Accident Coverage

This insurance pays a benefit for each injury, treatment or service included in the policy that occurs as the result of a covered accident.

For example, Jeff's son, Jake, was playing soccer during recess at school. He was tripped and falls hard, injures his shoulder, and is transported by ambulance to the ER due to concerns of head trauma. The ER doctor orders a CT scan to check for any facial or head injuries and a shoulder X-ray.

Jake was diagnosed with a concussion and a broken collarbone. His arm was set in a sling, and he was released to his pediatrician for follow-up care. Jake visits his pediatrician at two weeks and one month after the accident to make sure he's healing well.

In the meantime, Jeff starts receiving bills for the care Jake received. The ambulance bill alone was \$556. He's a pretty healthy kid, so a health insurance deductible of \$1,500 had to be met before Jeff's health insurance would begin covering Jake's care, and after that, there's a 20% copay.

Accident benefits pay in addition to other insurance, and can be used to help cover gaps in health insurance or other expenses if the unexpected happens.
