digital channels, and print materials, as well as the opportunity to lead hands-on STEM sessions that leave a lasting impression.

Program Impact: 2024 Survey Highlights

Insights below are based on data collected through the 2024 CORE4 Student Survey:

- **90%** of students reported learning new, useful information they could apply immediately
- **70%** of students said the event motivated them to pursue a career in STEM
- **78%** of students said they now understand the benefits of a STEM career better.
- **62%** of students said they are now more interested in a STEM career after attending CORE4
- **44%** of students are now more likely to choose a STEM endorsement in high school
- **69%** of students are either very or somewhat interested in attending a STEM-focused high school
- **72%** of students believe they are capable of achieving a college degree or higher
- **30%** of students will be first-generation college students

Students consistently described CORE4 as eye-opening, exciting, and encouraging, with many saying it was their first time connecting what they learn in school with real-world career possibilities.
