

*Welcome to summer, and the update on the final phase of our Capital Campaign—the Church Refresh Project.*

*We are pleased to report that construction is well underway. After months of planning, preparation, and a few unexpected delays, the transformation of our church is finally taking shape. If all continues according to schedule, we anticipate completing the project early in August.*

*Work in the sanctuary is progressing nicely, including the construction of the new altar area. Installation of the new carpet and pews will follow as the project moves into its final stages. Each week brings us closer to the beautiful, refreshed worship space that so many parishioners have helped make possible through their generosity and faithful fulfillment of their campaign pledges.*

*We have successfully transitioned our weekend Masses to the school gymnasium. Weekday Masses and parish events have also been relocated to alternate locations, including Marist Hall, the Adult Education Room, and the Chapel of Peace (as space permits), or rescheduled as needed.*

*Please refer to the parish calendar if you have any questions regarding the location or timing of a Mass, meeting, or event. [PARISH CALENDAR](#)*

*We are deeply grateful for your continued support, generosity, and especially your patience during this renovation period. The improvements taking shape are a direct result of your commitment to our parish and our shared vision for its future.*

*Please continue to keep this project in your prayers, that it may deepen our reverence, strengthen our parish family, and provide a beautiful and welcoming place of worship for generations to come.*
