

Emery County School District
District Office Announcement
Date: 10-24-2025

Notice to Parents and Guardians: Delay in Release of State and District School Report Cards

Emery County School District would like to inform parents, guardians, and community members that the Utah State Board of Education (USBE) has announced a delay in the public release of State and District School Report Cards for the 2024–2025 school year.

The Utah School Report Card provides important information about each school's performance, including academic achievement, growth, and other accountability measures. The delay is due to statewide data verification and quality review processes conducted by the Utah State Board of Education to ensure all information is accurate and complete prior to publication.

What This Means

- Report cards will be released on the USBE Data Gateway once the verification process is complete.
- Parents and community members will be able to view school and district performance data at: <https://emeryschools.org> under the Community tab.

Emery County School District supports the State Board's efforts to ensure accurate and transparent reporting. We remain committed to using data to support continuous improvement in teaching and learning across all schools.

We appreciate your patience and understanding during this delay. If you have any questions about school performance, please contact your child's principal or the district office.
