VOLUNTEER MENTORING PROGRAM APPLICATION

Dear Prospective Mentor,

Thank you for your interest in volunteering with the Boys & Girls Clubs of Greater Anaheim-Cypress Mentoring Program.

The goal of our mentoring program is to pair the members who need us most with supportive, caring adult mentors to help them become strong, successful leaders. Time spent with your mentee will provide the opportunity for you to develop a positive relationship and act as a role model.

Please write a brief statement about why you wish to be a mentor in the Boys & Girls Clubs of Greater Anaheim-Cypress Mentoring Program:

VOLUNTEER MENTOR RELEASE STATEMENT

I, the undersigned, hereby state that if accepted as a mentor, I agree to abide by the rules and regulations of the Mentoring Program at the Boys & Girls Club (hereafter known as the "Club"). I understand that the program involves spending a minimum of one hour per week at the Club. I am not allowed to take the youth off the Club grounds. Further, I understand that I will attend a training session, keep in regular contact with my mentee and communicate with staff regularly during this period. I am willing to commit to one year in the program and then may be asked to renew for another year.

I understand that the Club staff reserves the right to terminate a mentor from the program. The program takes place only at the Club and does not encourage or approve of relationships established between mentor/mentee and family members beyond the organized and supervised activities of the program. I give permission for program staff to conduct a criminal background check as part of the screening for entrance into the program. This includes verification of personal and employment references as well as a criminal check with the authorities. Program staff has final right of acceptance of applicant into the program and reserves the right to terminate a mentor from the program at any time.

I have read this Release Statement and agree to the contents. I certify that all statements in this application are true and accurate.
