Made here. Tested here. Backed here.

Australian manufacturing, rigorous quality control and long-term peace of mind – built into every Walara panel.

Zero Defect quality control

Multiple checks throughout production prevent manufacturing defects from ever reaching your roof.

Engineered for durability

Quality materials and robust construction help ensure reliable output and protect your investment for decades.

Tested for real conditions

Built to withstand Australia's harsh climate. Including extreme heat, salt mist, hail and even cyclonic winds.

25-year comprehensive manufacturer's warranty

Covers parts, transport, removal and reinstallation in the event of a Tindo panel fault. Plus, every Walara series panel is eligible for the \$1,000 Premium Warranty Offer*.

Made in Australia. Backed for the long term.
