

Superior General Purpose Salt

Description

Superior General Purpose Salt is a food grade, cubic crystalline Sodium Chloride of variable particle size distribution. This salt is obtained from underground salt deposits by deep well solution mining. Subsequent evaporation of this brine by the vacuum pan system, under stringent process control, provides the highest purity and minimal insoluble extraneous matter for salt which contains no additives.

Applications

Superior General Purpose Salt is recommended for use in a variety of food processing applications, including baking, canning, pickling, seasonings and prepared mixes. Superior General Purpose Salt can also be used in non-food applications such as a carrier or as chemical and bulking agents in many household and personal care products.

Approved Use

Superior General Purpose Salt is generally recognized as safe (GRAS) for use in foods and meets Food Chemicals Codex standards for Sodium Chloride. It is acceptable for direct use in meat products under USDA/ MIS standards and is annually kosher certified as OUP for Passover and the year round.

Storage/Stability

General Purpose Salt is chemically stable indefinitely and does not support microbial growth. To retard caking, it should be stored in a dry, covered area at relative humidities below 75%. Cycling salt through the 75% relative humidity zone will rapidly increase the onset of caking. Shelf life is indicative of caking resistance only.

CAS Number: 7647-14-5

EC Number: 231-598-3

Product Data

(1)Analytical methods available on request. (2)Based on +/- 2 standard deviations (3)By difference of impurities, moisture free basis. (4)Water soluble (5)From date of manufacture, at storage below 75% relative humidity, as caking resistance.

Availability

Superior General Purpose Salt is available in multiwall, kraft paper bags as well as one-way Flexible Intermediate Bulk Container bags and bulk.

| Size | Code |
|--------|---------|
| 50 lb. | 500030 |
| 80 lb. | 800040 |
| FIBC | 9000xx |
| Bulk | 9900102 |

Technical Information
