

Avem Quirks' own brand of glass door merchandiser refrigerator and freezer solutions are designed with ease, affordability and reliability in mind.

When storing chilled produce or products that are worth thousands of dollars, Avem Quirks units ensure consistent temperatures, especially in Retail and Catering environments where doors are constantly being opened and closed. In most cases, our fridges are tropical rated, meaning that they will excel in ambient conditions of up to 43°C.

With powerful compressors, high output fans, double-glazed doors and LED lighting, the Avem Quirks range is not only economical, but fit for purpose and designed to last.

We have a range of options to suit a wide variety of retail display requirements and a selection of optional components and shelving. Please speak to your sales representative to discuss your needs.
