

ANEMONE FRIENDSHIPS

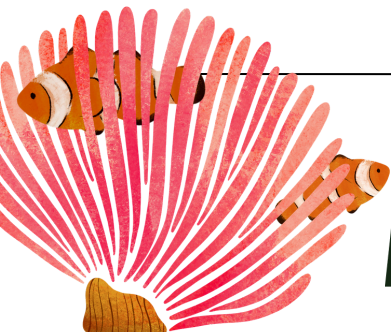

Sea anemones and microscopic algae have a **mutualistic relationship**. They both benefit from their interactions. It is like they are best friends! They love to be together.

In this challenge, you will write about their friendship from both perspectives. Follow the prompts on pages 1 and 2 to guide your writing. Draw and color a sea anemone on page 3. Include another animal that interacts with sea anemones.

From the perspective of a SEA ANEMONE.

Paragraph #1: Describe your algae friends. What do they look like? Where do they live?

Paragraph #2: Describe why you like to have your algae friends around. How do they make your life better?

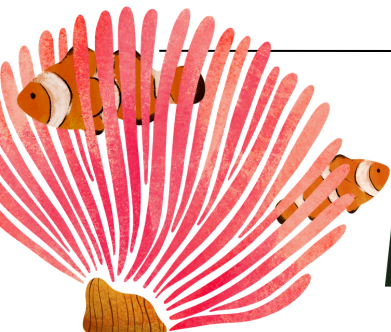

ANEMONE FRIENDSHIPS

From the perspective of the ALGAE.

Paragraph #3: Describe your sea anemone friend. How does it look? How does it act?

Paragraph #4: Describe why you like to be around your sea anemone friend. How does it make your life better?

ANEMONE FRIENDSHIPS

Draw and color your sea anemone. Include another animal that sea anemones interact with.
