U.S. Patent No. 12,404,156

CONTROL OPTIONS

Gear Pump Operation

SINGLE CYLINDER LL400-LL800 | DOUBLE ACTING

Our LL-400 through LL-800 model hoists for Class B through Class F applications. All models are distinctively engineered for lift stability and installation versatility.

DUAL CYLINDER LL1000-LL3000 | SINGLE ACTING

Models LL-1000 through LL-3000 employ a unique combination of twin telescopic cylinders, mounted within a superior-designed scissor frame and built to give maximum torsional strength to handle uneven loads.

POWER PACKAGES

FOR LL400-LL800

- With Standard Electric Pump
- With Twin-Motor Electric Pump
- With Double-Valve Electric Pump
- With Gear Pump & Double Valve Reservoir (Cable Op.)
- With Gear Pump & 12 Volt Valve Reservoir
- With Gear Pump & 12 Volt Premium Valve Reservoir

FOR LL1000-LL3000

- With Gear Pump & 50 Quart Reservoir/Single Valve
- With Gear Pump & 60 Quart Reservoir/Single Valve
