Multi-step Process

The manufacturing and finishing process used with these urns emphasizes the natural grain of the wood. These urns have a unique surface—irregular, weather-worn, yet still smooth. Oak urns do not have knots. Knotty Pine urns usually do.

Note: Weathered urns can be laser-engraved but not photo printed.

Carved Urns

Made in the U.S.A

3-D Carved Urns in the **Rushford**, **Traditional Vertical**, **Chatfield** and **Legacy** styles are now available with your choice of over 100 carving designs.

3-D Carved Urns are built when you order them, so please allow a couple of days for that.

Weathered Pine is our newest wood species, and has been very popular. It has lots of color variation, and even some knots, so there are never two urns alike.

Laser engraved personalization, if desired, is available on **Rushford**, **Legacy**, **Chatfield** and **Traditional Vertical Carved Urns** for an additional charge.

Personalized printed urns

Full-color personalization is now available on many of our urns with our new full-color printer. Most hardwood and cultured marble urns may be personalized, and many brass or aluminum urns as well.

Urn Personalization

These are some of the typestyles we have available for hardwood and metal urn personalization. Typeface no. 9 below is our standard choice for engraving on metal urns. Typeface no. 11 below is our standard choice for laser engraving hardwood urns.

VICTORY URNS

Handcrafted in the U.S.A. at Mark Thomas

Victory urns are in a class by themselves. Each one is hand-thrown in the Mark Thomas+Chapel Craft studio and hand-decorated by our master potter, Hannah. You are welcome to stop by for a tour.

Glue is provided to seal them permanently. These urns are also suitable for use as a scattering urn.

Victory urns are approximately 200 cubic inches in size. Because each urn is handmade, the dimensions and exact appearance vary somewhat from piece to piece. Your satisfaction is guaranteed, however.

Personalized metal urn engraving

With our diamond bit engraving machine and laser engraver, you can now get your metal engraved urns from one source.

Angelo Granite urn (RM2711L), with custom engraving

Not every metal urn can be directly engraved in a satisfactory manner. Some have intricate designs that make engraving impossible. Others are made of materials that don't engrave well. For these we have developed other solutions, like engraved plates, pendants and display bases.

Engraved Pendants

Engraved pendants are available in two colors: pewter and gold. Both come with a presentation box and a matching ribbon for hanging it on the urn.
