ATTENTION !!!

LEIPSIC VILLAGE POOL

With anticipation and the excitement of another pool season upon us, the village employees were working very hard to prepare for the 2026 Pool Season opening day on May 25th. During the yearly pool inspection by the Putnam County Health Department today, there was a very disappointing and unpredictable observation. While the final steps were being made and waiting for the inspector to arrive, it was noticed that water was coming up through the control joints on the pool deck in various places. After some investigating, it has been determined that there is a leak in a water line under the deck which is causing the pool to lose water. A contractor has been called and we are currently waiting on a time frame for them to come and hopefully pinpoint where the leak may be.

With this unfortunate discovery, I am very sad to say that the village pool will not be opening Memorial Day. At this point, I have no time frame on when the pool will be ready to open. Once the location of the leak is found, I will have a better understanding of how long the repair will take and when the pool may be opened.

The Village is disappointed about this unexpected event, but will continue to do the very best to get the required repairs completed in the quickest and safest way possible so that the pool can reopen. I will keep everyone updated through the Village Facebook page and the Village Website as quick as I can, with any current information as I receive it.

Thank you ahead of time for your attention, patience and understanding of this unforeseen setback to the 2026 Pool season

Kevin Siferd
Leipsic Village Administrator
