

Date: 4 August 2026

The purpose of this Announcement is to provide an update to the market in respect of the previously announced member distribution known as the 'Water Users Credit'.

Member or network distribution

Source of additional water	Following the opening allocation announcement on 1 July 2026, additional water held by Murray Irrigation Limited (Company) may be made available to customers via the 'water users credit' from time to time and to the extent available. This water is in part available from surplus water allocation after accounting for transmission losses, but has also become available to the Company due to the supplementary water event declared by WaterNSW.
Distribution method	Increased from 5% to 8% of the volume delivered on-farm through a compliant meter, based on meter readings.
Eligibility	Water-using customers for whom the Company delivers water to a farm through a compliant meter.
Effective date	1 July 2026 – 30 June 2027, unless amended, suspended, withdrawn or replaced by a subsequent announcement in accordance with applicable legislative and regulatory requirements.
Account treatment	Credited, on a daily basis, as water allocation to eligible customers' water allocation accounts.
