

Private Label Candle Manufacturing

For 30+ years, Engineered Plastics has proudly worked with candle companies that want to grow but may be hitting a ceiling due to space, equipment, or labor constraints.

Our 60,000 sq. ft. facility in Erie, PA. offers private label end-to-end custom candle making. We focus on clean true notes of fragrance, consistent pouring, labeling, and packaging all aligned with your brand's unique profile and your quality standards.

Our private label custom candle operation does not use paraffin wax or any chemicals, UV protectors, or toxic colors added. We only use high quality components and are ready to work with you on the exact type of candles you envision.

Private Label Capabilities:

- **Vessel:** Jar size and vessel material (glass, ceramic, metal, etc) chosen by you.
- **Lids and Labels:** Custom lids and labels chosen by you.
- **Wax:** Custom wax chosen by you.
- **Fragrance:** Custom fragrance chosen by you; up to 3 scent layers per SKU.
- **Wicking & Value Add:** Proprietary in-house wick holder made from 100% recycled plastic. Only used during manufacturing process for consistent wick placement, wick stability, and production efficiency.
- **Testing:** Burn testing for candle performance.
- **Quality:** Documented QC checks and full lot traceability.
- **Lead Time:** ~2 to 4 weeks
- **MOQs (approx.):**
 - **4 oz** – 1,440 candles
 - **6 oz** – 960 candles
 - **8 oz** – 720 candles
 - **12 oz** – 480 candles
