

White Bluff VFD Chief's Report Feb 2026

Calls for Service:

Medical	6
Fires Grass	6
Fire Structure	1
Lift Assist	1
Odor Investigations	1

Total-----15

Two more grants from the Forest Service were received by this department. The first is for Personal Protective Equipment, \$25,000, and the second is for Training Equipment, \$10,000. We are in the process of purchasing equipment made available by these grants. We are continuing to fulfill the three previous grants.

The department received Attack 331 back from the shop that completed the conversion, then we replace all the tires on the truck. The truck was used on a grass fire at the Steiner Valley Ranch almost immediately and proved the conversion to a small tanker was the right move.
