Start with WRIGHTSOCK.³ *Finish with **NO BLISTERS.***

**Blending Performance
and Sustainability.**

Inner Layer

The inner layer is a smooth, undyed, hydrophobic surface against the foot.

Outer Layer

The outer layer is constructed of fibers specific to the activity.

DOUBLE LAYER

The Double Layer Difference! 2 Sock Performance, 1 Sock Feel!

WRIGHTSOCK® Double Layer construction coupled with the most technically advanced fibers, delivers the blister protection that you need. WRIGHTSOCK® Double Layer provides year round comfort and performance with no blisters- guaranteed.

- The outer layer is constructed of fibers specific to the activity.
- The inner layer is always a smooth, undyed, hydrophobic surface against the foot.
- Friction and shearing forces, created by rigorous activity, are absorbed by the interaction between the inner and outer layers of the sock instead of being passed on to the outer layers of the skin. The result is less blistering.

Anti-Blister System™ They Say It... We Proved It.

Moisture Management:

Inner layer wicks moisture off the skin. The Result... your feet stay dry.

Temperature Regulation:

Staying dry means staying cooler in the summer and warmer in the winter. The Result... your feet are more comfortable.

Friction Reduction:

Interaction between the inner and outer sock layers absorbs friction that is normally transferred to the skin. The Result... skin shear is eliminated.

WRIGHTSOCK.

DOUBLE LAYER

BIG TOE HOLE PREVENTER / HEEL HOLE PREVENTER

- Self-adhesive patches that prevent big toe and heel holes from forming
- Stop holes from getting worse if they have started to appear
- Thin patches fit inside footwear and are unnoticeable once applied
- Patches are manufactured from tough abrasion and tear resistant material
- Each pack contains 2 self-adhesive patches, a left foot applicator and a right foot applicator

Retail \$16/COG \$8.00

✓ Prevent big toe holes

Fit preventer patches in running shoes or trainers to stop the holes appearing

✓ Unnoticeable after fitting

Patches are thin but very hardwearing

✓ One size fits all

Suitable for shoe sizes from 3 up to 12

✓ No mess or fuss

The applicator ensures self-adhesive patch is positioned in the correct place every time

**NOW AVAILABLE IN
BLACK OR WHITE**

White

HEEL HOLE PREVENTER

Don't replace footwear due to heel holes. Fit **Heel Hole Preventer** patches to stop holes appearing.
